CONFERENCE HELD AT ST. PHILIPS

Church Members Hear Address by Rev. T. A. Kennedy, Elder.

The first quarterly conference of St. Philip's A. M. E. church was held last evening, Rev. T. A. Kennedy, who was recently appointed elder of Nova Scotia, presiding. He made an interesting address dealing with the triumphs of the church in other points and the healthy condition existing in the local church. He congratulated the members on the return of their pastor, Rev. George Stewart, for another year and expressed his confidence in the future prosperity of the church here. The reports of the church for the quarter showed marked progress, he said, but he emphasized the need of greater missionary activities. At the close of the conference, the pastor, on behalf of the church, expressed his appreciation to the presiding elder for the very profitable time spent in the conference. At the conclusion of the conference a reception was tendered the presiding elder by the pastor and people of the church. An address of welcome was read by John Jackson, after which a luncheon was served by the following members of the Willing Workers Auxiliary: Mrs. J. H. Graves, Mrs. Abbie Sadler, Mrs. Lena Mitchell, Mrs. Laura Ford and Mrs. Laura Johnson. Rev. Mr. Kennedy left today for Woodstock where he will hold a quarterly meeting this evening.

"Have you banked the house?" queried the reporter. "How well I remember when we used to get the banking done in the fall to keep the frost and cold from getting under the house. And then we laid spruce and fir boughs over it. And when it was done we were as proud as if we'd won a prize." "I got 'er banked all right," said Hiram. CANNOT PROMISE TO REIMBURSE CITY

Minister of Public Works Writes About Grain Conveyors Here.

Commissioner Bullock this morning received a letter from Hon. J. H. King, Minister of Public Works, stating that he could not make any change in his attitude in the matter of guaranteeing the reimbursing of the city should they finance the building of a grain conveyor to berth No. 10 this winter. It will be recalled that at a conference held recently between the Minister and representative citizens, at the office of Mayor Fisher, Hon. Dr. King said that he could not undertake to give any guarantee that if the city financed the building of the conveyor the Government would include in next year's appropriation enough money to pay back the amount guaranteed on the work. He also said that there was no money available for the work at present, as the Government had provided for what was said to be the more important work, that of the extension of the breakwater. He said the matter of grain conveyors would receive his earnest consideration and he would bring it to the attention of his colleagues in the Government when the estimates for next year were under discussion by the executive.
