Store Closes Saturday at 1 p.m.—No Noon Delivery

Get the Boys' New School Suit from the Immense Display in the Boys' Clothing Section on the Main Floor

SCHOOL OPENS NEXT TUESDAY and every boy wants to return dressed up in a new suit of clothes. It's the most important season of the year anyway for boys' clothing, a time when the boy is really in need of them. It would never do to send him back in his rough summer holiday garb, and anyway every boy wants to look his best the first day back, so that a new suit is the all-important thing to him.

Every mother takes pride, too, in supplying her boy with smart serviceable apparel and any announcement regarding exceptionally good values is of interest to her particularly. A special purchase of new fall suits bought at a very special price will be offered Saturday for \$5.95 each. They are all new fall Norfolk suits in a variety of neat, dressy styles, including single-breasted coats with knife pleats at back and front, fancy pleated backs, and inverted peat effects. All have belt sewn on at waist and some have fancy yoke. They are made of firmly woven tweed in shades of brown or grey in stripes and small check patterns. Strong linings in both coat and bloomer pants. Sizes 25 to 34. Specially priced Saturday, each **5.95**.

Boys' Suits made of fancy mixed tweeds form a splendid assortment of dressy styles and attractive patterns. All have neat fitting coats with patch pockets, sewn on belt and fancy pleat effects, including pinch backs, three box pleats at back and ordinary pleats. A few have three piece belts and all are strongly lined. Patterns are diagonal stripes, checks and heather mixtures in light or dark greys and browns; Bloomer pants. Sizes 29 to 34. Price **7.50**.

The "Mascot" Suit for boys is a very smart model. Coat is three-button, single-breasted style and has pinch back effect and three-piece belt sewn on at back; three patch pockets and peaked lapels and fancy cuff on sleeves. Bloomers have belt loops, watch pocket and expanding knee band. In a dark shade of brown soft finished tweed with golden thread stripe. Sizes 29 to 34. Price **10.00**.

The "Aberdeen" Suit for small boys is in two shades of dark grey checks. Coat has pleats at back and belt sewn at back; patch pockets and peaked lapels. Bloomer pants. Sizes 24 to 28. Price **4.50**.

Boys' Navy Blue Serge Suits of imported worsted finished serge in fine diagonal weave. Have knife pleated back and front with sewn-on belt. Bloomers have expandable knee band, belt loops and watch pocket. Sizes 24 to 28. Price **7.50**.

Boys' Tweed Raincoats in New Fall Styles at \$6.00 and \$8.00

One very attractive line has small checks of grey or brown with fancy check rubberized lining. It is single-breasted slip-on style with close fitting collar, full fitting back, raglan shoulders, fancy cuffs and cemented seams. Sizes 24 to 34. Price **6.00**.

A very fashionable Tweed Raincoat shows attractive mottled effect of dark mixture with red and green specks shown here and there. It is single-breasted and has close fitting collar; patch pockets with flaps, full fitting back and fancy cuffs on sleeves. All seams are sewn and cemented. Sizes 24 to 34. Price **8.00**.

He'll Need Extra Pairs of Pants

Boys' Bloomer Pants, made of strongly woven brown tweeds. They are full fitting and strongly sewn throughout. Have belt loops and strap and buckle at knee. Sizes 22 to 28. Price, **1.00**. Sizes 29 to 34. Price **1.25**.

Boys' Bloomers, made of smooth and rough finished tweeds. Many fancy mixtures of greys or browns, also pin checks and stripes. Have loops for belt and expandable knee bands. Sizes 23 to 28. Price, **1.50**. Sizes 29 to 35. Price **1.75**.

Harvesters! Get a Pair of These Gloves for 50c

THIS IS A VERY timely suggestion that every man leaving on one of the harvesters' excursions should take advantage of. Gloves are really an important accessory on the farm to protect the hands from steam, thistles, grease, etc., and from being blistered and bruised. Here are some of the most desirable kinds:

- Men's One-Fingered Tan Gauntlet Mitts, made of split cowhide, a material known as muleskin. These are good wearing gloves, with strongly worn seams and continuous thumb 50
- Men's Short Tan Gloves, cut from split cowhide and with hand top. Special value, 35
- Men's Sheepskin Gauntlet Gloves in asbestos tan, in-sewn seams, continuous thumb and tan ruset cuff 39
- Men's Horsehide Gauntlet Gloves, in tan and grey, made of good quality soft skins. Have gusseted cuff, some with in-seam, others out-seams. Price, per pair 1.25

—Main Floor, Yonge Street.

Ideal School Hosiery for Boys

Made of strong durable soft and flexible yarns and made with double thickness in those parts which are first to show signs of wear are the following lines of hosiery we feature for school boys.

Boys' Ironclad Hosiery, durably made with 4-ply legs and feet. Pair 25

Boys' English Cashmere Hose, made from selected Botany yarns to fit boys from 4 to 15 years. The smaller sizes all have extra ply knitted into the knees. All have triple ply at the toes, heels and sole. Priced according to sizes. Pair, 35c to .65

Boys' Heavy Double Ribbed All-Wool Hosiery for strong sturdy out-door wear. Neat fitting and made from selected Saxony yarns, fashioned ankles and no seams to hurt the feet. Sizes 6, 40c; 6 1/2, 45c; 7, 50c; 7 1/2, 55c; 8 to 10, 60c pair.

Children's, Boys' or Girls' Ribbed Black Cotton Hose, 12 1/2c per pair—Our big special for strong, every day wear. Seamless and neat fitting. All sizes 12 1/2c
—Main Floor, Yonge St.

Boys' School Footwear for Fall and Winter Wear

The following descriptions tell of some of the very smartest models we show in Boys' Boots for fall and winter wear, and you'll note how reasonable are the prices:

These are all blucher-leaced boots and are Goodyear welted, which means perfect smoothness inside. Sizes 11 to 1 1/2; black, \$4.00; tan, \$4.25. Sizes 2 1/2 to 5 1/2; black, \$4.50; tan 4.75
—Second Floor, Queen Street.

OBJECT TO POLICY OF HYDRO RADIAL

Association Heads and Citizens Condemn Attitude of Government.

PRESENT RESOLUTION

Legislation Embodies Several Measures Believed to Be Solution.

Forty representatives of Ontario municipalities were present yesterday afternoon at a meeting of the general executive of the Hydro Electric Railway Association of Ontario, in the city hall, when protests regarding the Ontario Government's lack of connection with the hydro-radial policy in the province were registered. The actions of the Ontario Government respecting hydro power and radials have apparently been carefully followed by the association, and yesterday's session came in the nature of a climax which provided an opportunity for the members to air their grievances. A lengthy resolution calling upon the legislature to undertake certain measures in connection with the situation was fathered by J. W. Lyon of Guelph, and seconded by Controller

Morris of Hamilton. Summarized, the resolution recites: 1. That from time to time, as approved and requested by the hydro power commission, orders in council be granted providing lands for the purchase of rights of way. 2. That enabling legislation be passed for the purchase of the Chippewa-Creek power development by the municipalities of the Niagara power district. 3. That permission be given said municipalities to vote on bylaws guaranteeing said bylaws at the next municipal election. 4. That the Hydro Electric Railway Act be repealed with the exception of the fourth clause, and those confirming bylaws and agreements of the municipalities. 5. That legislation also be enacted divorcing the Hydro Electric Power Commission from any department, and from control of any department of the government. The central executive will interview the government and make the above requests. In recommending his resolution Mr. Morris stated that it was a large program which the central executive had drawn him to place before the association, "in fact, it was a platform," he said. "We have been under a cloud lately, but things have happened that have enabled us to see daylight. The people have been educated and the promises of the various government officials have encouraged us." Mr. Lyon maintained that the radials would ultimately be as extensive as hydro power and light. He was extremely optimistic regarding the future of the all-hydro plan. He was confident that the government was working with them, and pointed out that if a better understanding existed matters would be expedited. A strenuous objection was registered by Mr. Lyon regarding the tying up of the radials by orders in council.

Correspondence regarding the right of way from Toronto to Dundas, which caused considerable discussion during the Southwest Toronto election, was made known. Following the announcement by Attorney-General I. B. Lucas, in August, 1915, that the government had passed an order in council authorizing the Hydro-Electric Power Commission to purchase the right of way, the secretary of the union, T. J. Hannigan, wrote to the attorney-general and to the commission asking if the report was correct. The following letters were received in reply: Dear Sir:—The quotation in your letter as to my statement in reference to this matter is substantially correct. Upon looking up the file of correspondence I notice that there was a letter from the commission to the prime minister advising that the commission had decided to forward a petition for an order-in-council authorizing the commission to take the necessary steps to secure a right-of-way for the transmission line between Dundas and Toronto. Some further correspondence followed, generally explaining the matter, and on May 8 the petition for the order-in-council was forwarded to myself. Upon referring it to the law officers, they thought the petition should be amended in order to comply with the statute, and a memo was prepared in reference to the same, and on June 27 the amended petition from the commission was forwarded. On June 28 I signed the necessary recommendation for the order-in-council and so advised the secretary of the commission, and the order-in-council was duly passed on June 30. The clerk of the executive council

advised me that the formal order was not forwarded to the secretary of the Hydro-Electric Power Commission and delay in securing the formal signature of his honor the lieutenant-governor. Yours truly, (Signed) I. B. Lucas. Dear Sir: With further reference to your letter of Aug. 17, the matter was brought before the board at its meeting held yesterday, and I was instructed to advise you that March 2 last an application was made to the government asking for an order-in-council to empower the commission to buy the right-of-way from Toronto to Dundas. On March 10 a communication was received from the attorney-general asking for further particulars, which were furnished on the 16th. On June 20 Mr. Middleton advised the attorney-general that the form of application to purchase the right-of-way was not in accordance with clause C, section 8, of the Power Commission Act, and suggested that the form of application be amended accordingly on June 27 an amended application was forwarded to the government, which was acknowledged on the 28th. On July 4 the attorney-general wrote asking for information as to the nature of the transmission line which would include the acquiring of the necessary right-of-way, and accordingly on June 27 an information was forwarded to the government, which was acknowledged on the 28th. On July 4 the attorney-general wrote asking for information as to the nature of the transmission line which would include the acquiring of the necessary right-of-way, and accordingly on June 27 an information was forwarded to the government, which was acknowledged on the 28th. On July 4 the attorney-general wrote asking for information as to the nature of the transmission line which would include the acquiring of the necessary right-of-way, and accordingly on June 27 an information was forwarded to the government, which was acknowledged on the 28th.

the correspondence regarding the cataloging of the hydro as being owned by the provincial government and under the attorney-general's reply to President Lyon's query, Sir Adam Beck wrote as follows: "The statement in the Catalogue that the Hydro-Electric Power Commission is included in the department of the attorney-general was never authorized by any member of the board, nor any officer of the commission and appeared in the publication absolutely without our knowledge. I may also state that I was not aware of the contents of any matter contained in this publication, nor has the same ever been considered by the commission or myself as chairman, and therefore could not have received the sanction of the commission or myself. The statement that 'the system is owned and operated by the province in trust for the participating municipalities,' also appeared without the knowledge or approval of the commission or any officer, and in this respect the article in the 'Globe' is incorrect." CANADIAN NATIONAL EXHIBITION The Grand Trunk Railway will operate the following special train service, account Canadian National Exhibition. Toronto, Hamilton and London: Leave Toronto 4:50 p.m., Exhibition grounds 4:35 p.m., Sept. 2, 4, 5, 6, 7, 8 and 9. Also leave Exhibition grounds 10:45 p.m. Sept. 4, 5, 6 and 7. Toronto to Hamilton: Leave Exhibition grounds 11:20 p.m., Sept. 4, 5, 6 and 7. Toronto to Sarnia: Leave Exhibition grounds 11:20 p.m., Sept. 4, 5, 6 and 7. Toronto to Belleville: Leave Union Station 11:15 p.m. Sept. 4, 5, 6, 7 and 8.

SEEK TO STAY THE CHIPPEWA WORK

Electrical Development Co. Gives Notice of Suit Against Hon. I. B. Lucas.

TWO WRITS ISSUED

Attorney-General Treat Attempt to Stay Operations Lightly.

(Continued From Page One). Further development of Niagara water power may be made a subject for judicial enquiry, thus holding up the work. The writs were issued from the local registry office at Welland and signed by M. B. Wilson, deputy local registrar. Why Mr. McCarthy should seek them there from the local office and have them brought to Toronto rather than seeking them here, is not immediately apparent. The writs were issued on August 30th. The writs read: The plaintiffs claim is for a declaration that the Hydro-Electric Commission of Ontario has not the legal right, either with the consent or without of the Lieutenant-governor-in-council pursuant to the Ontario Niagara Development Act, or otherwise to divert water from any part of the Niagara River, for the purpose of developing electric or pneumatic power, and that the right or legal power pursuant to the act aforesaid or the Water Power Regulation Act, 1916, or otherwise to make use of the water of the Niagara River, or to regulate or interrupt the use of such water by the plaintiff. Stand by Covenants. That the covenants contained in paragraphs 16 and 20, of an agreement dated the 25th of January, 1905, between the commission of the Queen Victoria Niagara Falls Park and William Mackenzie, Henry Mill Felicit and Frederick Nicholas, which said agreement was assigned to the plaintiff on March 21, 1905, insure to the benefit of the plaintiff and to the true proper and original intent thereof, and that the said covenants are binding on the commission of the Queen Victoria Niagara Falls Park and the Lieutenant-governor-in-council of Ontario. The plaintiff claims an injunction to restrain the commission from developing any waters from any part of the Niagara or Welland Rivers, for purposes of developing electric power. It would seem an extraordinary proceeding to issue a writ against a member of the cabinet for an action of the government. It might be argued that there was in this case equal ground for issuing a writ against a member of the cabinet for an action of the government. It can hardly be the intention of the plaintiff to urge rights against the attorney-general personally. Mount Cavell, dedicated to the martyred nurse Edith Cavell, is shown in this week's issue of The Toronto Saturday World, named after her in the Canadian Rockies.

Hats variety that you will best in is at men's. You are sure to find it Dineen's because there is a better choice to be had from, and our salesmen will tell you at a glance that suits are the best, the product of selection is crowded down you take a cut to the hat you have had all along. \$4.50.
