Monday, November 27, 1916

THE SITUATION

As far as Bucharest, the capital of Roumania is concerned, there does not seem to be any other outlook than the speedy capture of the place by the Teutons. Mackensen and Falkenhayn have linked forces, and are now only some fifty miles from their objective. The Roumanians are burning everything along the line of their withdrawal. At other points, the troops of King Ferdinand appear to be holding their own in a quite satisfactory manner.

Italian troops are continuing their drive west and north west of Monastir, while there is sharp fighting between Serbian and Bulgarian forces north of the place named.

On the Somme front, the Germans on Sunday made three offensive moves against the British, but failed in each. In Champagne, a similar attempt was frustrated by the French.

Will Irwin, well known war correspondent, on arriving at New York from the front, gave expression to the opinion that the war will last two years longer, and that the Allies will win. He characterizes the French army, man for man, and gun for gun, as the finest fighting force in the world, and declares that they have shown the British how to fight the foe. John Bull, he states, has proved himself to be the master of the air.

The announcement that Teuton submarines are in the Atlantic, has naturally created a large sized flutter in shipping circles. It may be that the previous visit of one of these under water raiders off the U. S. coast was merely a test to see what could be accomplished in this regard, and how much Uncle Sam would stand. If the thing develops to any extent, our neighbors will find that their own interests will become vitally affected.

UNWORTHY WORK.

At the Liberal gathering of forces in Toronto on Friday night, speaker after speaker solemnly affirmed that the idea was to put the winning of the war first, and to obliterate politics. Then one after the other of them affirmed that the Dominion Government had from the first handled matters in a bungling and an inefficient way, and that it was necessary to put others in their places—themselves, of course.

Thus, in the one breath, they stultified themselves, and what was worse helped to play into the hands of the enemy. There can be no doubt about the last named fact. In the first place there can be no question whatever that efforts to sow distrust among the people at such a period are diabolically inimical to the cause in hand and in the second place it is equally certain that the enemy is not slow to take satisfaction out of what is made to appear as discontent in this Dominion over war matters and alleged inefficiency over the response.

This, be it noted, is the deplorable picture which Grit manipulators are painting for party ends, and this in the manner in which they traduce the splendid co-operation in men and means which this country has already given the Mother Land. That still more must be done, all will admit, but to assert that hitherto there has been little else but lack, is to directly traduce the memories of the noble men who have already given of their lives and to mock the bereaved families to be found in all sections of this Dominion. In this regard, it is worthy of note that the least response has been from the Province of Quebec, where the boast is frequently heard that Sir Wilfrid Laurier's personality predominates, and his "say so" is supposed to be the law. If he has failed to bring Quebec from its laggard position, by what right do he and his associates dare to criticize others who have done so well in other provinces? See if you can get an adequate answer from any Grit that.

BURNED TO DEATH

By Courier Leased Wire.

Quebec, Nov. 27.—About 2 a.m. yesterday fire destroyed two dwellings at Rimouski and despite the efforts of the volunteer brigade and neighbors, Miss Ross, 13 years old, was burned to death in her bed.

Don't think because you have taken many remedies in vain that your case is incurable. Hood's Sarsaparilla has cured many such flagrant cases of scrofula, catarrh, rheumatism, kidney complaint, dyspepsia and general debility. Take Hood's.

THE COURIER CONTEST

After some weeks of keen, but friendly rivalry among the candidates concerned, The Courier contest has come to an end.

The prizes offered and given, were the best ever put up for competition in connection with any similar event in this section of the Province and the recipients have all expressed their sincere appreciation of the solid worth of the awards. From the automobile down to the smaller prizes, everything was of the highest class of material and workmanship.

The successful participants—all worked hard and towards the finish some surprises occurred. For instance, Miss Nan O'Brien of Paris, who, together with her friends, carried on a most energetic campaign, was only beaten on the last day for first honors by Mr. A. F. Wicks of this city, who stuck to the goal he was after with marked tenacity. Miss O'Brien did so splendidly that the Courier directors had no hesitation in deciding upon the award of a special prize for her efforts. The effort of the management was from the first to have matters upon a perfectly fair basis and even those who did not secure prizes will get ten per cent for the work which they did accomplish.

The whole enterprise, from The Courier standpoint, of course, was the business one of adding to the subscription list and it is pleasurable to report a large and satisfactory increase in the city and county. No effort is being spared to keep this paper up to the highest possible standard in connection with the general news service (including a special leased wire) local happenings, special features and so on, and the many kindly tributes which have been received in this regard are deeply appreciated.

The large circle of old readers has now been greatly added to by a number of new ones, and it will be the constant aim of this paper to maintain alike their confidence and their interest.

The Courier extends hearty thanks to the judges, Warden Harris, Mayor Patterson of Paris and Mr. W. C. Boddy of the Standard Bank, for the efficient and impartial manner in which they discharged the duties of their arduous task.

The fact may be noted that the equipment of the office has recently been still further enlarged by the addition of another linotype machine. This makes the "battery" in this respect by far the best in the city and equalled by few other places of the size anywhere.

Predicament of a Noted Soldier

Stockholm—There came to Stockholm a little while ago a man who has lived by the sword almost from boyhood, but who in the sudden turn of events in 1914 found himself, not a man without a country, but a man with two countries—two countries—two countries arrayed against each other in the bitterest of all world combats.

He had served under the Austrian Crown Prince and had been aide to Kitchener of Khartoum. He had gone across the desert and the wonderful campaign along the upper reaches of the Nile which had brought civilization back to the Sudan and won for Kitchener his first great fame.

He came to Stockholm from Vienna unannounced, and to all intents and purposes "incog." There were few who recognized him as Rudolf von Slatin, Baron of the Austrian Empire, Pasha of Egypt, Lieutenant General of the Egyptian Army, Major General of the British Army, and six times the recipient of the coveted British orders, from which the Companion of the Bath to Knight Grand Cross of the Royal Victorian Order, and was by distinguished service. He was Inspector General of the Egyptian forces under General Sir Francis Wingate when the crash of war in 1914 brought a new crisis in his already eventful life.

When the parting of the ways came in 1914 Slatin found his love for Austria still strong although most of his life had been devoted to Britain and her wars in Egypt. He had become essentially a part of the English military machine. But he could not fight against his fatherland, nor could he serve in any way against the country which had meant so much to him and which had lavished honors upon him.

MANNER IN WHICH MEN CAN BETTER

To Discern This Is Chief Aim Of National Service Board

By Courier Leased Wire.

Ottawa, Ont., Nov. 27.—R. B. Bennett, M.P., who succeeded to the post of director-general of national service, is actively at work preparing to launch the campaign.

"The regulations outlining the responsibilities of the National Service Board," said Mr. Bennett to-day, "specifically provide that the chief duty imposed upon our organization is to make investigations and formulate plans that will enable the agricultural and other essential industries to be maintained at the highest state of efficiency, without impairing the public services of the country. This would necessarily imply that the non-essential industries must be prevented from absorbing an undue proportion of the man-power of the country. Our board must determine the manner in which men can better serve the nation at this time; whether in a military or industrial capacity. Also the extent to which it may be possible to provide for the substitution of women for men and efficiently maintain the industrial life of Canada."

"Mr. Mark Irish of Toronto has recently been appointed a member of our board as director of munitions' labor and will devote his time and attention to this work."

OPERATOR DIED

By Courier Leased Wire.

Quebec, Nov. 27.—H. R. Cook, wireless operator on the Government steamer Montcalm, died last Friday on board the steamer, while on a cruise down the Gulf. The Montcalm reached here yesterday afternoon expected, as she had not reported since the operator died at sea. Cook, who is married, leaves a wife and child at Charlottetown, P. E. I., and was unwell when the Montcalm reached Sydney, B.C., and called on a doctor who told him he could safely make the trip back to Quebec, but when out at sea, Cook had a bad turn and died almost instantly at his key.

HONORS FOR HUNS.

By Courier Leased Wire.

Berlin, Nov. 27.—(By wireless to Sayville)—Rear Admirals Wurmbach, Jasper, Hebbinghaus, Maue and Behnke have been promoted to vice admirals, says a semi-official announcement.

Clear, Peachy Skin Awaits Anyone Who Drinks Hot Water

Says an inside bath, before breakfast helps us look and feel clean, sweet, fresh.

Sparkling and vivacious—merry, bright, alert—a good, clear skin and a natural, rosy, healthy complexion are assured only by pure blood. If only every man and woman could be induced to adopt the morning inside bath, what a gratifying change would take place. Instead of the thousands of sickly, anaemic-looking men, women and girls, with pasty or muddy complexions, instead of the multitudes of "nerve wrecks," "run-downs," "brain fags" and pessimists, we should see a virile, optimistic throng of rosy-cheeked people everywhere.

An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, sour fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach.

Those subject to sick headache, biliousness, nasty breath, rheumatism, colds; and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store which will cost but a trifle, but is sufficient to demonstrate the quick and remarkable change in both health and appearance, awaiting those who practice internal sanitation. We must remember that inside cleanliness is more important than outside, because the skin does not absorb impurities to contaminate the blood while the pores in the thirty feet of bowels do.

TWO ACCIDENTAL DEATHS

By Courier Leased Wire.

Quebec, Nov. 27.—While out hunting, Harold Eden, of Gaspé Bay, tripped over a fallen tree, causing the discharge of his shotgun, which killed him outright.

New York, Nov. 27.—Charles Case, an actor, accidentally shot himself in the heart in his hotel room here to-day while cleaning a revolver. He died shortly after. Case was a monologist and was to have gone to Erie, Pa., to-day to keep an engagement. His home was in Buffalo. He was 58 years old.

IN DISTRESS

By Courier Leased Wire.

Quebec, Nov. 27.—The worst storm of the winter struck the Gulf late Saturday night and two government boats had a bad time weathering it.

The Montcalm, which was on her way to Quebec, made slow progress to this port, arriving ice-clad yesterday at 3:30 p.m. The C. G. S. Lady Evelyn, which was on her way to Anticosti Island, had to put back to Rimouski, where she arrived yesterday morning, heavily coated with ice and snow.
