

# FARMERS

In our last we asked if your thresher-man had arranged to give you the best.

Have you seen him about it?

The NEW WHITE CHALLENGE with cutting box attached.

We have heard from a number of interested farmers asking for information. Have we heard from you?

**The GEORGE WHITE & SONS CO., Limited**

LONDON, CANADA.

Don't forget that money saved is the easiest money earned. This is the machine that does it.

Work and Worry Saved Makes for Success.

## A Chain is no stronger than its weakest link, and Kinked Fence is no stronger than its weakest kink :: :: :: ::

In most factory-made fences there are over 1,000 of these kinks, or weak spots, in each 100 rods.

### Would You Buy It?

**WHY WASTE WIRE?** on so-called Stiff Stays, when the same weight will build a fence two feet higher, or for the same cost you can put in over two Extra posts per rod if constructed with the famous London Machine.

Write for our new book, "Practical Economy on Wire Fence Construction" (free to farmers), and learn how to build a perfect coiled spring fence (without a kink, and with posts 30 to 40 feet apart) for far less money than the cheapest ready-woven fence in existence.

**London Fence Machine Co., Limited**

LONDON, ONTARIO

A. E. Hinds & Co., Winnipeg.

Phelps & Smith, Montreal.

J. W. Boulter, Summerside.
