LOUDEN Junior Sling Carrier

Patented Brace Block

A heavily ribbed malleable iron block attaches to the truck arms just below the track, and the bolt connecting the sides of the carrier frame passes through the lower end. This takes all strain off the bolt and increases the strength of the truck arms. No load can spread them.

Adjustable Trip

Used when desired to carry the load into the mow without elevating to the track. Slip it up or down on the centre draft rope as desired. A simple, effective adjustment without complicated parts. This trip is supplied when ordered without extra charge.

The Great Triple

Purchase Feature

Three ropes lifting the load instead of two, as with the ordinary carrier; gives the horse one-half more power, reduces the strain on the ropes and lengthens the life of the outfit.

Sure to Work

A trip stirrup extends below the carrier frame and attaches to the locking mechanism. It is impossible

to keep the horse going on the draft rope and not bring the sling pulleys in contact with the trip stirrup. Once this is done the car is bound to leave the stop block and run back into the barn with the load. Side winds or uneven loads, cannot affect the proper working of the LOUDEN JUNIOR SLING CARRIERS.

Write for catalogue and special descriptive circular dealing with above Carrier.

Progressive Farmers Make Handsome Profits from Poultry

THE stoutest advocates of Poultry-Raising on the farm are the progressive farmers who have investigated the Peerless Way. These men are alive to the fact that Canada does not produce one third of the poultry and eggs consumed in this country, and that handsome profits go across the border to the American farmer who is called upon to supply the shortage.

You, Mr. Farmer, can have this profit, plus the amount spent in Customs duties and long freight hauls importing eggs and poultry from the States, and you will always have an eager market waiting to buy up all the poultry and eggs you can raise.

Read what this British Columbia farmer says:

Greenwood, B.C., Dec. 1, 1913.

"I am pleased to report a good season for the past summer with the poultry. . . pullets are just commencing to lay. Eggs hatched well and I raised practically all in the Brooder and only lost (1) chick out of 500 hatched. I sold 20 dozen baby chicks and am keeping over 150 pullets, as it is the egg trade that I am working up."

"Since last September, eggs have been selling here at 70c. per doz., and at present they are bringing 80c. and are very scarce too."
(Sgd.) A. R. Royce.

The Peerless Way Makes Poultry Pay

The whole idea of the Peerless Way of Poultry Raising is to raise the greatest number of the strongest chickens at the least outlay of money and with the least expenditure of time. We know that a farmer's regular duties do not leave him much time to look after chickens, so we have bent all our energies to perfecting a system whereby a farmer can take care of 400 or 500 chickens the Peerless Way in less time than he can look after 30 or 40 the old way.

The Booklet Tells You How
We want to tell you all about it so that you can study the question from all sides before you spend a dollar. We have written a book called "Money In Eggs" which we want to place in the hands of every up-to-date Canadian farmer. We want you to read and study this book. It will cost you the price of a post card, and it will be the means of adding hundreds of dollars to your income every year.

No. 76
Planet Jr
Pivot-wheel
Riding Cultiva-
tor, Plow,
Furrower, and
Ridger

A wonderful implement in extensive cultivation of corn, potatoes, etc. Light in draft, simple and strong in construction and comfortable to ride upon. Works rows 28 to 44 inches, and cultivates crops until 5 feet high.

No. 11 Planet Jr
Double
Wheel Hoe,
Cultivator,
Plow and
Rake

The greatest cultivating tool in the world for the grower of garden crops from drilled seeds. It has steel frame. The plow opens furrows for manure, seed, etc., and can be reversed for covering. The cultivating teeth are adapted for deep or shallow work and for marking out. Crops can be worked both sides at once until 20 inches high.

No. 72
Planet Jr 2-row
Pivot-wheel
Cultivator,
Plow,
Furrower
and
Ridger

Cultivates at one time two rows of potatoes, corn, beans, etc. in rows 28 to 44 inches apart. Works like a charm in check rows, crooked rows, and rows of irregular width. Can be equipped with roller-bearings, spring-trip standards, and discs.

THE PAPEC

IT THROWS
AND BLOWS

Papec Ensilage Cutters

Cut silage perfectly, and at a very low cost of operation. Papec knives cut smoothly and swiftly. They make a fine, uniform silage that is very palatable and nutritious. The combined throwing and blowing force that lifts the silage is generated from one fifth less power than is required by any other blower doing the same work.

Mechanical perfection and high quality of material mean long life, no loss of power and low cost of operation.

Our new illustrated catalog gives facts showing how "The Wonderful Papec" will save time and money at cutting time. Send for copy today.
