This comprises the oldest established herd of Holsteins in Canada, the first importation being in 1850. The thirty pure breeds offered have in them a combination of the most fashionable blood and are offspring of many prominent winners at our big exhibitions. Through great care in the selection of sires and in making they have been developed into big producers at the pail. The young stuff is a choice lot—vigorous, thrifty and will make strong mature animals.

A number of select grades will also be offered.
Excellent railway facilities—all G. T. R. trains stop at Port Hope in forenoon.
Catalogues will give you full particulars regarding animals and their breeding. Drop a card for one.
