BEAVERS WIN DOUBLE HEADER FROM M'ADAM

Brownville, Junction, Me., June 14.—One of the hottest and fastest games of baseball ever played on the Brownville Junction baseball field was witnessed today by a large and enthusiastic crowd, the score being 3-2 in favor of the C. P. R. Beavers, the game lasting 10 innings. At the end of the 8th inning the score stood 2-1 in favor of the home team, but in the first of the ninth McAdam taking advantage of an infield error, shoved across the run which tied the score. The Beavers were unable to score in their turn at bat and the game had to go to 10 innings. The first man up for McAdam grounded out, James to McClain, and the next two men failed to connect with James' benders and the side was retired. There was great excitement when the Beavers again came to bat, and Fischer, the first man up, made good connection with the first ball pitched for a home run, winning the game amid great applause.

DOUBLE HEADER AT WOODSTOCK

Special to The Standard. Woodstock, N. B., June 18.—Woodstock divided honors with the crack McAdam ball team today losing the afternoon game by a score of 13 to 9, and winning the evening game by 7 to 4. The afternoon game was featured by heavy battling of both teams, and the evening game was distinguished by clever pitching on both sides and fast field work. Hallan Drysdale umpired both games. The McAdam battery, Donovan and Wood worked in both games. Long tried the first game for the locals and Clark the evening game. Faulkner catching both games. Donovan in a left handed and pitched a classy game. Long had a few bad innings in the afternoon but generally had something on the ball. Clark was most effective in his game.

GREEKS WIN A GREAT GAME; ST. CROIX TROUCE FREDERICTON

GREEKS 4, BANGOR 0. Bangor, Me., June 18.—St. John won from Bangor today in a ten-inning contest, by a score of 4 to 0. It was a pitchers' battle, both Tarbell and McPhee pitching fine ball. In the tenth McPhee weakened and the Marathons got to him for five hits with a total of twelve bases, and won easily. Black, the first man up in the tenth, smashed a beautiful triple to right and scored when Lamorey let the light go through him on the throw. Shankley singled to left. Watt came across with another triple in the same place, scoring Shankley. Bien hit the first ball home for another triple to right, scoring Watt. Bien scored on a sacrifice fly by Waterhouse to centre. Riley was an easy out to Wildes. Tarbell doubled to right. He could have easily made three bases of it but preferred to rest upon second to save himself for another hit. O'Brien ended the slaughter by flying out to Perley. Up to the ninth it was a pitchers' battle with honors even. Both teams made three hits apiece until then. McPhee had his splitter working well and fanned six men, while Tarbell with his curves moved across twelve of the home team. Only one base on balls was given. In the sixth Perley worked Tarbell for a pass, and went to second on a sacrifice. This was the last time that Bangor saw a base. The next two men were easy outs. In the sixth, St. John came near scoring. Waterhouse singled and went to second when Riley came to life with a sweet hit to slant. Tarbell, Tarbell fanned. O'Brien went out, Lamorey to Swazey, both runners advancing. Pinkerton, the next man up, was an easy out. James to Swazey, ending the suspense.

One of the prettiest double plays of the season was pulled off by Bangor in the ninth. Tarbell got a single. O'Brien went out on a foul to Brooks. Pinkerton hit a grounder to Wildes, who threw to Tewhey, catching Tarbell at second and Tewhey threw to Swazey, doubling up Pinkerton at first. Umpire Labelle umpired the game. MOTOR BOAT RACE WAS EXCITING

What proved one of the most interesting motor boat races conducted under the auspices of the St. John Power Boat Club, was held last evening in competition for the Mooney cup, when in a race on the St. John river the boats were watched closely by many who gathered about the Indiantown wharf and different points along the course.

Nine boats started in the race, three of these were disqualified and the Hustler, owned by James Griffiths, was the first to cross the finishing line, completing the course in 1 hour, 21 minutes and 10 seconds. The new flagship Elizabeth, having on board the judges, F. W. Tapley, Malcolm Logan, Cecil McLean and Timers Fred Roberts and Fred C. Corey, steamed out from the club house shortly before seven o'clock. At exactly four minutes past seven, on the firing of the cannon from the commodore's yacht, the boats started from the buoy out from the Public Wharf, Indiantown. The course to be taken was up river, through the Narrows, around a flagpost; placed off Brandy Point, and return.

The Marion H. and Florence McP. started on the wrong side of the buoy and were disqualified, while the Skiddoo, having no tender, did not finish the race. The six boats which finished, save the Hustler, followed closely behind one another and the race at times was very exciting and was watched attentively by the occupants of numerous crafts which followed along the course. The Hustler held the lead during the whole race. While the winner of the race could not be determined last evening, owing to the time allowances. It is most likely that the Hustler will be given first position as she finished over fifteen minutes ahead of the others. For the last two seasons the race was won by the Skiddoo, owned by Maurice Brosnan, but as three successive year's winning must be claimed by the boat before the cup is won,

JACKSON GIVES COBB HARD FIGHT

Fredricton, June 18.—Another Fredericton pitcher got his bumps today. This time it was Bart Flynn and the club who gave it to him was St. Croix. With the score 10 to 4 in the seventh inning and two men on bases, Manager Ganley chased Flynn to the stable and called Ahearn, the unbeaten Southpaw. He stopped the batting machine and there was no further scoring. Bill Lee pitched for St. Croix and he was wild but Fredericton couldn't hit the ball when he could get it over the plate. The result was only three hits, eight strikeouts and eight bases on balls. Fredericton didn't have an earned run in the game. The sudden departure of first baseman George Sullivan for his home at Dorchester, Mass., yesterday, made it necessary to bring Pat Duggan in to first base and he played a great game there. For some reason which is rather hard to figure out, White was shifted from right field over to left and "Porky" Flynn, who had been taken back on the team again to fill in the vacancy, was shifted from his old position in left field over to right field. Two flies that Flynn misjudged cut a big figure in giving St. Croix their early lead. McPherson and Vance supplied the fielding features, but the St. Croix will play here again tomorrow when it is not unlikely that the two left handers, Ahearn and Howland will oppose one another. The box score and summary follows: St. Croix. Joe Jackson is once more giving Ty Cobb a hard fight for batting honors in the American League. He is now hitting well over 400 marks. He is again one of the chief cogs in the attacking machinery of the Cleveland Club. In response to the many stories which have been printed recently to the effect that he let Jackson go because he did not think he was a ball player, Connie Mack has stated that he always recognized Jackson's ability, but that Jackson jumped the Athletics three times and stubbornly refused to play ball north of the Mason and Dixon line for any length of time. LOOK at your aching feet, hot, irritated, toes cramped! Have you weak ankles, pains in and their important appearance, from themselves alone, but from their relations to other truths and principles. Liberal education prepares the mind for the reception of truth. The ideas and cognitions, which we constantly form and acquire, are interrelated and their import appears, not from themselves alone, but from their relations to other truths and principles. One can best perceive, however, the nature and purpose of these interrelations of truths through the basic principles of the different orders of knowledge. Many well-meaning men, perceiving the importance of these social conditions, attempt to establish different kinds of reform. Seeing only the material conditions of the classes, and ignorant of the nature and purpose of society, some of these reformers advocate impracticable changes in the social order. The innovators, having no true criterion of first-principles, never realize that their reforms might be fundamentally wrong, and that by fundamental conditions, striving for the impracticable, these men, who might accomplish much for the betterment of society, their sincere, misdirected efforts. Pernicious ideas of social regulations, formed through ignorance of the relations and purposes of these interrelated elements of society. Social reforms that correct abuses, establish justice and bring prosperity to the masses, are the perception of the true relation between social conditions and the nature of society, or from the comprehension of the importance of such truth. Practical judgment which conforms to general economic laws, obtains industrial prosperity. Masters of industry, consciously or implicitly, must follow and use as a criterion to judge the value of various propositions the basic and governing principles of production. A manufacturer ignorant of these principles is in continual danger of ruin. Industrial progress, therefore, requires that by fundamental laws, the connection and the significance of industrial elements must be understood. In finance, also, knowledge of first principles assures safety. Ignorance of them means ruin. The Duke of Orleans, unconscious of the connection between sound currency and the welfare of the state, ruined the finances of France and precipitated the revolution. The liberal arts, manufacturing by the elements of the physical, moral and metaphysical science, the first principles of our ideas, show the meaning of facts and impressions and forewarn of their consequences, that is prepare the mind to receive truth.

TO ERECT HATCHERY FOR TROUT NEAR THE CITY. Hon. Mr. Hazen has Arranged to have it Built near Little River Dam—Great Aid to Fishermen.

Fishermen in St. John and throughout the province will be glad to know that Hon. J. D. Hazen, Minister of Marine and Fisheries, is arranging to locate a trout hatchery near the city. Some time ago a delegation representing the Forest, Fish and Game Association, waited on Hon. Mr. Hazen and suggested the importance of erecting a hatchery to assist in keeping the lakes and streams stocked with game fish. A site on Loch Lomond was suggested. Hon. Mr. Hazen did not see his way clear to accept the suggestion then made, but later sent here a Mr. Filaxson, an expert of the department, with instructions to select the best available site in the vicinity of St. John. Various proposals were considered, including the city property near the Little River dam. This was considered particularly well adapted for the proposed hatchery. The negotiations were opened with the city. Since his arrival here this week, Hon. Mr. Hazen has concluded the agreement. It is agreed that a conference with Commissioner Wilmore and that the government, in consideration
