For dealing with any skin sore or injury is found in Zam-Buk. A Surgery in a Two-Inch Box. At home or in the work it is the healer that ends pain and irritation, prevents festering and blood-poison, drives disease from the tissues, and promotes quick healthy healing. Keeping Zam-Buk always handy ensures you and the family against skin troubles. With it you're prepared for any emergency.

Mrs. J. Randall, of Silver Stream, Sask., writes:—"Here is an incident which proves conclusively Zam-Buk's wonderful healing power. One day my daughter when using the washing machine, tore the top off her finger. As we live eighteen miles from a doctor, I got out the Zam-Buk (which we always keep handy) put on a liberal dressing and bound up the finger carefully. The injury gave no further trouble. The use of Zam-Buk made it unnecessary for us to trouble the doctor for in wonderfully short time, the wound healed completely."

Zam-Buk is equally good for burns, scalds, eczema, ulcers, cuts, sores, scalp diseases, abscesses, blood poisoning and other skin troubles. Name of paper and 10-cent stamp to Zam-Buk Co., Dupont Street, Toronto, brings Free Trial Box.

Hamilton, Ontario—"When my daughter was thirteen and until she was fifteen, she suffered every month so that she could hardly move around the house, and when she would have the pains in school she would have to be carried home. She also had headache, dizzy and faint spells, and soreness in her back. I saw your advertisement in the 'Hamilton Spectator' and got Lydia E. Pinkham's Vegetable Compound for her. She does not have the least bit of trouble now, and we recommend your medicine. She works in a candy-shop now and seems well and strong."—Mrs. I. P. CLAUDE, 83 Oxford St., Hamilton, Ontario.

Cobourg, Ontario—"Lydia E. Pinkham's Vegetable Compound was recommended to me for my daughter. She had trouble every month which left her in a weak and nervous condition with weak back and pain in her right side. She had these troubles for three years and frequently was unable to attend school. She became regular and feels much better since she began taking the Vegetable Compound, and attends school regularly. She is gaining steadily and I have no hesitancy in recommending Lydia E. Pinkham's Vegetable Compound to others, as it has done so much for my daughter."—Mrs. John Toms, Ball St., Cobourg, Ont.

SHE HAS RAISED A FAMILY OF TEN

Dr. Fowler's EXTRACT OF WILDSTRAWBERRY NEVER FAILED HER

Mrs. Ervin W. Stairs, East Waterville, N. B., writes:—"I have raised a family of ten children and have always used Dr. Fowler's Extract of Wild Strawberry for summer complaint, and it has never failed."

Four years ago, when the cholera was about, some of my neighbors called in the doctor, but could get no relief. I told them about "Dr. Fowler's," and after taking it they were soon well again. I also used it for two of my own children at the same time when they were passing blood, and a few doses soon made them well."

If you want to be on the safe side ask for Dr. Fowler's Extract of Wild Strawberry, and insist on getting what you ask for. There are many imitations on the market, so be sure and get the original "Dr. Fowler's," price, 50c. a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

Dainty People

Now combat that film on teeth

Have you noted how many people now have whiter, prettier teeth? You see them wherever you look. The reason lies in a new cleaning method which millions now employ. If you don't know it, you should try it now.

Film is dingy

Your teeth are coated with a viscous film. You can feel it now. It clings to teeth, gets between the teeth and stays. That film absorbs stains, then it forms dingy coats. Tartar is based on film.

No ordinary tooth paste can effectively combat film. So, under old methods beautiful teeth were less often seen than today. And tooth troubles, mainly caused by film, became almost universal.

Film holds food substance which ferments and forms acids. It holds the acids in contact with the teeth to cause decay. Gums breed by millions in it. They

with tartar, are the chief cause of pyorrhea. So nothing is more important to teeth than combating the film daily.

Two ways found

Dental science, after long research, found two film combatants. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved these methods effective. Then dentists everywhere began to advise them. Now careful people of some fifty nations employ them, largely by dental advice.

A new-type tooth paste was created, based on modern research. The name is Pepsodent. These two great film combatants were embodied in it.

Not film alone

But Pepsodent does more than fight film. It multiplies the alkali-

linity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay.

It multiplies the starch digestant in the saliva. That is there to digest starch deposits on teeth which may otherwise ferment and form acids.

It thus gives manifold effect to Nature's great tooth-protecting agents. The result, the world over, is a fast-coming new dental era.

Tell your child

You want your children to endeavor to avoid the troubles that you suffered. Then tell them of Pepsodent, show them its effects. Dentists now urge that children use it from the time the first tooth appears.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

That test will be a revelation. It will convince you that you and yours need this new-day method. Cut out the coupon now.

A Quick Start-Yes!

and smooth acceleration, full power, and big mileage from this New Gasoline

The first quality which you demand in gasoline is of course unusually quick starting ability. But good gasoline must also possess other qualities if you are to get out of it all that your money should buy.

It must pick up quickly and accelerate smoothly.

It must deliver the maximum power and speed which your engine is designed to develop.

It must run your car or motor boat the greatest distance for the least money.

It must be of uniform quality with supplies available everywhere, so that your carburetor, once adjusted to burn it efficiently, will not need to be changed as would be the case if you were constantly switching from one fuel to another.

For years we have been working to develop such a gasoline. At last we have succeeded—and the new Imperial Premier Gasoline which is now being supplied from our Imperoyal Refinery meets every requirement of modern types of carburetors and engines.

The new Imperial Premier Gasoline will start your motor even more quickly than Queen Gasoline which some motorists have been using. As it excels Queen Gasoline—a special fuel for lighting plants

(not motors)—in many other ways and can be sold for less, we have concentrated on the production of this one superior quality motor fuel—the new Imperial Premier Gasoline. We do not manufacture any other gasoline for engine use.

We urge you to test out the new Imperial Premier Gasoline and convince yourself that it is everything we claim. Compare it, if you will, with the results which you get from any other gasoline no matter what its price.

The new Imperial Premier Gasoline is produced in our Imperoyal refinery. The men who make it and the men who sell it live and make their money—and spend it—in the Maritime Provinces.

Make this test:—Have your tank filled with the new Imperial Premier Gasoline. Then have your carburetor set to use this new fuel so you really can enjoy to the full, the satisfactory trouble-free service which a lean, economical mixture will give you.
