

THE BULLFROG.

North American colonies, England would immediately fall to the position of a third-rate Power. Their fate and their security are, they think, our fate and our security; they are one people with us to all intents and purposes and if England were not to protect them, her glory would set forever.—*The Times*.

Summary of the Telegraphic News of the Week.

Nashville despatches state that after the battle at Franklin, Gen. T. has withdrawn his forces within three miles of Nashville, where he is prepared either to accept or deliver battle. He has been reinforced by Gen. A. P. Smith's division.

A Cavalry expedition from the Potomac Army, captured Stony Creek Station, south of Petersburg, with two guns, two hundred prisoners, and destroyed a large amount of rebel property.

The Richmond papers of Thursday (1st inst.) announce that Gen. Sherman is making for Port Royal, at which point they say the naval fleet is waiting for him.

The "Sentinel" says that a slight attack was made on Macon, which was repulsed.

The Examiner says that Milton, (Georgia) the great railroad junction, has been occupied by Sherman, and that he is moving on Savannah.

The Steamship "North Star" which brings information of the capture of several Confederates at Panama, who had taken passage in the Steamship "Salvador" for San Francisco, intending to seize her. A quantity of arms, ammunition, &c., were also seized.

Nothing new from Nashville, Hood's army was intrenching about 4 miles South-west of the City.

Charleston, S. C. papers speak of the unusual activity of the Federal fleet and land forces on the coast, and say that a strong expedition is ready to co-operate with Sherman.

Capt. Semmes, late of the Confederate Ship "Alabama," arrived at Matamoras on the 10th. of November, en route for Richmond, through Texas.

Congress met at noon to-day, 5th inst.

The Governor of Georgia has pardoned and put into the ranks all the able-bodied prisoners in the State Penitentiary.

An arrival at Fortress Monroe to-day, brings Savannah advices to 2nd. Sherman's Cavalry was then reported within six miles of that City. A universal panic prevailed. It is believed in Washington that Sherman is in possession of Savannah.

The railroad between Charleston and Savannah is said to have been cut by the Federals.

Richmond papers anticipate that Sherman will soon proceed North and join Grant.

About 60 Southerners were arrested in New York yesterday, by order of Gen. Dix. Several of them were subsequently discharged.

Richmond Enquirer editorially says, referring to late incendiary attempts in New York. "We are very glad to see that all our Southern refugees are requested to re-register their names, if Gen. Dix will hang them, he will do service to our cause. A set of cowardly sneaks who deserted their Country, are not above burning Hotels. We hope Gen. Dix will hang every Mother's son of them."

Georgia papers publish the following appeal from the Mayor of Milledgeville to the Mayor of Macon, dated Nov. 25th. "Our Citizens have been utterly despoiled by the Yankee Army. Send us bread and meat, or there will be great suffering among us. We have no mules or horses,—what you send must come by wagon trains. The railroad Bridge and the Bridge across the Oconee has been burned. The State House, Executive Mansion and the Factory are still left us. Send us relief at once."

Presidents Message recommends provision be made for effectually preventing foreign Slave traders from acquiring domicile and facilities for their criminal occupation in this Country.

It has been thought proper to give notice that after the expiration of six months, the period conditionally stipulated in the existing arrangement with Great Britain, the U. S. must hold themselves at liberty to increase their naval armament upon the lakes, if they shall find that proceeding necessary. He suggests whether it might not be both competent and expedient for Congress to provide that a limited amount of some future issue of public securities might be held by any bona fide purchase exempt from taxation and from seizure for debt, under such instructions and limitations as might be necessary to guard against abuse of so important a privilege. This would enable every prudent person to set aside a small annuity against war; since the last Annual Message all the important lines and positions then occupied by our forces have been maintained, and our arms have steadily advanced. He recommends the passage of a Constitutional amendment, abolishing Slavery throughout the United States.

The next Congress will pass it, if present does not. On careful consideration of all the evidence accessible, it seems to President no attempt at negotiations with the insurgent leader could result in any good, as rebels would accept nothing short of reverence of Union, precisely what we cannot, and will not give.

He retracts nothing he has heretofore said on Slavery and will not miff the Emancipation proclamation. The war will cease on the part of the Government whenever it shall have ceased on the part of those who began it.

Lord Lyons has taken leave of the President and Secretary of State. His health is impaired, and he will visit England, J. Hume Burnley has charge of the British Legation during Lord Lyons's absence.

The new and valuable Steamer "Vixen" has been captured trying to run the blockade.
