

DEATH OF FORMER BOOK STEWARD

Rev. Dr. W. Briggs First Elected to Methodist Publishing House in 1870—Born in Ireland in 1836.

Toronto, Nov. 7.—Rev. William Briggs, D. D., until four years ago the steward of the Methodist Bookroom and previously to that a famous preacher of the Methodist Church in Canada, died yesterday at the home of his son at Port Credit. His actual illness had only been of three weeks' duration, but prior to it he had been experiencing the general enfeeblement that was the inevitable reaction to a life crowded with activity and characterized by unimpaired expenditure of energy.

Just four years ago he retired from the actual management of the Methodist Publications and became Book Steward and Emeritus. At that time he had been in possession of an unimpaired mentality, which contrasted with his falling bodily strength. He is survived by his son, Alfred W. Briggs, K. C., his wife having predeceased him about three years ago.

Few men in Canadian Methodism were as well known as Rev. Dr. William Briggs. To him, preacher and publisher, his kindly smile and warm handshake, backed up by a serene disposition and wholesomeness, made warm and lasting friendships for him throughout Canada.

Dr. Briggs was an eloquent preacher and a man of business. His many years of service as book steward and publisher in the Methodist Book Room Toronto, brought him into contact with

Bleeding gums herald Piorrhoea's coming. Unheeded, the price paid is lost teeth and broken health. Four persons out of every five past forty, and thousands younger, are Piorrhoea's prey.

Brush your teeth with **Forhan's** FOR THE GUMS

More than a tooth paste — it checks Piorrhoea 35c and 50c in tubes

ITCHING BURNING PIMPLES ON FACE

Festered and Scaled Over. Face Disfigured. Cuticura Heals.

"My face was almost covered with pimples which festered and scaled over. They itched and burned so that I could hardly stand them, and my face was so disfigured I was unable to go anywhere. I lost so much sleep that I was about crazy. The trouble lasted two months. I started using Cuticura Soap and Ointment and after I had used two boxes of Cuticura Soap and three boxes of Cuticura Ointment for three weeks I was completely healed. (Signed) Miss Dorothy Danielson, Jackson, Calif."

Cuticura Soap daily, with Cuticura Ointment occasionally, prevents pimples or other eruptions. They are a pleasure to use, as is also Cuticura Talisman for itching the skin. Sample each free by mail. Address: "Cuticura Dept., P. O. Box 1024, Lowell, Mass. Send 10c for Cuticura Soap and 5c for Cuticura Ointment without soap."

ference in 1885. He was a delegate to all Methodist general conferences of the United States in 1882. He was a delegate to the Methodist Episcopal Church in the United States in 1882. He was a delegate to the Methodist Episcopal Church in the United States in 1882.

Dr. Briggs was first elected book steward of the Methodist Book and Publishing House, Toronto, in 1870. He received the honorary degree of Doctor of Divinity from Victoria University in 1886. He was a member of the committee of the Conference on the Japanese Methodist Church in 1906; and vice-chairman of the Local Executive Committee on the Fourth Ecumenical Conference, 1911.

In the course of his busy life Dr. Briggs served as president of the Methodist Social Union of Toronto and was also president of the Master Printers' and Bookbinders' Association. He married Rosalie Marian Clarke, of Melbourne, Australia, in 1885. She predeceased him by several years. Alfred W. Briggs, K. C., of Toronto, is a son.

SCOUR SEA FOR BRITISH THAT UNLOADED LIQUOR

Providence, R. I., Nov. 7.—Fast government boats are searching Rhodes Island waters and the Atlantic coast for the British schooner *Maria*, alleged to have unloaded 778 cases of liquor to smaller craft in the Providence River and Narragansett Bay on Sunday night.

NEW OFFICERS OF 'LONGSHOREMEN'

The regular meeting of the International Longshoremen's Association, local 278, was held last evening in the union rooms in Water street, with A. Craig, president of the local, in the chair. The meeting was largely attended and plans for the coming winter's work were discussed. The agreement between the longshoremen and the Shipping Federation, which is being continued for another year, was discussed and proved satisfactory to the members. The election of officers for the coming term also took place and resulted as follows: President, A. Craig; first vice-president, R. Carlin; second vice-president, S. Stevens; secretary-treasurer, J. Monteth; business agent, J. McKinnon; janitor, T. Sullivan; members of the executive, H. Linton, J. McGorman, J. J. Donovan, Thomas Keble, J. Kinard, C. Gaudin, G. Stevens, C. Brown, P. Taylor, J. Campbell, J. Givner and M. Powers; delegates to the waterfront council, R. Carlin, A. Craig, J. Monteth, S. Stevens and J. Wells.

ST. JOHN INFIRMARY ALUMNAE ELECTS

The annual meeting of the alumnae of the St. John Infirmary was held last night in the lecture hall of the infirmary with the president, Miss Mary Downing, B. N., in the chair. Satisfactory reports of the year were received and plans were made for the winter's activities. The alumnae has a membership of twenty-five and is a vigorous young organization. The officers elected were as follows: President, Miss Mary Downing, B. N., re-elected; vice-president, Miss Mary Doherty, B. N.; secretary, Miss Agnes Duffy, B. N.; re-elected; treasurer, Miss Alice McManus; additional members of the executive committee, Miss Mary Rogers, Miss Laura Morrissey and Miss Nellie McCarthy.

SUN GROWS WHISKERS

Man's Great Relief From Shaving During Summer Vacation.

Now we know why a man loves to spend his vacation in the bush. Those who do not know how often they bother with a razor till the morning they're hitting it for the bright light.

The sun is the barbers' friend. Every man has more haircuts and shaves in summer than in winter. Their hair actually grows more quickly than in the winter months. This is particularly noticeable with men who have strong beards says Pearson's Weekly.

In the city it means a daily shave. But, oh boy, in the bush, nothing like that. True, when it comes to shaving before going home, it's some oh, but look at the fun you've had—no fussing with your razor blades, no jamming your wife for hiding your shaving brush and soap.

CANCER DANGER SIGNALS. Under the heading "Danger Signals that may mean Cancer," the American Society for the Control of Cancer in its official bulletin describes these signals as follows:

"Any lump, especially in the breast."
"Any irregular bleeding or discharge."
"Any sore that does not heal—particularly about the tongue, mouth or lips."
"Persistent indigestion with loss of weight."
"Go immediately to a hospital, or a reputable physician and insist upon a thorough examination."
"Don't be ashamed to talk about cancer."

IF BACK HURTS FLUSH KIDNEYS

Eat Less Meat, Also Take Glass of Salts before Breakfast Occasionally.

Too much meat may form uric acid, which excites the kidneys; they become overworked; get sluggish, ache and feel like lumps of lead. The urine becomes cloudy; the bladder is irritated, and you may be obliged to seek relief two or three times during the night. When the kidneys clog you must help them flush off the body's urinous waste or you'll be a real sick person shortly. At first you feel a dull misery in the kidney region; you suffer from backache, sick headache, dizziness, stomach gets sour, tongue coated and you feel rheumatic twinges when the weather is bad. Drink lots of water; also get from any pharmacist four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days, and your kidneys may then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean clogged kidneys and stimulate them to normal activity, also to help neutralize the acids in urine, so it no longer is a cause of irritation, thus often ending bladder weakness.

Jad Salts is inexpensive, cannot injure, makes a delightful effervescent lithia water drink which everyone should take now and then to help keep the kidneys clean and active. Druggists here say they sell lots of Jad Salts to folks who believe in correcting kidney trouble while it is only trouble.

LONDON ALSO BIDS FAREWELL TO THE FLAPPER

Hairdressers Remark the Change—Some of the Styles in Empire Capital.

London, Oct. 30.—(Associated Press by Mail.)—The "flapper type" of young girls is rapidly disappearing in London. The first signs of waning popularity is the discarding of bobbed hair. According to West End hairdressers shortened locks are no longer approved, and the coming winter will see new styles in the art of hair dressing. The most popular substitute for bobbed hair is a short pompadour, and the use of a small ribbon for wreath. This is the favorite style of Princess Mary. The reversion in hair dressing has even gone to the extent that small amounts of false hair will be used this winter.

The new color of fall hats is "green almond," and across the front, which was popular during the war, is to be worn again. The hats will be smaller this fall, but huge shapes, rivaling the "Merry Widows" of years ago, will be the rage in the spring. The new evening dresses in the Regent street windows are entirely new. A beak, and a cord of white silk has taken the place of a wider shoulder strap. The materials in vogue are dark blues and purples, and heavy silks and satins will be almost the only materials used. Long trains will again grace the ball-rooms, and the elaborate trains are not too much for one gown. Rich oriental brocades and jewelled ornaments are to be seen on all of the gowns.

LISTENING FOR TROUBLE

The phrase "listening in" is now becoming familiar in connection with broadcasting. It has, however, other possible applications. Experiments have, for example, been carried out in the use of public electric supply circuits both as antennae for wireless receiving and also as paths along which electric waves can be transmitted to special receivers connected to lamp holders. In this experiment it was found that there was a good deal of interference, caused by the switching on and off of motors and by other occurrences in connection with the ordinary use of electrically supplied circuits. A British inventor has had the happy thought of adopting a receiving device to the electrical observations of these disturbances. For example, by "listening in" on any part of an electric supply system it is possible to detect when

HUSBAND DIDN'T DARE LEAVE HER ALONE HEART WAS SO BAD

Those feelings of faintness, those dizzy spells, the all-gone sinking sensations which come on from time to time indicate a weakened condition of the heart and a disordered state of the nerves.

Milburn's Heart and Nerve Pills

have no equal as a remedy to strengthen the heart, invigorate the nerves and build up the run-down system. Mrs. C. Vanhorn, Eckville, Alta., writes:—"About a year ago I had heart trouble. My husband didn't dare leave me alone, and often had to stay up at night with me. I would just feel kind of faint and my heart would seem to stop beating. I would just faint away, and it would sometimes be an hour before they could bring me back to life. Someone told me about Milburn's Heart and Nerve Pills. I got three boxes; I took them and felt much better, so continued all winter, and now I never feel any such faintness. I surely do appreciate the good they have done for me."

Price 50c. a box at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

An electric motor is working badly. A motor which is running well has a particular note, and one running badly is distinguished by its peculiar noise, which can be heard above the others. Even the slipping of a belt can be detected. This ingenious device has been actually employed in keeping watch upon a pump motor which was at work continuously at a remote point. The least irregularity in the working of this pump could easily be heard by "listening in," and therefore the engineer in charge could tell whether it was necessary to send a man to adjust the machine.

DE VALERA NOW IS LIABLE TO BE ARRESTED

Order Relative to Himself and Some Confreres is the Answer to His Manifesto.

Dublin, Nov. 7.—(Canadian Press.)—The Free State government's answer to De Valera's manifesto recently issued was an order for the arrest of all important members of the anti-treaty council of state. As De Valera heads the definite organization working for the overthrow of the Free State government, he also is now liable to arrest. Prior to the proclamation of his council of state he was ignored because he was considered powerless. Since the irregular army pledged allegiance to this body, two members of its elected executive, Ernie O'Malley and Joseph O'Connor, have been arrested.

"I Now Feel Fine"

Mrs. F. G. Murdoch, Box 433, Portage la Prairie, Man., writes: "I was troubled for years with biliousness, constipation, kidney and liver troubles. I tried many different kinds of medicine, but nothing did me much good until I tried Dr. Chase's Kidney-Liver Pills. I now feel fine, but am never without these pills in the house. Dr. Chase's Ointment has relieved my husband of piles, from which he used to suffer badly."

One pill a dose, 25 Cents a box, all dealers, or Edmanson, Bates & Co., Ltd., Toronto.

WHY NOT ADOPT?

Suggestion of Quebec Medical Director re Unfortunate Children.

Montreal, Nov. 7.—"We are receiving many children who come to this country from Europe and they are being placed in our Canadian families. Why should we not adopt this method with the little unfortunate ones in our own country? It is not to our credit to have reform schools filled with children." This is an extract from a report by Dr. A. H. Desloges, general medical director for the Province of Quebec, to his department. He suggested that the word "reform" be done away with and Premier Taschereau fully approved of the change in voicing his sentiments on the matter recently before members of the legislature.

SOAP FROM CORNMEAL

A new soap has appeared on the market, which is made from maize or cornmeal, according to the Scientific American. This soap is made in various forms for use in the home and in textile plants. It is claimed that the soap will remove spots, dirt, and all sorts of stains and smudges from the skin and from all the different textile fabrics. The soap is cheap and its action is very rapid and thorough. It lathers well and may be used with hard waters. The soap is made in the United States.

Doctors Recommend Bon-Opto for the Eyes

Physicians and eye specialists prescribe Bon-Opto as a safe home remedy in the treatment of eye troubles and to strengthen eyelids. Sold under money refund guarantee by all druggists.

For Nervous Headaches
