

Think Well Before Buying Your Range

Your Range is of the greatest importance in the equipment of your home. If you are buying a new range this Fall be sure to choose one that will give you good service. For many years we have been perfecting methods of manufacture, giving close study to building ranges that will utilize every atom of heat—making ranges to last and not forgetting the advantages of beauty of design.

Davidson's Ranges Means Better Cooking

No worry—always a steady, even heat—strictly economical and most simple. Dampers, etc., are arranged to get maximum efficiency with minimum consumption of fuel.

DAVIDSON'S Premier Royal Range

A moderate-priced cast range that is the close friend of many a housewife. Beautifully constructed; will serve you well.

Write us for particulars and then see this range at your dealers. We will give you his name.

To Take College for Hospital

Major-General Mewburn, minister of militia and defence, states that it depends on the assent of Major-General A. E. Ashton, adjutant-general and the federal board of medical consultants for Manitoba, whether the Dominion government will take over the Manitoba Agricultural College as a military hospital and rehabilitation school for returned soldiers, according to a statement made by Major-General S. C. Mewburn, minister of militia and defence, at the Fort Garry hotel recently.

It is understood that the consideration outlined in the proposition as submitted by the province is \$3,900,000 in Dominion securities, presumably Victory Bonds, although the nature of the securities and the rate of interest are not definitely settled.

Lieut.-Col. Perrett Returns Blind

Lieut.-Col. T. E. Perrett, the widely-known Saskatchewan educationalist, blinded at the front by a shell splinter which pierced his right eye and severed the optic nerve of the left, arrived in Winnipeg last Monday, en route to Re-

gina. Lieut.-Col. Perrett was accompanied by his wife and her sister, Miss Newlands. The party recently arrived from overseas.

Previous to his being gazetted with the 68th Battalion, and proceeding overseas, Lieut.-Col. Perrett was principal of the Regina Normal school. It is believed that he will resume his duties. When blinded by the shell splinter, Lieut.-Col. Perrett was observing the operations of an enemy airplane. After his return to England he studied at St. Dunstan's school for the blind.

The mills of the flour companies grind both fast and exceedingly costly—Ottawa citizen.

Our Wonderful Tarriff

W. S. Yont, of Lucas, Iowa, was a visitor at The Guide office last week. He was formerly a farmer at Harrowby, Man., and still operates his farm at that place. He drove up from the United States in August, in his automobile, to harvest his Manitoba crop. He reports that he was stopped at Emerson by the customs authorities and was not allowed to bring his motor into Canada. He states that the customs authorities informed him that if he were coming into Canada on a pleasure trip he would be allowed to bring his automobile through without duty, but as he was coming in to work he would have to pay the full duty, and there would be no refund if he should take the car back. He was, therefore, compelled to leave his car in bond at Emerson, and will have to pay storage upon it when he takes it out again on his return home to the United States.

Mr. Yont thought it was an extraordinary law that would punish a man for coming into Canada to harvest his crop, while it would encourage him to come into Canada to do nothing. It seemed to him that it was discouraging work and encouraging idleness. The idea of bringing the automobile was to bring four other harvesters with him and thus save the railway fare. He feels that the customs regulation will make it harder to get harvest help into Canada than it ought to be.

Straw-burning Ban Lifted

It has been announced from Ottawa that owing to the increased supplies of feed in the West, the government order prohibiting the burning of straw in Manitoba, Saskatchewan and Alberta has been rescinded.

It is estimated that nearly 5,000,000 people have died of starvation or malnutrition during the war. This total is more than half the population of Canada.

John Dillon, New York commissioner of foods and markets is reported to have recently stated, after exhaustive investigation, that out of every dollar the consumer pays for farm products the farmer gets only 35 cents. The rest is absorbed by middle-men in the process of marketing.

A bright plow share is the sign manual of a good farmer.

The liberty of the press is a blessing. Johnson.

The Grain Growers' Guide
