## CROPS IN PROVINCE

## VERY GOOD THIS YEAR.

W. W. Hubbard, provincial secretary of agriculture, passing through the city yesterday on his way to Amherst to attend the meeting of the Maritime Stock Breeders' Association. At this gathering arrangements will be made for the annual winter fair to be held the first week in December. Mr. Hubbard said that at present his department is very busy gathering crop statistics. He expects these returns will show that crops this year were better than in 1910. Potatoes were a fine crop, the cause of the prevailing high price being that they were a failure in Ontario and Quebec, and there are heavy shipments to these provinces from here. He remarked that the planting of apple orchards in Nova Brunswick has been largely on the increase of late. The production of apples generally on the North American continent, he said, has fallen off, owing to the fact that the old orchards were not being renewed. Next week Mr. Hubbard expects to attend the meeting of the Maritime Poultry Association, which will hold its annual meeting and show in August.

## MONTREAL

## CLOSING STOCK LETTER.

By Direct Private Wires to J. C. Mackintosh & Co.

New York, Nov. 14.—Following yesterday's reaction today's market reflected a considerable division of opinion with respect to the immediate course of prices. The day's movements were irregular, with evidences of speculative distribution at some points, supplemented by strong indications of support and sustained reaction. The prevailing tone of the list, so that final prices ranged fractionally above and below last night's closing. The prevailing tone, nevertheless, was reactionary and speculative sentiment at the close further favored a further decline. In view of the wide and practically uninterrupted advance of prices that has taken place a further setback would be only natural and wholesome. It is possible, of course, that political tinkering will be of a character to retard the improvement now perceived in nearly all lines of general business, and that a certain hesitation might develop in the securities market, but these matters have been agitated for three years past and largely directed against the trend of general business continue to be toward improvement and the accumulations of money and the large financial centres fulfil present prospects. There is little likelihood that prices will recede very far from the present level, but rather that good stocks will gradually work to a higher level.

## SLOW DRIFT TO LOW MARKET LEVEL

New York, Nov. 14.—Prices drifted slowly toward a lower level during most of today's trading in stocks. At no time was the movement abrupt, but a rally late in the day reduced losses largely, so that at the close changes for the most part were small. Profit taking was continued in a moderate way. The willingness of holders of long stocks to sell whenever favorable opportunities were presented apparently was largely responsible for the course of the market. No general improvement demand has appeared, with the result that the absorptive power of the market is limited, although it has been sufficient to preserve the greater part of the recent large advances. To what extent the recent rise was based upon a genuine improvement in sentiment and to what extent upon speculative manipulation probably will be indicated by the course of stocks in the immediate future. Trading at times was lifeless and professional dealings made up the bulk of the total. The late rally in prices apparently was based upon the recent order of the Commerce Court granting a temporary injunction in the intermountain freight rate case. The text of which was made known today. Much was expected of the decision, but it was not the restriction laid upon the Interstate Commerce Commission in regulating rates under the long and short haul clause. The decision showed that the court had not granted a temporary injunction merely to gain time but that the question had been studied carefully, and that the decision had been reached as a result of this scrutiny. The court thus ruled against the shippers, and the Commerce Commission's most important order of the kind was regarded as of great importance. Railroad stocks were bought heavily on publication of the text of the court's order. Union Pacific derived the greatest benefit with a rise of nearly 2 points. The whole market improved moderately. The bears found ammunition earlier in the day in the Order of the Missouri Supreme Court against the International Harvester Company. The stock had been moving uncertainly for several days on reports that the company had not been able to agree with the Department of Justice upon a plan of reorganization to improve its standing under the Sherman Law. The bears attacked the list vigorously and succeeded in depressing prices somewhat, but the losses were small except in the case of International Harvester itself, which substantially recovered half of its decline.

## The coal roads were again prominent.

Lehigh Valley touched 18½, equalling its high for the present movement. Reading fluctuated widely, and after gaining more than a point, closed nearly 2 points off. St. Paul again showed weakness, and U. S. Steel lagged behind. A vigorous movement started late in the last hour. Much of the day's recovery had to come from London, owing to apprehension there over the failure of a colonial bank. Earlier in the session London was over the head, amounting to perhaps 25,000 shares, taking U. S. Steel, Amalgamated Copper, Union Pacific, Reading and Rock Island on the recession in this market.

The bond market was irregular with American Tobacco issues again showing conspicuous firmness. Total sales for value \$4,500,000.

U. S. Bonds unchanged on call.

## 5 YEARS' THROAT TROUBLE AND INFLUENZA CURED

EMINENT DOCTORS FAILED TO CURE—HAD GIVEN UP HOPE.

This Case Does Prove That When Catarrh is Brought to the Surface, Trace of Catarrh Disappears.

Millard Haven, D. C., Oct. 9.—Every one in this neighborhood knows of the long suffering from influenza and Catarrh ended by Mrs. D. Guernsey. Today she is well. Her recovery is due entirely to Catarrhazone. This is her own statement: "I was a great sufferer from Catarrh in the head, throat and nose, and endured the manifold tortures of influenza for five years. My life was despaired of. Catarrh was undermining my strength very fast. I used treatments from eminent doctors, but all failed to cure me. I had given up hope of ever being well. Then I read of a wonderful cure made by Catarrhazone. Immediately I sent for Catarrhazone, and before I had used one bottle I was greatly relieved. Today I am cured. We would not be without Catarrhazone in our home—it's so sure in colds, coughs, bronchitis, throat trouble, I feel it is my duty to publicly recommend Catarrhazone."

Get the large dollar size of Catarrhazone, it contains a beautiful hard rubber inhaler, and medicine that lasts two months. Smaller sizes, 25c, and 50c, each. Beware of imitations. —accept only Catarrhazone, sold by all reliable dealers or by mail from The Catarrhazone Company, Kings ton, Ont., and Buffalo, N. Y.
