30TH YEAR

A NEW VICE ROY

Sir Chas. Hardinge Will Succeed Earl Minto—His Father Was Viceroy in the 40's—Earl Minto on Indian Problems.

LONDON, June 10.—The appointment of Sir Charles Hardinge, permanent under secretary of state for foreign affairs, as viceroy of India, in succession to the Earl of Minto, was officially announced to-day.

The Right Hon. Sir Charles Hardinge is a son of the second Viscount Hardinge, and a brother of the present peer. His grandfather, the first viscount, was a distinguished British general, who saw much service in the Peninsular War, and later in India, where he succeeded Lord Ellenborough as viceroy in 1844. Sir Charles was born in 1855, was educated at Harrow and Trinity College, Cambridge, and entered the diplomatic service in 1880. After serving in subordinate capacities he was appointed secretary to the legation at Teheran, Persia, in 1886, and two years later occupied a similar position at St. Petersburg. In 1893 he was made assistant under secretary of state for foreign affairs, becoming in the following year ambassador at St. Petersburg, and returning to Britain in 1905 as permanent under secretary.

Another Job for London Law Lords

City and Street Railway Equally Firm—Mr. Oiler's Letter Kept Secret by Controllers.

That the differences between the city and the street railway, over the terms of the order on which the new lines are to be built will result in another resort to the privy council, this time by the company, appears inevitable.

The board of control yesterday considered in secret session a letter from H. S. Oiler, the company's solicitor. On the advice of the city solicitor its contents were not disclosed, but, according to Controller Foster it did not seem to pave the way for amicable settlement.

"It was rather the other way," he said. "The company is inclined to go to the privy council unless the city agrees to early rulings as possible by the law lords."

But this the city will not do. The board agreed at the conclusion to stick to the Whitney Act, and hope for an early ruling as possible by the law lords.

MURDERER'S LIFE SAFE FOR THE SUMMER

Procedure That Kept Blythe From Gallows to Be Invoked for Italian Ventrucini—Three Others Under Sentence Who May Be Affected.

It looks as tho no man need be hanged in Ontario during the summer months, if he has a counsel willing to take advantage of the technicalities which a strict interpretation of the law affords. For instance: Pasquale Ventrucini, sentenced by Justice Riddell to be hanged in Toronto, July 30, for the stabbing of one Fablio on March 8, cannot be executed until after September 1, which is the day fixed by statute for the sitting of the court of appeal, is the statement of T. G. Robbette, K.C., his counsel, made to the press to-night.

The same two sections of the original code which stayed the death sentence passed upon Walter Blythe by the same judge, until a new trial was granted, resulting in a conviction of the lesser crime of manslaughter, will be invoked to prolong the life of Ventrucini, and under these sections there seems to be no possibility of hanging any man in the summer months, for the court of appeal is precluded by a statute from sitting between the months of May and September.

Will Apply Today.

This morning Mr. Robbette will apply to Justice Riddell for a stated case to the court of appeal, upon the ground that it is improper for that judge to call the jury back after they had been deliberating for over two hours, tell them that they might bring in a verdict of guilty, and to promise them that he would give them five minutes to arrive at a verdict. This Mr. Robbette describes as "dragging" the jury. He further points out that the judge did not act upon the recommendation to mercy, but reported against conviction.

A further ground upon which he will move for the stated case is that the jury were improperly charged with regard to the four knives found in the prisoner's trunk, the names of which were used in the stabbing.

Should Justice Riddell refuse the application for a stated case, as he did in the Blythe case, Mr. Robbette will do as he did then, and set down notice of motion under the magic section of the code, and proceed to serve the attorney-general with notice of such setting down. His will then apply to the judge of the high court for an order like that granted by Justice Teetzel in the Blythe case, forbidding the execution until the motion is heard by the court of appeal, which is set for September. Under the criminal code the judge cannot do other than comply.

LIKELY TO NAME EXPERTS TO REPORT ON A TARIFF

According to Washington Despatch New Trade Treaty is Probable, During Next Winter.

OTTAWA, June 10.—(Special.)—In a statement as to the progress of trade negotiations with the United States, Hon. W. S. Fielding, minister of finance, says that no immediate action can be taken, but he has not failed to observe that there was considerable manifestation in Canada, of opposition to reciprocity with the United States. Some of this was natural and inevitable. Much of it, however, was, he thought, due to a misunderstanding of the situation, and was at least premature.

The position of the Canadian Government was that they were bound to receive the assurances of the American Government in the good spirit in which they had been offered, and to hope for a satisfactory arrangement. It would certainly be a foolish and indefensible act for the Canadian Government to refuse to enter into negotiations which they had been invited in such a friendly manner.

A Washington despatch says the Canadian Government has indicated to the secretary of state its desire to take up as early as possible the negotiation of a trade treaty with the United States. Formal action, however, may be delayed until next autumn because of the absence of Mr. Fielding and Customs Minister Paterson.

The despatch adds:

"It is commonly expected that very soon after their return a Canadian Commission will be appointed to confer with a similar commission from the U.S., and there is no known reason why the matter should not result in a formal treaty before the middle of the coming winter. In the meantime the Canadian experts, as well as those in charge of customs matters in the U.S., will gather such data as will be of importance in the settlement of the various questions that will come up before the commissioners of the two countries."

"Communications from official and unofficial sources in Canada clearly establish the fact that Dominion Government officials are anxious to bring about closer commercial relations with the U.S. through the instrumentality of a trade treaty."

WHAT PREMIER WHITNEY SAYS OF THE SITUATION

Thinks the City and Electric Light Company Ought to Try and Get Together Somehow.

"Do you think that the city would be well advised to attempt to bring about some arrangement with the Toronto Electric Light Co.?" asked the World of Sir James Whitney yesterday afternoon.

"I cannot speak of the matter from the point of view of an expert," replied the premier, "nor am I aware what difficulties would be encountered; but from an ordinary, everyday, common-sense and business point of view, it would seem to me desirable that the city and the Toronto Electric Light Co. should endeavor earnestly to come to a satisfactory agreement, if such an agreement is possible, in order to avoid unnecessary expenditure."

"I have no idea as to what would be a satisfactory agreement, but I think the common sense, indeed the wisdom of such an attempt is so apparent as to need no argument."

"I speak as an individual and an observer," continued Sir James, "and have no knowledge of a reference to any other which has been made, or is likely to be made."

HAMAR GREENWOOD HONORED

Briefed by Canadian Government in North Atlantic Fisheries Case.

LONDON, June 10.—(Special Cable.)—Hamar Greenwood, barrister, has been briefed by the Canadian Government in The Hague arbitration in regard to the North Atlantic fisheries. In legal circles this is considered a high honor for Mr. Greenwood. It is a tribute to the position he has won through his brilliant practice before the privy council. Those qualified to speak privately to a considerable extent, the cause of the great unrest of to-day.

A SURPRISE AT THE GATE

CALLER TAFT: Why, Fielding didn't say anything about a dog on the place.

LAYMEN AND MINISTERS HAVE A NOISY CLASH

Former Object to Conference Raising Resolutions Without Discussion—Dr. Cleaver Assails Jackson's Theology.

Never, perhaps, in the history of any Methodist conference in Toronto have such scenes of excitement occurred as those which marked the close of the afternoon session yesterday in Elmwood street Church. It was a perfect war of words, resolutions, contra-resolutions, interruptions and objections. The president, Rev. Dr. Hincks, was nearly at his wits' end trying to regain a semblance of order. It seemed almost at times as if a too hasty word might precipitate matters to a pitch unprecedented in such an assembly.

The trouble began when the report of the Laymen's Association, with recommendations already published, was presented for consideration and endorsement. E. Powell, secretary-treasurer of the Laymen's Association, read the report.

"I object to this procedure," said one of the lay delegates. "What use is it for us to spend time here bringing in these resolutions to this conference if they are not to be considered by this conference?"

"Hear, hear," said the laymen.

"The general conference will have to consider the report in any case," explained Dr. Hincks.

"Will the endorsement of the Toronto conference give weight to the laymen's report when brought before the general conference?" asked a layman.

"It undoubtedly would," was the ministerial reply, "but to give the clauses due consideration would take up the remainder of the conference session. Besides the laymen held their meeting in private."

"At this moment Rev. Dr. German jumped to his feet.

ANOTHER TRUNK CRIME MYSTERY

Body of a New York Woman of Notoriety Found in an Italian Lake.

COMO, Italy, June 10.—The badly mutilated body of a woman, believed to be that of Mrs. H. M. Castle, who was Mary Crittenden Scott of San Jose, Cal., was found in a trunk to-day, submerged in a lake near the village of Moltrasio.

The police, basing their opinion on wounds on the head, evidently made by a blunt instrument, believe the woman was murdered, and have arrested a Russian named Constantine Ispolofoff, 50 years old, whom they suspect of having some knowledge of how his woman met death.

Several persons who had known the woman in life declared that she had told them she had been married to Porter Charlton, the son of an American naval officer. Charlton is described as being 23 years old. The woman apparently was about 35 years old.

When the body was found it was recalled that recently a young couple had occupied a villa on the shore of the lake. Three days ago they disappeared. The woman spoke English. Her companion attempted French.

The police believe the death of this woman is in some way connected with the mystery surrounding the finding last April of the body of Miss Estelle Field of New York, on the beach near Naples, where it had been washed in from the bay.

Known in New York

NEW YORK, June 10.—Mary Scott Castle started New York on August 3 last by shooting Wm. B. Craig, a New York lawyer, as he stood in "Peacock Alley" at the Waldorf Astoria. But her revolver was small, the bullet was deflected by a fountain pen in Craig's pocket, and he was unharmed.

Mrs. Castle, between sobbing said that she had meant to kill Craig, but that he had done her a great wrong. Craig said the woman was in love with him and had pursued him. He is married and lives in New York.

Mrs. Castle was released under \$3000 bail, furnished by her brother, Captain Henry Harrison Scott, U.S.A. The case never came to trial.

Later despatches from the west told of the granting of a decree of divorce at Nome, Alaska, to her husband, Neville H. Castle, a San Francisco lawyer.

Mrs. Castle was a pretty woman, and had a brief stage career in New York after her marriage to Sastie, more than ten years ago. She was 37 years old.

Why They Are Worth It

There are suits at Oak Hall's big new store that corner of Yonge and Adelaide-streets, that sell for as much as \$40, and they are worth it. The men who makes the coats of these suits is one of the most skillful tailors in Western Ontario, but he can make only two coats a week. His best efforts as a costumer go into every coat. The result is absolute coat perfection, the best that skill and experience can produce. As it is with the coat, so it is with the rest of the suit—the best of everything and a constant effort to produce garments without a single fault. The result is the \$40 suit.

STEEL CO. ENTER WIRE-MAKING INDUSTRY

Proposed Merger of Wire and Nail Mills Has Caused Big Corporation to Become a Competitor, President Plummer Says.

HALIFAX, N.S., June 10.—(Special.)—J. H. Plummer, president of the Dominion Steel and Coal Company, and General Manager Butler were entertained at luncheon by the Board of Trade this afternoon. The gathering included representatives of the financial, industrial and commercial life of the city.

Mr. Plummer announced that a company had been organized, under the auspices of the corporation, to erect plants for the manufacture of wire, wire nails and other finished wire products. The Steel Company's policy, hitherto, in this regard has been to confine its business to the manufacture of wire and nails through Canada, and this policy would have been maintained if the business had remained, as at present, in the hands of a number of independent concerns.

The proposed merger of the larger wire and nail mills had forced the corporation to move in the proposed direction for the protection of its own interest, and of the interests of its customers, who do not go into the market, as will be seen, for the benefit of a number of independent concerns.

The proposed merger of the larger wire and nail mills had forced the corporation to move in the proposed direction for the protection of its own interest, and of the interests of its customers, who do not go into the market, as will be seen, for the benefit of a number of independent concerns.

Location in Doubt

The location of the new mills has not been definitely settled. A plant located within the steel works at Sydney would have distinct advantages in the way of cheaper production, but some disadvantages in regard to distribution, and it may be found best to build near the points where the products go into consumption.

The present site of the steel corporation now employs about 12,000 men, and that those men earn on the average better wages than do any other class of men in the city.

The output in value of the product of the works was \$116,000,000 annually, and half of this went back into the pockets of the men.

Two in One.

When he left Toronto recently, the Steel and Coal companies were, in effect, one and the same. The assets of the old companies had been exchanged for stock in the new, giving the Canadian Steel Corporation a predominant voice.

Speaking of the prospects of the company, he said that, while much had been done, a great deal remained to be accomplished. The new plant, he said, would be built, and the demand for steel from the Dominion keeps ahead of their capacity. A new finishing mill was also being built.

SUGAR TRUST SECRETARY GUILTY OF CONSPIRACY

"Highest Man Up" to Be Convicted For Participating in Vast Underweighing Frauds.

NEW YORK, June 10.—Charles R. Heike, the white-haired secretary of the American Sugar Refining Company, was convicted to-night on one count of an indictment, charging conspiracy to defraud the government of customs duties on sugar.

Ernest Gerbracht, former superintendent of the Williamsburg Refinery, was convicted on six counts.

For James F. Bendorff, former cashier of the refinery, the jury stood 7 to 5 for acquittal. He will be tried again.

This ends the government's second attempt to imprison the group of men responsible for the vast underweighing frauds, to which the so-called trust has virtually confessed. The restitution of more than \$2,000,000 in duty, Heike is the highest official of the company upon whom blame has been fixed.

He faces a possible sentence of two years in the federal penitentiary, and a fine of \$1000. He is 45 years old and broken in health and spirit.

Convicted on all six counts, Gerbracht can be sentenced to twelve years in prison, with a maximum fine of \$40,000. He is 64 years old.

A RETROSPECT

June 11, 1858—Governor Montagu arrived at Quebec and marked out the upper town.

June 11, 1727—George II. began his reign in England.

June 11, 1787—Rev. Wm. Black preached the first sermon in a Methodist church in Halifax.

June 11, 1888—Lord Stanley took Summer Days—Summer Hats.

Now for your panamas or straw sailor or straw alpine. To buy to-day is to have a wide choice. To buy from Dineen's is to have the pick of everything there is good in the hat line, either in Europe or America. The Dineen Company believe that their display has never been approached. Genuine Panamas from \$5 upwards. Other straw hats to suit any pocket book. Store open every evening until ten o'clock Saturday night.

The Sunday World

Get it early from your newsdealer or your favorite carrier.

Some of the life history of "Rev." George M. Atlas was told in court in connection with the trial and conviction of this accomplished rascal for the theft of \$400 from the estate of a murdered man. But there is more of it. James P. Haverson reveals the record of Atlas in The Sunday World. He tells the whole story, and it is one of the most elaborate exposures of a criminal that any newspaper in Toronto has printed in a decade.

THE ILLUSTRATED SECTION WILL SHOW YOU:

Splendid pictures of the several events of Toronto's big athletic meet, including the great Eaton International games and the public school sports.

A full page of excellent likenesses of the men who were officers in the Q. O. R. on or before the battle of Ridgeway in 1866.

Last graduating class of Toronto General Hospital.

Eaton Athletic Association baseball team.

Hamilton First Church Rugby team.

Glimpses of Toronto's favorite outing grounds.

Pictures of camp and wild animal life in the wooded lands of Renfrew County.

Beautiful views of the Madawaska River at night, showing striking cloud and moon effects.

Many other pictures of people and places.

THE MAGAZINE SECTION WILL GIVE YOU:

A review of the week's happenings in the Literary, Musical, Educational, Dramatic, Social and Motor world.

Several interesting special articles, including:

A Glimpse Into McMaster University.

Does a University Foster Education?

Observations of a Toronto Churchgoer.

Malcolm Watson's weekly letter will give the latest news concerning English plays and artists and Green Room Gossip will speak of the wags of the theatrical profession.

Uncle Bill will narrate his latest harrowing sensation, and Victor Lauriston will treat the Dog-Catcher and the Dog from a poet's viewpoint.

In the realm of sport the paper will be complete, and special telegraphic services will place Sunday World readers in touch with everything worth while going on.
