ACCIDENT BY FIRE.—On Wednesday last, the 10th inst., a man named Rice, supposed to be from the County of Monaghan, Ireland, called at the residence of Mr. Lauchln nMcKinnon, Vernon River, and asked shelter for his horse, the day being stormy, stating at the same time he wished to purchase a horse. A son of Mr. McKinnon's took the animal from him, and put him in the stable, and while doing so, the man ran into the house, lit his pipe, and followed the lad into the stable. About half an hour after, the Barn was observed to be on fire, by the neighbours of Mr. McKinnon, who ran to his residence to give the alarm, but by the time they reached the building, the fire had so far gained the ascendancy, that all attempts to save it or its contents, were ineffectual. We regret to learn that Mr. McKinnon has, by this unfortunate act of a careless man, lost a good new Barn, 45 by 50 feet, three horses and one foal, sixteen head of horned cattle, 1 sheep, a lot of poultry, two hundred stooks of wheat, five hundred stooks of oats, six tons of hay, 1 gig, carts, ploughs, harrows, all his farming implements, Harness, &c., the loss is estimated at £300. The man who was the cause of all this loss, lost his own horse also. As soon as he saw the building on fire, he cleared out.

The Ladies of the Bible Christian congregation of Montague, Three Rivers, have presented their highly esteemed pastor, Mr. Jesse Whitlock, on leaving them to serve in another congregation, with a very handsome and costly set of China, as a token of their appreciation of his personal character, and esteem of his valuable ministerial labours whilst with them.

Warrants from No. 614, of the date of the 20th July, 1854, to No. 696, of the date of the 17th August, 1854, (both inclusive) will be paid at the Treasury on demand, together with the interest due thereon.

The following Address was presented to His Excellency the Lieutenant Governor by the Office-bearers of the Mechanics' Institute :—

To His Excellency DOMINICK DALY, *Esquire, Lieutenant Governor, &c. &c.*

May it please your Excellency;

We, the Office-Bearers and Members, of the Charlottetown Mechanics' Institute, beg leave respectfully to approach your Excellency and offer our congratulations upon your assumption of the Government of this "gem of the sea."

In thus addressing your Excellency, we have the honor to inform you, that the objects of our Association are a diffusion of the knowledge of the Arts and Sciences, and of general literature, by means of the Lectures delivered during the winter seasons; by the establishment of a Library for the use of the Members; and by the formation of classes for the young Mechanics, so that they may be taught the principles of Elementary Sciences and of useful Arts. We have also founded a Museum, and we intend, forthwith, to organize a Savings' Bank, under proper and wholesome regulations, so that the poorer members of this community may be induced to cultivate habits of prudence and economy. Our Institute is supported by annual subscriptions and by donations—the sum of five pounds constituting the donor a member for life and by an annual grant from the Legislature.

At a general meeting of the Institute held on Thursday last—and which has been the first that has taken place since your Excellency's arrival—a motion was unanimously adopted, that your Excellency should be respectfully requested to honor the Institute by becoming its Patron, and in thus presenting the wishes of the Institute to your Excellency, we would beg to offer our best wishes for the health and happiness of your Excellency, your Lady and family.

On behalf of the Institute,

CHARLES YOUNG, President,
E. WHELAN, V. President,
J. T. PIDWELL, V. President,
W. E. DAWSON, Secretary.

Mechanics' Institute Hall, 6th Jan. 1855.

To which His Excellency was pleased to make the following reply :—

Gentlemen;

Accept my best thanks for this Address, which I receive with peculiar satisfaction, as it affords me an opportunity of expressing my warm approbation of the objects of your organization.

Having long been favourably impressed with the advantages of similar institutions, I cannot doubt that the course of the Charlottetown Mechanics' Institute will be marked by the same happy results which I have always seen produced where such laudable objects are kept steadily in view.

I accept with pleasure the position of Patron, which you have been pleased to assign to me, and I shall not cease to take a lively interest in your progress, and to promote it as far as I may be able.

(Signed) D. DALY, Lieut. Governor.

IT SHOULD BE UNIVERSALLY KNOWN—for it is strictly true—that indigestion is the parent of a large proportion of the fatal diseases. Dysentery, diarrhœa, cholera morbus, liver complaint, and many other diseases enumerated in the city inspector's weekly catalogue of deaths, are generated by indigestion alone. Think of that dyspeptics! think of it all who suffer from disordered stomachs, and if you are willing to be guided by advice, founded upon experience, resort at once (don't delay a day) to Hoofland's German Bitters, prepared by Dr. C. M. Jackson, which, as an alterative, curative, and invigorant, stands alone and unapproached. General depot, 120 Arch street. We have tried these Bitters, and know that they are excellent for the diseases specified above.—*Philadelphia City item.*

THE HYDROMAGEN,

OR WATERPROOF ANTI-CONSUMPTIVE

CORK SOLES,

Manufactured by HARCOURT BRADLEY & Co., 38, Ann Street, N. Y., and at London and Manchester, England.

THE HYDROMAGEN is a valuable discovery for protecting the feet from damp or cold, and therefore a preventive of many Lung diseases, *without any doctoring whatever.* The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its *medicated* character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm, and healthy, to wear in the coldest or rainiest weather, as the feet cannot become wet, if the Hydromagen is inserted.

Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while consumption, so prevalent among the young of our country, may be thwarted by general adoption. They entirely *supersede over-shoes*, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being merely a thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the foot to appear untidy.

To Children they are extremely valuable, as they may engage in exercise, with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides those who patronize them will find their *yearly doctor's bill much diminished thereby.*

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburgh, and Berlin, our sales reached the almost incredible number of 1,732,450 pairs of cork soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventive for COUGHS, COLDS, BRONCHITIS, ASTHMA, and CONSUMPTION.

Men's size, per pair, 2s 3d.
Ladies' do. do, 2s.
Boys' and Misses' do. 1s 6d.

NOTICE.—From the Retail Prices we make a very liberal allowance to Jobbers and Wholesalers, so that any storekeeper can make a fine profit on their sale, while they are an article, that may be kept in any store, among any class of goods.

For terms, apply to HARCOURT, BRADLEY, & Co. 38 Ann Street, New York.

☞ THE CHEST. ☜

SIR ASTLEY COOPER, BART., M. D., the eminent Medical Practitioner, has left a valuable legacy to the world, in his GREAT PREVENTIVE OF CONSUMPTION, and *unfailing cure for Pulmonary Diseases*, without the use of Medicine.

Sir A. C. Bart., invented and advised the use of the MEDICATED FUR CHEST PROTECTOR to all persons of all ages and conditions, as a certain and safe shield against those fearful diseases, Consumption, Bronchitis, Asthma, Coughs, Colds, and other affections of the Lungs, which arise from the exposed state of the chest, *according to fashion*, and the continual changes of our climate.

"The Protector" is simply a chemically-prepared fur, lined with silk and padded, which, suspended from the neck, covers the chest in so agreeable a manner, that, once worn, it becomes a *necessity* and a *comfort.*

"The Protector," although but recently introduced into America, is making rapid progress through the United States, the Canadas, South America, and the West Indies. It has for a long time been a staple article in England, and on the Continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts, enquire of any English resident in your vicinity of his knowledge of the beneficial effects of wearing the Protector, WITHOUT RECOURSE TO DOCTORING of any kind. The cost of wearing these articles is a mere trifle, and one will last some years. No one who values the health of himself or his family will be without them. The hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co., of London, and Manchester, England, were originally entrusted with the manufacture of the Protectors, by the lamented Dr. Cooper, and continue to manufacture according to *his original* instructions, and therefore recommend those who would wear "The Protectors," to see to their being genuine.

Gentlemen's size, 9s. each.
