Make a Comparison

Assume nothing in a tire that you cannot see.

It is easy to measure "Traction's" big corrugations, or "Special's" big "buttons," with any competitive anti-skid.

Use Power in the House as well as in the Barn

Runs by Motor or Engine

YOU know how much farm work is saved by electric motors and gasoline engines. Why not adopt the same idea in the house? Backaches from washing are out-of-date—successful housekeepers everywhere insist on washing machines, and the best idea of all is the power washer, because it does all the work itself and needs no attention whatever.

United States Defines Non-Productive Occupations.

The loafers and merely workers of the North American continent have fallen upon evil days. Both in Canada and the United States, the law has now set its face severely against them. On July 1, the United States Federal Order as drawn up by Provost Marshal Enoch Crowder, went in effect. All men of draft age, that is between the ages of eighteen and fifty, have now to be engaged in some productive employment or get into the army. This Federal Order is being reinforced by anti-loafing laws, enacted by State Legislatures.

The Provost Marshal has defined productive and non-productive occupations and there is no escape for those who cannot be classed among the productive workers if they are of draft age. Non-productive occupations in the United States are defined as follows:

First, persons engaged in the serving of food and drink or either in public places, including hotels and social clubs.

Second, passenger elevator operators, attendants, door and footmen, carriage openers and other attendants in clubs, hotels, stores, opera houses, office buildings and bath houses.

Third, persons, including ushers and other attendants engaged and occupied in connection with games, sports and amusements, except actual performers in legitimate concerts, operas and theatrical performances.

Fourth, persons employed in domestic service.

Fifth, sales clerks and other clerks employed in stores and other mercantile establishments.

If a man of draft age registered in due course and waiting his selection for the draft be not employed in productive occupation, or if he be idle partially or completely, he must hold himself on immediate call for the army. The regulation is applicable to idle registrants, to gamblers of all descriptions and employees of race tracks and bucket shops, to fortune tellers, clairvoyants, palmists and people of such vocation. If the Board of Appeal so judge, idlers may have their deferred classification withdrawn and their names will be reported to the Adjutant General of the State for military service. The only excuses for idleness and non-productive employment on the part of a man of military age are set down as sickness, reasonable vacation, lack of reasonable opportunity for employment, temporary absences from regular employment not to exceed one week, unless such are habitual and frequent or domestic circumstances involving hardship to dependents if a change of employment were ordered, or where such change would necessitate night work on the part of women under unsuitable conditions.

In the State of New York, the sheriffs, state police, district attorneys, magistrates, other officers of the law, and the State Industrial Commission, under the state anti-loafing legislation, are combined to enforce the Federal Order and assign men where necessary to jobs of a productive character. It is estimated that 1,000,000 will change their employment as the result of this order of General Enoch Crowder. It is pointed out, however, that no man should give up his present employment, even though of the non-productive class, until he has either procured work at an essential industry or such work has been procured for him, as it is recognized that a man employed at non-essential work is better than a man not employed at all.

Canada's anti-loafing law has been in operation since early in April and every male person over sixteen and under sixty years of age, unless a bona fide student, or physically unfit, or reasonably unable to find employment, must be engaged in some useful occupation.

In Canada, the most essential industry at the present time is agriculture. Food production is a necessity of the summer of 1918 and the saving of the harvest is the necessity of the present moment.

A Complete Sentence.

In one of the many navy schools a young instructor was attempting to teach English to a gruff old sailor. "What is a complete sentence?" he said.

"Solitary confinement, bread and water," was the grim reply.
