A painter named Ben. consists of electric plant, a rail tramway, bunk houses, and all the equipment of an up-to-date mine, and it will falling from a scaffolding and striking be opened and regular mining opera- on the sidewalk. tions on a large scale commenced.

The property will be operated electrical power generated by the West Kootenay Power & Light Company, from its plant at Bonnington Falls, three miles distant.

The Queen Victoria is a low-grade copper property, with considerable limestone, which facilitates fluxing when mixed with the ore. The mine was located years ago, and was held for a long time by a syndicate consisting of residents of Nelson, Grand | Eagles, will organize an aeria in Prince Forks and Phoenix. About three years | Rupert. ago Mr. Swedenberg secured posses of the property, and shortly afterwards gave a bond on it to U. E. Wade. Later J. E. Cronin of Spokane, had a bond on it and worked it to a considerable extent, shipping a large quantity of ore to Trail before he relinquished the bond in 1908. Following this. New York capital was interested and unwards of \$100,000 was spent in development work and the installation plant. The property, however, when developed, did not meet the special requirements of this syndicate, and came back into Mr. Swedenberg's possession. Although the ore did not meet the requirements of the New

treatment at the Trail smelter.
