

THE CANADIAN EXHIBIT at the Glasgow Exhibition is taking the honours of that show. One visitor wrote, "decidedly the best exhibit of the whole show." Another said, "Britain will have to look after her laurels or her daughter will beat her." Canadian fruits astonished all visitors, especially the apples, and there is no more delicious fruit known than an English "Westmoreland," or "Russet," unless it is the "Fameuse" of the island of Montreal.

THE POLICY PROPOSED BY THE LUMBER COMPANIES of forming a mutual fire insurance company among themselves, owing to increased rates now charged, is strongly condemned. Representatives of well-known companies assert that the lumbermen would find their proposed policy suicidal, that they would lose their profits for a number of years by one big fire, and that at the present rates there is no money in lumber insurance for the companies.
