Boston, Feb. 22.—New England cities are paying from one-quarter to one-half cent a pound more for potatoes than other large cities east of Chicago, reports of the United States bureau of markets here showed Wednesday. Grocers and provision dealers were selling potatoes on a small margin at 3½ cents a pound, the bureau reported, but small supplies coming into the local market prevented any reduction in the price.

SASKATCHEWAN FOR  
ENGLISH LANGUAGE

School Trustees Adopt Resolutions by Overwhelming Vote.

Saskatoon, Sask., Feb. 21.—The monster convention of school trustees of Saskatchewan today adopted, by an overwhelming majority, a series of resolutions bearing upon the use of English only as the language of instruction in the public schools of the province. An amendment to one of the resolutions seeking to exempt the French language was not seconded. From the tone of the conference it was seen readily that the English-speaking element had gathered to assert the national sentiment. They clearly represented the vast majority of those present and whatever the strength or potency of the foreign-speaking element, it was neither tested by exact vote or statement.

GOV. WHITMAN  
STILL BELIEVES  
IN REVOLUTION

New York's Chief Executive at Washington Birthday Banquet in Undiplomatic Address Endeavors to Be a Good Fellow With His German Constituents—Knocks the South Unnecessarily.

Peoria, Ill., Feb. 22.—That the ideals which brought victory to the American colonies in the war of the revolution and which stamped out slavery in the Civil War, are again at stake, not only in this country, but throughout the world, was the theme of an address by Charles S. Whitman, governor of New York, at the Washington banquet of the Creve Coeur Club here tonight. Speaking of the present war, he said, in part:

"This is not a war on the German people, nor is Germany merely making war on the people of other lands. This is a combat between ideals of government. Belgium, broken but unquarrelled; England, struggling as she has never struggled before; the sons of France, singing as they bleed and smiling as they die, are just as truly fighting for an ideal as were the ragged continental at Saratoga or at Yorktown or the men whose bloody feet left their impress in the snow at Valley Forge."

"I know that there was a Germany in the past that her sons and daughters have had every reason to love—a Germany of poetry and song, and of literature, art, science and of education, of folk song and folk lore and folk love, but that Germany is no more. It has given place to a Germany of the iron heel and the clanking sabre, to a mighty nation dedicated to the proposition that 'might makes right,' that there is no such thing as freedom of thought, freedom of heart, or freedom of life; that its power to slaughter is the final test of a nation's greatness; that slavery is the natural and proper condition of the human race; that he alone may be master who can wield the sword; a Germany, even whose clergy will approve the disregard of international law, the violation of sacred treaties; a Germany that has transformed even its best born and best trained into plunderers and butchers; a Germany that must go down if righteousness and peace are ever again to prevail on earth."

RUSSIA LOSING  
HER PROVINCES

Independence of Finland Severe Blow—Germany Taking Baltic Districts.

London, Feb. 10.—(Correspondence of The Associated Press).—First Sweden, then France, then Germany and Denmark, have recognized the independence of Finland.

Finland until 1809 belonged to Sweden, and men of Swedish blood and speech constitute the bulk of the Finnish aristocracy and middle classes. Sweden wishes to resume, though not in the old form, her ancient intimacy. There is much talk in Stockholm of a Zollverein or customs union of the Scandinavian countries, to embrace Finland.

A keen political struggle is expected in Finland between pro-Swedish elements and the parties which incline rather to sympathize with revolutionary Russia. The pro-Swedish elements will correspond in general to the bourgeoisie of Russia, while radical elements will oppose them. Numerically the radicals are stronger and with independence will have a much greater power than ever before.

The significance of Finland's territorial loss to Russia is very great in many ways. Geographically, for instance, it may be noted that the Finnish coast runs up to within a few miles of Petrograd. It has always provided the bulk of Russian seamen and pilots, and in any future war would be a formidable base against Petrograd.

If, as German plans, Lithuania, Courland, Livonia and Estonia are lost to Russia, then Russia will be left with no exit on the Baltic except a small district around Petrograd. If Poland also is detached, Russia will have lost in three years' war the entire fruits of three centuries of striving westward.

Striking Employees in Alabama Decline to Return to Work.

Birmingham, Ala., Feb. 22.—Despite pleas of organizers and other officials of the United Mine Workers of America that they return to work, pending investigation by the fuel administration of their claims that the terms of the Garfield agreement are not being lived up to by the operators, striking miners here, after taking a vote on the subject, have refused to return to work until their complaints have been considered by government officials.

THIS STUDENT IS  
GIVEN EXEMPTION

Montreal, Feb. 21.—The Military Service Act was passed with a view

of organizing the country and not to divide it," said Mr. Justice Teller today, during the hearing of an exemption appeal in the case of Eliezer LaPorte, a student at the school of higher commercial studies, this city. "The fact that the family has made sacrifices in order to give the draftee his education must be taken into consideration by the court. I will exempt the draftee, despite the fact that similar cases are being heard at present in appeal by Judge Duff, in Ottawa."
