

LABOR CONFERENCE GIVES APPROVAL TO ALL CONVENTIONS

Last of Them Was Adopted
Saturday Morning.

A DISAPPROVAL MOTION

South African Delegates Move
Protest Against European
Preponderance.

WASHINGTON, D. C., Nov. 23.—(By the Canadian Press, Limited).—The international labor conference this morning voted to define what it did yesterday. Following a series of amendments made by the conference yesterday morning to the draft convention regarding employment of women before and after childbirth, the drafting committee was in a minority. Exactly what the amendment means was not clear.

At the outset this morning the conference voted on the question as to whether or not it had meant to include all women wage earners in the convention—whether employed in industry, commerce or agriculture. First, application of the convention to women employed in agriculture was defeated by 22 to 27, then by a vote of 49 to 23, the conference decided to extend the provisions of the convention to women employed in commercial as well as in industrial establishments. A vote followed on whether the conference wished maternity benefits to be paid entirely by the state or whether they should be paid by the state and by a system of insurance. By 72 to 8 the conference decided that benefits should be payable either by the state or by a system of insurance. A vote was then taken on adoption of the whole convention.

All Now Approved.

Tom Moore, substituting for the Canadian workers' delegate, voted "for" adoption of the convention. Hon. S. W. Rowell, Senator Robertson, Canadian Government delegates, and S. R. Parsons, Canadian employers' delegate, voted against adoption. The British Government delegates abstained from voting. The convention was adopted on the following vote: For 67, against 10, abstentions 17. Thus all conventions

before the conference have now been approved on the final vote. They will now go to all states represented at the conference for ratification by the competent authority.

As a result of today's voting, the convention in regard to employment of women before and after childbirth will be the only one applicable to employees of commercial, as well as industrial, establishments. All other conventions adopted apply to workers in industrial establishments only. It was on this ground, it is understood, that the Canadian Government delegates voted against the convention adopted today.

They take the view that the convention departs, in this regard, from the general principles laid down in other conventions. A resolution was adopted that "in view of the fact that the peace treaty is not yet ratified, the governing body of the international office be authorized to take such steps as will make the decisions of the conference effective."

Express Disapproval.

Further, the governing body was authorized either to reconvene the conference or to consider its present meeting closed as might be deemed desirable. Mr. Gemmill, employers' delegate from South Africa, then moved that the conference express its disapproval of the composition of the governing body of the international labor office, inasmuch as the conference was composed of representatives of European countries.

Canadian workers' delegate, was whether European countries should dominate the international labor conference. The Canadian Government delegates did not vote on the motion. Canadian employers' delegate supported the motion. The Canadian workers' delegate voted against. The motion was carried by 41 to 39. The conference closed at 2:15 this afternoon.

WRECK OF FREIGHTER HAS BEEN ABANDONED

CLEVELAND, Ohio, Nov. 30.—The freight ship "Toga," which was aground in Lake Superior near Calumet last Wednesday, is pounding to pieces and has been abandoned by its owners according to advices received by the underwriters here today.

The boat was bound from Duluth to Buffalo with a cargo of 100,000 bushels of wheat, valued at approximately \$250,000. The Merchants Bank of Canada Steamship Company of Duluth. Her crew left the boat Thursday.

TO LOCATE IN LONDON.

LONDON, Nov. 28.—(Canadian Press).—The Merchants Bank of Canada will shortly open a branch at Cornhill, in premises formerly occupied by an enemy bank.

ARREST MINERS WHO REFUSE TO RESUME WORK

Such Action Indicated in Discussion in U. S. Government Circles.

MAY CHARGE CONTEMPT

Officials Believe Such Refusal
Would Be Disobedience
of Court Order.

INDIANAPOLIS, Ind., Nov. 30.—Possibility of the arrest of miners who refuse to return to work tomorrow, when all mines will be opened by operators in compliance with the decision of the Government, was indicated in discussion in federal circles here tonight. Officials were of the opinion that refusal would be in violation of the federal court injunction against interference with coal production and that it could be construed as encouragement of the strike, and action specifically prohibited under the provisions of the injunction. No statement regarding the what action, if any, the federal agents would take, however, was forthcoming tonight.

A statement issued yesterday by Dan Simms, special United States district attorney, in charge of enforcement of the court's mandate, in which he said any person who had knowledge of the temporary injunction, and who afterwards violated it, would be charged with contempt, was taken to mean that such action would be pushed, if the miners refused to return to work.

There was no indication at United States district headquarters here that the miners in the Indiana fields intend returning to work tomorrow. It was said that word from the miners showed that 10 per cent wage advance offered. Leaders of the mine fields intend to indicate what course they intended to pursue, but it is not thought tonight in the mines that word-time restrictions have not altogether checked the drain.

Not much hope was held out by officials tonight for early production of bituminous coal in quantities sufficient to permit the maintenance of the present slim reserves under the supervision of the central committee. The central committee's figures show that last week's coal output did not reach 50 per cent of normal production. This meant, officials explained, that local needs must be met from the supplies being distributed through the central committee, whose stocks aggregated about 22,000,000 tons when the miners quit work. No figures were available today as to the exact amount of coal now on hand.

While regional coal committees acting under instructions from Washington have been asked to coal sparingly, further and more drastic action may have been agreed upon by the central committee. They will be put into effect whenever the regional committees are unable to meet the situation with local resources. Details have not been made public but it is known that a tremendous reduction in coal consumption.

PRESENT CONDITIONS
SIMILAR TO WAR TIME

WASHINGTON, Nov. 30.—The pinch of the coal shortage promised tonight to force the adoption of drastic measures to avert an actual famine. A vacation of one month by the coal miners has brought on conditions like those prevailing during the war in many sections, but war-time restrictions have not altogether checked the drain.

Honest Heart Was Secret of Prince's Wonderful Success

LONDON, Nov. 28.—(Canadian Associated Press).—The Spectator attributes the return of the Prince of Wales on Monday to an article attributing the wonderful success of his tour to his absolute correctness of demeanor.

"The great thing the prince has done on the positive side is to have the gratitude and admiration of the people, though these have been overwhelming, the Spectator says, 'but the negative side, perhaps, has been more remarkable part of the tour. The prince seems to have made no mistakes. The difference of tone and manner among Canadian and American people is a task capable of trying the ablest and most tactful diplomat, yet the prince sailed triumphantly over the slightest buffet from the waves. His simple secret was his honest heart, with the addition of good sense and modesty.'

The writer advises the prince never to be turned from his friendly disposition toward all honest men and specifically urges him never to let go of the hand which America has held out and which he now grasps.

LIBERALS WILL OPPOSE DOHERTY AND RANEY

TORONTO, Nov. 30.—The Liberals have decided to put up candidates to oppose Hon. Manning Doherty, minister of agriculture, and Hon. E. Raney, attorney-general, in the coming by-elections. It is not likely that there will be any opposition to the other six ministers.

FROM A CHILD WAS CONSTIPATED

According to the best medical authorities, fully three-fourths of the people of the civilized world suffer in some form from constipation or irregular action of the bowels. There is no doubt that many distressing diseases are caused by constipation. It gives rise to sick and bilious headaches, jaundice, heartburn, floating specks before the eyes, catarrh of the stomach, biliousness and the painful, troublesome piles. Therefore, it is of supreme importance to health that the bowels be kept regular. Simple food, fruit, etc., should be used, and rich food and stimulants of all kinds avoided. This, with the use of Milburn's Laxa-Liver Pills to regulate and establish healthy action of the bowels cannot fail to give permanent relief in the most obstinate cases.

Mrs. Letitia Walman, Orillia, Ont., writes: "From a child I was always very badly constipated, and I can well remember when quite young my mother giving me a small tea nearly every morning, and I got to dread it. After taking Milburn's Laxa-Liver Pills for a while I am not troubled with constipation any more."

Milburn's Laxa-Liver Pills are 25c a box, at all dealers, or mailed direct on receipt of price by The T. Milburn Company, Limited, Toronto, Ont.

HEAD TURNKEY DIES AS RESULT OF STABS INFLECTED BY MAN SENTENCED TO HANG

Arthur Awty of Hamilton Jail
Is Second Victim of Desperate Criminal.

HAMILTON, Nov. 30.—Arthur Awty, head turnkey at the Barton street jail, who was stabbed several times in the body by Paul Kowalski, awaiting execution for the murder on February 17 last of Nick Tremblak, died from his injuries last evening in a room in the jail to which he had been removed.

Ex-sergeant John Lowery and William Berry, who also were arrested while attempting to overpower the man, who had added a worse crime to that for which he already had been condemned to death, are recovering in the General Hospital.

A Desperate Man.

Although it was the duty of the police that Kowalski was a desperate man, he had been tractable since his removal to the jail on October 15, and was carrying out of the death sentence. How he secured possession of the iron upon which he attacked the turnkeys, or was able to fashion it into a weapon such as that which he used with such terrible effect, are things that remain to be ascertained. Governor Ogilvie said that the prisoner was always no more tractable than a snake, and that he was the duty of the three turnkeys who went to the cell together was to keep him from doing anything that had been taken in was removed. It was the spoon with which he had taken his breakfast that probably was used to twist the handcuff which throttled the death watch. Constable Springstead, who was caught off his guard, and never had a chance of defending himself, was severely injured. Kowalski smashed everything in his cell, tearing out the window frame by sheer brute force the such weight, with which he crushed the skull of his victim, whom he had already throttled, a very effective blow. It was a long bar of metal about two feet in length. Kowalski, shortly after the tragedy, the detectives say, informed the police that the knife which he used as a weapon was loaned to him by Constable Springstead. It is said that at breakfast time the prisoner had been asked to feed the fruit, and it was loaned to him, and the weapon was returned to it. Kowalski was sequestered on the condemned man's person.

FOREST I. O. O. F. LODGE HONORS VETERANS

FOREST, Nov. 30.—Seven members of Royal Oak Lodge, No. 105, I. O. O. F., who served overseas in the war, were honored by their fellow-members at the last regular meeting. The returned soldiers were Capt. E. Chalk, Corp. Wm. Ross, Serg. Gordon France, and Privates William Baldry, Clifton Clifford, Lawrence Scott and Gerald Steele. The chair was filled by John Fisher of Cambridge, D. D. G. M., and an address signed by W. W. Kemp, P. M. Doctor, N. G., and J. N. Shipley, V. G., was read. The soldiers and each was presented with a pair of gold cuff links, suitably engraved. The address of reference was made to the loss of one brother, Geo. Oakley, who made the supreme sacrifice. A program of speeches and music was given and lunch served. The Forest orchestra was in attendance.

The funeral of Margaret Purcell, widow of John A. Cairns of Aberdeen, took place yesterday at Beechwood Cemetery. Funeral Rev. W. G. Gaskin, conducting the service. Deceased was in her 64th year and was born in Dorchester, but lived in Plympton since her marriage, 40 years ago. She is survived by two sons and four daughters, Elmer, Robert, Lizzie and John, all in Plympton. One brother and one sister, also survive; John Cairns, of Montclair, and Mrs. John Armstrong of Plympton.

WABASH CHILD FALLS INTO HOT WATER, IS SEVERELY SCALDED

WABASH, Nov. 30.—Glady's, the three-year-old daughter of Mr. and Mrs. John Coulter of Chatham Township, is in a serious condition as the result of being severely scalded.

The little victim, with some playmates, had been racing around the house, when she tripped and fell backward over a pail of boiling water. This had been set down by an older sister, who was preparing to clean the floor.

WOODSTOCK TO VOTE ON INDUSTRIAL BYLAWS

WOODSTOCK, Nov. 30.—The two industrial bylaws, concerning the establishment here of the Brunswick Canadian Products Company, and the Warren Pipe Organ Company will be submitted to the people for their vote on Monday. Public sentiment strongly favors the carrying of these two measures, and though there are those who oppose it, there is every indication that the two will receive the required two-thirds majority.

CLANDEBOYE CHILD SERIOUSLY BURNED

CLANDEBOYE, Nov. 30.—Arthur Dauncy, three-year-old son of George Dauncy, was seriously burned about the body and one side of his face today. It is thought that his clothing caught fire when the little fellow lit a match. Dr. Hamilton of Alisa Creek, dressed his burns, and he is doing as well as can be expected.

A good crowd attended the social evening given by the Ladies' Guild of St. James Parish. A good program was given after which the ladies served lunch.

The clover threshers are in the vicinity, and those who have threshed report a fair crop of grain. Most of the farmers have their cattle and horses stabled for the winter.

INGERSOLL CHURCH ANNIVERSARY SERVICE

INGERSOLL, Nov. 30.—The 50th anniversary of the founding of the Anglican Church was fittingly observed today. Special services were held, and the congregation was large, while excellent music was rendered by the choir. The present rector is Rev. W. E. V. McMillen, formerly of Lethbridge, who succeeded Rev. J. M. Perkins, Archdeacon Richardson of London preached the morning sermon, while Bishop Williams, D.D., of London was heard with much interest at the evening service.
