## AMOUNT PAID TO GOVERNMENT BY QUEBEC

## Question No. 1,743—Mr. Allard:

What was the total amount paid to the government by the Province of Quebec in (a) 1973-74 (b) 1974-75 (c) 1975-76 (d) 1976 to date?

**Mr. Bernard Loiselle (Parliamentary Secretary to Minister of Industry, Trade and Commerce):** The only available published information on the subject of amount paid to the federal government by the province of Quebec can be extracted from Statistics Canada's Provincial Economic Accounts, 1961-1974—Experimental Data\*. Estimations are on a calendar rather than fiscal year basis and the most recent year for which these figures are available is 1974. In line with the general concepts of national accounting, federal revenues have been allocated to provinces according to where production that can be associated with such revenues takes place. For example, indirect taxes—such as federal sales and excise taxes and customs duties—have been allocated on the basis of where goods subject to tax are deemed to have been produced rather than on the basis of where they were consumed.

## USE OF GOVERNMENT AIRCRAFT

## Question No. 1,869—Mr. Allard:

Since 1968, how many official trips did the Prime Minister make abroad and, in each case, what was the cost?

**Mr. Ralph E. Goodale (Parliamentary Secretary to President of the Privy Council):** The information requested is not readily available. To provide an accurate reply would entail a lengthy and costly examination of the accounts of the department, which cost in manpower and time would be exorbitant or prohibitive.
