One Magazine and One Newspaper

are indispensable to every person of intelligence.

The "one magazine" is **Current Literature**, because it alone sweeps the whole field of human thought and action in both hemispheres.

It contains a monthly review of the world's news; quotations from and comments on the press of the world; numerous graphic cartoons and other illustrations; photographs and biographic sketches of the conspicuous personalities of the month; the most recent advances in science and discovery; the noteworthy events in religion, literature and art; critical reviews of the best fiction, dramatic and musical works; a page of the best humor and a condensation of the leading play of the month.

It gathers impartially from every field of human thought and activity those facts which are best worth knowing and gives the reader a clear, well-defined and illuminating view of what the whole world is doing.
