ONE CENT

AMERICAN BINDER TWINE

is Mr. Charlton's Latest Protective Idea.

ton's zeal for fair trade or reciprocity in tariffs with the United States is standing the test of time. His speech on the budget won him fame as a reclaimed free trader and pro-American, and now he is out for an export GOVERNMENT NOT TO BE HURRIED duty on nickel ore and a countervailing duty on American binder twine He urged upon the government to-day in the House the adoption of these measures in the interest of Canadian producers. It was upon motion to go into supply that the member for North the Interior came out squarely to night attention of the House.

for 15 years Canada had been the chief source of supply of the world for nickel, but the business had been managed by our United States friends ceeded in getting nearly all the advantages that can be obtained in this the vote for the Territories in view extensive and lucrative enterprise. of the necessarily growing expendimft the matte or refined ore free question of establishing provincial of duty and to impose a heavy duty governments in the west had not been by the companies owning them, and the matte exported to the United States and refined in that country. The policy which we had permitted the United States to pursue towards us in this matter had not been conducive to our own interest.

Becoming More Important.

The use of nickel, he continued, promises to be much more extensive, and the control of the industry to be of much greater importance in the near future than at present. The our nickel deposits had been worked the Territorial treasury he said that

special constitute an important element of the inflation control of the libraries in Except and the control of the inflation control of the inflat

lind, too, as the possession of this nickel meant a serious factor in the manufacture of armor plate.

Uncle Sam's Smartness.

Another matter, in which our respected and highly-esteemed Uncle Samuel had been a little smart for us was in the imposition of an export duty of \$7.50 on Manila fibre exported from the Philippines, the exported from the Philippines, the exported to the clandian manufacturer or imported of Manila, while the United States manufacturer is free of this duty. There was supposed to be reciprocity in kinder twine between Canada and the United States, but, while Canada admitted all kinder twine between Canada and the United States charged a duty of 40 per cent. on all twiney containing Manila. It would, therefore, be seen that both as regards importation of raw material and export of finished product, the Canadian manufacturer could not compete with the American. The only remedy for this, Mr. Charlton pointed out, was a countervailing duty of half need to contain the charge of the choirs of the choir between Canada and export of finished product, the Canadian manufacturer could not compete with the American. The only remedy for this, Mr. Charlton pointed out, was a countervailing duty of half need to contain the counter of the choirs of the choirs of the choir between Containing Manila. It would, therefore, be seen that both as regards immore than delighted with the novel and the Canadian of the counter of finished product, the Canadian of the counter of finished p

Government Considering Mr. Fielding replied that both questions raised by Mr. Charlton were of an important character, and had already engaged the attention of the As regards nickel, the government, two years ago, took power to impose export duties; but, after investigation, it was felt not to be in the interest of the mineral development of Canada to carry it into effect. The question of the export duty on Manila had been brought to the attention of the government within the past day or two by the press, and by the governments interested in the by the governments interested in the matter. It was an entirely new and upprecedented question, and was now engaging the attention of the government. Whether or not it was a subject which required immediate attention would be decided in a few days. More than that, he could not say at More than that, he could not say at

London, April 19 .- The Daily Telegraph the law. announces this morning that prolonged negotiations have resulted in a new combina-

management.

The lines involved are the White Star, the Dominion, the Leyland the Atlantic Transport, the American and the Red Star lines. The joint control of these amalgamated companies, says The Daily Telegraph, will be practically in the hands of the same men who guide their separate destiries, the intention being to reduce working expenses, to avoid ruinous competition and to secure harmonious working relations with the great American railways.

The Times confirms The Daily Telegraph's announcement of the formation of a shipping combination. The Times adds that Mr. Piric of Hariand & Wolff and J. Pierpont Morgan have been the principal

Mr. Balfour Intimates That a Majority of the Burgher Delegates Who Conferred With Milner Favored Acceptance of British Terms-Chiefs Leave Pretoria to Take Followers' Opinion Before Concluding Peace.

MEANWHILE GEN. LORD KITCHENER REFUSES TO GRANT AN ARMISTICE.

London, April 18.-The government leader, A. J. Balfour, in the

House of Commons to-day, made the following important statement: and meeting of representatives of the various Boer commandoes to consider the position. The Boer leaders have, therefore, left Pretoria to carry out this plan."

Mr. Balfour added that it was not expected that communication between the British authorities and the Boer leaders could be resumed in less than three weeks' time.

Balfour's statement made a generally favorable impression. It was argued among members of the Commons that the action of the Boer leaders demonstrated that, at any rate, a majority of the delegates favor the acceptance of the suggested British peace terms. The submission of the question to a plebiscite of the burghers is according to Boer law, which requires the leaders of armed forces in the field to take the opinion of their followers before concluding peace.
