

The
**LEYNER
 DRILL
 SHARPENER**
 "IR" MODEL

**Greater
 Production**

The need of the day in mining, quarrying, etc. A modern Drill Sharpener is a most important factor in increasing output, and any plant using three or more drills cannot afford to be without it.

It means sharp steels, more footage, less machine repairs and all-round satisfaction for owner and operator.

Let us send you our 24 page Bulletin No. K-201.
 It will suggest many things to help
 your production
