## The Daily Planet

In the literature which has been circulated by those who are working in the interests of the Beet Sugar By-law, the warning is given to look out for a "noorback" from those who are opposing the measure. If the insinuation contained in the warnwarning is directed towards, or is in any way meant to apply to this journal, it is unjust and undesenved. Such unfair and debasing tactics are to be deplored in any election, and especially in such issues as the present one. The Planet is opposed to the passing of this by-law, but it always has been, and is still, opposed to the employment of such agencies as a "roorback" in contesting any election. This by-law has been fought upon its merits alone. We have nothing to hide , with the interests of the municipality to serve. Any opposition of a disagreeable nature, which may have been oreated by this journal, has been thrust up. on us by the tactics instituted by Reliance Loan & Savings Co those interested in the passing of the by law.
