INSPECTION MADE OF NEW ADANAC STRIKE

Property Visited by World Representative in Company With Owners and Engineer.

COBALT "COMING BACK"

Realization of Camp's Possibilities Coming to Operators, Says Kirby Thomas.

A visit to a mining camp to inspect a new find, convinced one of the men who delve for the elusive mineral...

The visit to Cobalt after an absence of a couple of years convinces one that the great silver camp has taken on a new life.

The Cobalt camp may never come back to the tune of the great boom which followed the realization of the wonderful richness and unexpected extent of the unique deposits...

Within the next few months at least a number of new operations have been undertaken, mostly by new operators.

The above shows the position of Adanac in relation to Timiskaming and Beaver, the shaft on the Adanac and the strike of the vein across the three prospects...

The new work under way in the camp and conducted altogether likely, if continued extensively, to result in Cobalt coming back at any rate to greater public interest if not to a real boom.

In Early Days, it was one of those who faith was pinned to Cobalt in its earliest days, and he has never lost that faith although many disappointments have been met.

STOCK VALUES WEAKER THRU FOREIGN RELATION

New York Exchange Experienced Dull Session Owing to Diplomatic Uncertainty.

C. P. R. MADE RECOVERY

Alarming Reports on Conditions in Mexico Prevented Activity in Many Issues.

NEW YORK, Feb. 17.—The uncertainty arising from the international situation were again utilized today to impair quoted values, but declines were less severe than in the sessions immediately preceding.

Trading was lighter and more narrow in its scope than at any recent period, with frequent intervals of absolute inertia.

Advances in these stocks were neutralized, however, by the recurrent weakness of Petroleum, Copper, Sugar, United Fruit and various unclassified shares.

Among the day's favorable developments was an increase in the 4 per cent. basis, together with advances in prices of base metals.

After a smart five-mile drive on Saturday, in a nipping temperature of twenty below zero, the party reached the Adanac's comfortably heated office.

The vein slightly above the 265 level is formed by the meeting of three stringers of calcite which appear as a single vein, and which also appears diagonally across the winze from the first-mentioned, but this has not yet made silver.

The winze is about 285 feet below the surface, and some exploratory drifting will be done on the vein at this level before further sinking is undertaken.

Works Examined. A close examination of the working on the west side of the shaft at the 200-foot level showed three calcite and quartz vein systems, and a quartz vein cobalt vein system, and a quartz vein between five and six feet width.

NEW YORK COTTON. J. P. Bickell & Co. 802-7 Standard Bank Building, report New York Cotton Exchange fluctuations as follows:

WHEAT CLOSES HEAVY WITH SPECULATORS HIT

Reports of Big Shipments From Argentina Caused Prices to Weaken.

AUSTRALIA FACTOR, TOO

France and Italy Make Arrangements for Large Transportation.

CHICAGO, Feb. 17.—Estimates that Argentine shipments had trebled in volume as compared with a week ago.

Reports of big shipments of wheat from Argentina were accompanied by advices that Australian shipments would be substantially enlarged.

Heavenly fly danger was chiefly responsible for a temporary bulge at the outset in the value of wheat.

The new war tax was again a factor in yesterday's dealings on the Toronto Stock Exchange, and lower quotations prevailed throughout the session.

STOCKS LOSE GROUND ON MONTREAL MARKET. Considerable Weakening in Values Partially Recovered in Afternoon.

MONTREAL, Feb. 17.—The weakening of marginal accounts, resulting from the sharp lowering of prices on Wednesday, brought some further liquidation on the part of the heavy buyers.

COPPER STOCKS BOOMING ON NEW YORK MARKET. NEW YORK, Feb. 17.—The tremendous demand for copper and the high price for the metal has made an unprecendented demand for the shares of copper companies.

LOCAL BANK CLEARINGS. Clearings of Toronto banks for the week ended today were, with comparison with the week ending Feb. 14, 1915:
