## BEULAH SURVEY LOTS SELLING

Take a stroll over the surrey and you will be convinced that we are offering superior value in "Baulah Lots," and you will also agree that we are justified in advancing the price \$2 per foot May 1st. A word or two about restrictions: The purchaser is not compeled to build, but should be desire to do so, then he must erect a dwelling with a cash valuation of at least \$1,500. The wall of house next to street shall be 14 feet from street line, and 4 feet from northerly line of lot, this restriction giving a uniform building line on each street, also permitting lawns on south side of every house. Not more than one dwelding shall be built on each lot, thus ensuring sunshine and a healthy surrounding. We think these wholesome restrictions will appeal to "Home Builders" in preference to a "Lone Lot." with no restrictions.

## **MESSAGE SENT** TO U. S. CONGRESS.

PRESIDENT WISHES ACTION TAKEN ALONG CERTAIN LINES.

Liability Law-Injunction in Labor Disputes- Inter-States Commerce Law and Anti-Trust Law.

Washington, March 25.-President Roosevelt to-day sent a special message to congress in which he calls attention to certain measures as to which he thinks there should be action by the Congress before the close of the present session. After declaring that child labor should be prohibited throughout nation, he renews his recommendation for the immediate re-enactment of an employers liability law, drawn to con-form to the recent decision of the Sup-reme Court; and urges that action be taken along the line of the recommenda-tions he has already made concerning in-junctions in labor disputes. Dealing with other measures, including that of the inter-state commerce law, the antitrust law, strikes, financial legislation, tariff revision, and waterways commis-

truet law, strikes, linaural legislation, tariff revision, and waterways commission, the President says, in part:

"I again call attention to the urgent need of amending the inter-state commerce law and especially the anti-trust law along the lines indicated in my last message. The inter-state commerce law should be amended so as to give rail-roads the right to make traffic agreements, subject to these agreements being approved by the Inter-State Commerce Commission and published in all of their details. The Commission should also be given the power to make public and pass upon the issuance of all securities hereafter issued by railroads doing an inter-state commerce business. A law should be passed providing in effect that when a federal court determines to place a common carrier or other public util-The funeral of Mrs. Margaret Grant took place from the residence of Mrs. John Hughes, corner of Catherine and Ferrie atreets to St. Lawrence's Church, Father Brady said mass and officiated at the grave in Holy Sepulchre Cemetery. The pall bearers were S. Taulty, J. Hughes, A. Cameron, J. Wickham, H. McGovern, and D. McGovern. of the receivers; or else in some other way the interests of the stockholders should be consulted so that the management may not be wholly redelivered to the man or men the failure of whose policy may have necessitated the creation of the receivership. Receiverships should be used, not to operate roads, but as speedily as possible to pay their debts and return them to the proper owners.

debts and return them to the proper owners.

"In addition to the reasons I have already urged on your attention, it has now become important that there should be an amendment of the antitrust law, because of the uncertainty as to how this law affects combinations among labor her and farmers, if the combination has any tendency to restrict interestate commerce. All of these combinations, if and while existing for and engaged in the promotion of innocent and proper purposes, should be recognized as legal.

"I am of the opinion, however, that one change in the tariff could with advantage be made forthwith.

"Our forests need every protection.

vantage be made forthwith.

"Our forests need every protection, and one method of protecting them would be to put upon the free list pulp wood, with a corresponding reduction upon paper made from pulp wood, when they come from any country that does not put an export duty upon them.

"Ample provision should be made for a permanen I waterways commission with whatever power is required to make it efective."
