SAGE TEA KEEPS YOUR HAIR DARK

When Mixed With Sulphur It Brings Back Its Beautiful Lustre at Once.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks straggled, just a few applications of Sage Tea and Sulphur enhance its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the recipe at home or get from any drug store a 50-cent bottle of "Wyley's Sage and Sulphur Compound," which is merely the old-time recipe improved by the addition of other ingredients. Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray hair and even, if you moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time.
