The Farmers' Market

WINNIPEG MARKET LETTER

WINNIPEG MARKET LETTER

(Office of The Grain Growers' Grain Company Limited, Sept. 30, 19.)

Wheat—Receipts during the past week, while not nearly as heavy as they were this time last year, have been more than sufficient to fill the requirements of the few exporters who had pace to fill. The result is that the big premium which could be got for spot wheat is now a thing of the roat. To-day only a small premium over October prices can be got for spot wheat, and this premium is likely to continue only until receipts begin to get really heavy. While the last couple of days of the past week naw some new apporters in the market for grain, there has not yet heen any sign of there being a general demand from ahroad for our wheat. Some of the biggest exporters claim that our prices are still out of line, and any continuance of fine weather with correspondingly larger receipts may perhaps see some further decline is eash prices. It is noticeable to-day that the inspections show a large percentage of tough grain.

Oats—Futures close nearly two cents lower than a week ago, but the spot grain is worth more money. The stocks at the terminals are the smallest for years, and there has also been a scarcity of oats in Winnipeg. Good prices should continue on this grain until we get a very free movement of the new crop.

Flax—There has been practically nothing doing in this grain throughout the week, and the same thing applies to barley.

All records for the past season were broken at the local stockyards this week when the receipts amounted to over 13,000 head, which is more than double an average run. A good half of these were sheep and lambs, but the cattle shipments, consisting of over 4,200 head, came into the market bunched mostly on the first two days of the week. The general market prices were consequently depreased 15 and 25 cents on most classes. Best butcher steers declined to 85.65 and the medium good stuff dropped from \$5.25 to \$5.00. Most of the offerings, however, were of only fair quality. The hest cattle seen during the week brought \$5.75 and there is plenty more room for this class.

Hogs
The drop to \$9.00 and \$9.50 a hundred weight remained in force all week. It is not that more hogs were shipped into Winnipeg than the local needs warranted that prices sagged. But the fact that some Winnipeg packers received many consignments from the Toronto market lessened the keenness of local competition. The market is in a very unaettled state just now, no one venturing to prophecy what turn prices will take, but for some days the same level is looked for.

Sheep and Lambs
In spite of exceptionally heavy receipts the prices remain steady at last week's level. Of the six thousand odd head shipped into Winnipeg, only about half were for local consumption. Best lambs are quoted at \$6.50 to \$6.75, and choice mutton sheep at \$4.50 to \$5.00.

Country Produce

Note.-Quotations are f.o.b. Winnipeg except for cream which are f.o.b. point of shipment.

for cream which are f.o.b. point of shipment.

Butter

Although the receipts of butter have fallen off a great deal, the prices remain steady at last week's level. Pancy fairy is in keen demand at 86 cents, and No. I dairy at 43-44 cents, the quantities of the best grades coming in being very limited. For good round lots 91 cents is paid. While the demand may raise prices on the high class article, dealers do not expect any increase on the poorer stuff, as they claim that prices on these lines have reached their absolute value and the local demand is quite limited.

Eggs

Strictly fresh eggs are still bringing 24 and 25 cents a dozen. Such large quantities have been imported from the south that most produce firms are heavily stocked and the indications are against higher prices for some time. The surrounding territory in Manitoba is getting to be of comparatively little importance in filling the needs of Winnipeg, but there is a vast surplus available across the Minnesota border upon which local dealers rely.

Potatoes

Potatoes

Potatoes

Potatoes

Potatoes are coming in freely, the same level, 55 cents, being maintained. The local market is being steadily supplied at this low figure and it is unlikely that any advance will be made.

Milk and Cream

The new schedule of October prices comes at once into effect, sweet cream being 35 cents, buttermaking cream 27 cents, while sweet milk is raised to \$2.10 per hundred pounds. At the rate receipts are dropping off, local creameries will before long be compelled to bring in their supplies from the south. The off-season generally lasts for a couple of months, by which time the winter supplies reach normal proportions.

Hay

The previous week's advance in hay was maintained all through the week, and despite the sharp rise the shipmenth into Winnipeg were not up to the demand. The present quotations will not last after a spell of fine weather allows farmers to send in normal quantities, but until the deficiency made by the past two week's shortage is made up, the market will be firm.
