

Does Not Disappoint.

The New Discovery for Catarrh Seems to Possess Remarkable Merit.

A new catarrh cure has recently appeared which so far as tested has been remarkably successful in curing all forms of catarrh, whether

in the head, throat, bronchial tubes, or in stomach and liver.

The remedy is in tablet form, pleasant and convenient to take, and no special secrecy is maintained as to what it contains, the tablet being a scientific combination of Blood root, Red gum and similar valuable and harmless antiseptics.

The safe and effective catarrh cure may be found at any drug store, under the name of Stuart's Catarrh Tablets.

Whether the catarrh is located in the nose, throat, bronchial tubes, or stomach, the tablets seem to act with equal success, removing the stuffy feeling in the head and nose, clearing the mucous membrane of the throat and trachea from catarrhal secretions, which cause the tickling, coughing, hawking and gagging so annoying to every catarrh sufferer.

Nasal catarrh generally leads to ulceration, in some cases to such an extent as to destroy the nose entirely and in many old cases of catarrh the bones of the head become diseased. Nasal catarrh gradually extends to the throat and bronchial tubes and very often to the stomach, causing that very obstinate trouble, catarrh of the stomach.

Catarrh is a systemic poison, inherent in the blood, and local washes, douches, salves, inhalers and sprays can have no effect on the real cause of the disease. An internal remedy which acts upon the blood is the only rational treatment, and Stuart's Catarrh Tablets is the safest of all internal remedies, as well as the most convenient and satisfactory from a medical standpoint.

Dr. Eaton recently stated that he had successfully used Stuart's Catarrh Tablets in old chronic cases, even where ulceration had extended so far as to destroy the septum of the nose. He says: "I am pleasantly surprised almost every day by the excellent results from Stuart's Catarrh Tablets. It is remarkable how effectively they remove the excessive secretion and bring about a healthy condition of the mucous membranes of the nose, throat and stomach."

All druggists sell complete treatment of the Tablets at 50 cents, and a little book giving the symptoms and causes of the various forms of catarrh will be mailed free by addressing F. A. Stuart Co., Marshall, Mich.—Advt.

Health and Happiness

POTENTIAL ELEMENTS IN NATIONAL SUCCESS.

SHREDDED WHEAT

Produces Health

Contains the whole wheat and embodies all the elements of nutrition necessary to restore the vital energy expended by the exactions of modern civilization.

Shredded Wheat for sale by all grocers.

FOR SALE:

Nine Shorthorn bulls, from 8 to 15 months old. Also pure-bred Clydesdale stallion, bred from imported stock, rising 2 yrs.; brown in color. McDONALD BROS., WOODSTOCK, ONT.

GOSSIP.

We would draw the attention of our readers to the change of advertisement of W. C. Shearer, Bright, Ont. He offers grand cockerels from a fine laying strain of Barred Rocks. This should be a fine chance for farmers and fanciers to introduce new blood into their flocks.

O'Neil Bros., Southgate, Ont., breeders of Hereford cattle, whose advertisement appears in this paper, call attention to an error in the Gossip, re their herd, in December 15th issue, page 864 credit being there given their bull, Sunny Slope Tom, for the winning of the championship at the Trans-Mississippi Show at Omaha in 1896, instead of his sire, Wild Tom, who really had that honor, the son at the head of the Sunnyside herd of Messrs. O'Neil being unborn at that time.

The 19th annual meeting of the Holstein-Friesian Association of Canada will be held at the Palmer House, Toronto, on Tuesday, February 4th, 1902, at 1 o'clock, p.m. The Executive Committee will meet at 10 o'clock. Mr. Matt. Richardson, Caledonia, gives notice that he will move that the fee for registration of imported animals be raised. Everyone interested in Holstein-Friesian cattle is invited to attend. Buy ticket one way and ask for certificate to secure reduction for return. Members will please note that the annual fee for 1902 is due February 1st. G. A. GILROY, Pres. G. W. CLEMONS, Secy.

Messrs. R. Mitchell & Son, Nelson, Ont., when ordering a change of advertisement, write: "Our present herd of Shorthorns are the best lot we have ever owned, and we are now offering a number of nice yearling and two-year-old heifers in calf to our imported bulls, Major Alpine and Prince William. We have in quarantine 15 head, due to leave there February 1st, including Greengill Victor, a red bull calf, to head our herd, being a Princess Royal, from the herd of W. S. Marr, of Uppermill, sire of the Lavender Victor, dam by Sea King, granddam by William of Orange. Among the females is a yearling Victoria, a yearling Orange Blossom, a four-year-old Orange Blossom in calf to Early Morning, two red yearlings by Scottish Prince, a Kinellar Clementina calf by Scottish Prince, that will likely make a good one; a yearling Rosebud by the noted good and breeding bull, Marengo; also a yearling by Best of Archers, and in calf to Violet Victor, the highest-priced bull in Mr. Duthie's sale last year. We also have a four-year-old cow, Strawberry 42nd, a winner at the Highland Society Show last summer, in calf to the great breeding bull, The Leader, that has been in use in the Duke of Northumberland's herd, and is now being hired by Mr. William Duthie for a season at Collynie. Another yearling is Scotch Thistle, a red, of the old Kibbean Beauty tribe, and in calf to Luxury, full brother to the champion at London and Smithfield fat stock shows. Among the two-year-olds is Cranberry 4th, a roan of good size, in calf to Archer's Heir, a son of the noted Brave Archer."

NOTICES.

IT IS CORRECTLY ESTIMATED that there are fully one million teapots called into requisition to infuse "Salada." Ceylon tea every day of our lives. If you drink Japan tea you should try "Salada." Ceylon green tea.

SUGGESTIONS TO MAPLE SYRUP AND SUGAR MAKERS.—It is impossible to make first-class maple syrup unless you have first-class sap to make it from. Clean utensils of the right kind are indispensable, and only utensils of metal are safe. No product of the farm is so susceptible to injury as maple sap, not even milk. Sap should be gathered as soon as there is a quart in the bucket. Have an outfit that boils shallow, with a regulator that will keep a uniform depth of sap at all times, and that has partitions which will keep the raw sap from intermixing with the sweet. Syrup should be drawn off from the evaporator in small quantities, not four or five gallons at a time as is usually done, but one to two quarts. Use a thermometer so that every gallon will be of the same weight; 219° is the standard for Imperial or U. S. measure. Do not judge by guesswork. Draw off syrup from the evaporator into a felt strainer. This will remove every particle of nitre from the sap. If you are making syrup, strive to make better syrup; if sugar, make better sugar; if butter, make better butter; and if it is cheese, make better cheese. There seems to be a prevailing tendency in the minds of the consumers throughout Canada that syrup and realizing the highest quality of maple sugar, and that our grandfathers were in the habit of making. In order to be convinced that such syrup is of the poorest kind, and has not a maple flavor, if any one having a few maple trees about their house tap them next spring, and as soon as enough sap is obtained that is fresh, take it into the house and boil it into syrup over the kitchen stove in a clean tin vessel, and syrup that has a light amber color and a fine maple flavor will result. Maple sugar can also be made from this quality of syrup that is almost white. In order to produce the most perfect article, the best apparatus should be used. The farmers of Vermont have long been noted for producing the finest quality of maple sugar, and realizing the highest market prices. This is made on the "Champion" Mfg. Co. 84 Wellington street, Montreal, Que. They will, as intimated in their advertisement, be pleased to give any information in regard to maple-sugar making asked for.

THE REASON

You should use

THE WINNIPEG HEATER

Is because it will give you more comfortable and healthy heating at less expense. Our booklet will explain.

THE WINNIPEG HEATER CO. OF TORONTO. 77 Victoria St., Limited. TORONTO, CANADA.

PAGE METAL GATES

are so low in price no one can afford to use wooden ones. Light, and yet strong enough to support a heavy man on the end while he swings around the circle without causing them to sag. They are neat in appearance, will last a lifetime. Will not sag nor get rusty. They are supplied with latches which allow them to be opened either way and are self acting. The only good metal gate that is low enough in price for general farm purposes. We also make Farm and Ornamental Fence, Poultry Netting, Nails and Staples. The Page Fence Co., Limited, Walkerville, Ont. 1
