BRITON THINKS AMERICA WILL REMAIN DRY

Can See No Prospect of That Country Coming Back to "Cin Rickeys" and "High Balls"

London, Nov. 24.—Sir Arthur News, formerly member of the Ministry of Health, discussing prohibition in America on his return here after a two years' visit to the United States, hammered another nail into the lid of the "medicine chest."

"The American public," he said, "will endorse the action already taken and will insist on its continuance and extension, and prohibition, in my view, will remain in operation as the law of the land."

Sir Arthur views the question from the standpoint of the persons made to suffer the consequence of other persons' drinking.

"Liberation of the many from unfair conditions rather than personal liberty, which might easily become license, is," he says, "the present social desideratum. The case for compulsion, and it is a good one, is that moral suasion act slowly on minorities and meanwhile multitudes of innocent persons continue to suffer, and the community suffers in pocket and in efficiency."

Constipation Upsets Stomach, Keeps You Headachy, Bilious

Turn the rascals out—the headache, biliousness, constipation, the sick, sour stomach and foul gases—turn them out tonight with Cascarets. Don't put in another day of distress. Let Cascarets sweeten your stomach; remove the fermenting food and that misery-making gas; take the excess bile from your liver and carry off the waste matter and poison from the bowels. Then you feel great. A Cascaret tonight will straighten you up by morning—a 10-cent box from any drug store will keep your head clear, stomach sweet, liver and bowels regular for months. Children love Cascarets too.

Allies Seize Plane of Charles and Zita

Budapest, Nov. 25.—The airplane in which former Emperor Charles and his wife flew from Switzerland into Hungary to make their last fight for their lost throne has been seized by the Inter-Allied Control Commission.

The commission will sit in judgment on the question of ownership between the Swiss Company which loaned the machine to Charles's agents and the Hungarian Government, which seeks to hold the plane as an historic object.

LADIES REMOVE THEIR CORNS IN A VERY SIMPLE WAY

No pain, no trouble, costs only a quarter. It is a very simple thing to paint on a small application of good old "Putnam's" night and morning. To remove corns, to get entirely free from them, use Putnam's Corn and Wart Extractor. It is guaranteed, 25c at all dealers. Refuse a substitute.

Why is it that there are over 600 branch factories of United States companies in operation in Canada to-day employing 90,000 people living in Canada, and representing invested capital of about \$400,000,000.00?

THE TARIFF and The Tariff alone brought these United States manufacturers to Canada.

The Tariff stands as a partial barrier against the importation of products manufactured in other countries. It is a Customs Tax placed by the Government on certain foreign-made goods and it is collected when these goods enter Canada.

Because of The Tariff, these United States manufacturers found that they could not sell their particular products as extensively and profitably in Canada as they desired; they realized that to get our trade they had to come over here and be one with us. Consequently, they have established factories in this country, they are manufacturing their products here and are employing Canadian workmen. Both CRERAR and KING are pledged to the destruction of our Tariff—and with what result?

The hundreds of plants established in this country by United States manufacturers would be shut down. They would not need to be maintained, for the goods can be manufactured cheaper in the United States by reason of larger production due to their huge home market. Ninety thousand Canadian working men would lose their employment. These men are receiving over one hundred millions of dollars a year in wages; they represent 270,000 men, women and children all dependent upon these industries for a livelihood, and all consuming the produce of Canadian farms.

What is more, the great majority of our factories which are all-Canadian and which represent Canadian capital would also be forced to close. They could not successfully compete with United States products—cheaper because produced in larger quantities—or with goods from Europe or Japan, where wages and the standard of living are very much lower than in Canada.

THE TARIFF brings foreign capital into the country; it provides employment, it protects the home market of manufacturer and farmer alike, and it ensures the maximum development of Canada's great natural resources, our raw materials being made into finished goods at home instead of being sent to other countries.

THE TARIFF is the one big issue before Canada today—and it affects the future of every man, woman and child in the country.

MEIGHEN stands firm for the maintenance of a Reasonable Protective Tariff.
