TOBONTO WHOLFSALE MARKETS-WEEKIY REVIEW.

PRODUCE. There has been only a small amount of business done since our last, but it has been fully up to the average of that done in the latter part of July; there can be little doubt that if offerings had been larger sales would have been larger also. Prices have, generally, been steady; but those of new wheat are not yet settled, nor do they seem to be ruled at all by those of old. Crop reports continue favourable, the only exceptions being that spring wheat will be short, and a good deal of barley discoloured. Stocks in store on Monday morning were as follows:-Flour, 300 bbls.; fall wheat, 6,084 bush.; spring wheat, 15,369; oats, 4,900; barley, 4,464; peas, 78: and rye, 50 bush., against, on the corresp ing date last year :-Flour, 3,000 bbls.; fall wheat. 55e for ducks. 15,017 bush.; spring wheat, 76,603; oats, 12,900; barley, 38,141; peas, nil, and rye, 400 bush. Outside advices show on English quotations a fall of Fancy and Strong Bakers'... Spring Wheat, extra..... 1d on club wheat and corn, with all others unchanged. Markets during the last three days neal, per 196 lbs. meal, small lots. seem to have been quiet and easy, but no decline of any consequence has been quoted. During last week markets were firm, with holders looking for an advance on wheat. July imports were over a million quarters of wheat, but home deliveries so small hat stocks were thought to have been reduced by 400,000 quarters during the month. The weather last week was decidedly unfavorable, very much mischief seems to have been done, ticularly to barley, and there seems reason to lear that the result may not come up to previous expectations. Markets are expected to be very sensitive during August. The amount of supplies last week cannot be stated exactly, as we are without any report of home deliveries; but orts were 315,000 to 320,000 quarters of wheat Rye and 132,000 to 135,000 harrels of flour, being equal to 388,125 to 395,937 quarters, and we may be sure that however small were the home deliveries they at least made up the deficit between these figures and the average weekly consumption. It appears that the total net imports of wheat and four into the United Kingdom from Sept. 1840-1879, to July 10th, 1880, have amounted to 3,305, 012 duarters against 11,539,073 duarters last years i and that the total deliveries by farmers in the whole of the United Kingdom in the same time are commuted to have amounted to 1176 299 errors Dats, Peas, Rye, are computed to have amounted to 5,176,828 quar-ters against 9,420,969 quarters last year, making a total supply of 18,784,840 quarters against 20,960,042 quarters in the same time last year. Continental advices by mail state that in French country markets during the week ending on the 17th ult. there was a general decline on wheat. Flour was nevertheless fairly maintained in price owing to the general exhaustion of millers' and bakers' stock. Three markets reported ring the week were dearer, 39 unchanged, and \$7 lower; but Paris after participating in the dullness of country markets on wheat closed with a firmer feeling. Farmers are said to have been quite satisfied with crop prospects. The almost unanimous opinion was that the wheat crop will be at least, an average one, and that of other grain amply an average one. Farmers had begun to cut rye, barley and oats. Some farmers who had refused 32fr to 34fr for their wheat were eady to sell it at 30fr, and spring corn was weaker all round. The arrivals of foreign wheat in ch ports were materially smaller, amounting to 382,319 hect., against 828,589 hect. in the previ-tous week. Stocks at Marseilles varied but little. Germany the weather was rather more settle an before. The rye narvest had interest operations of the reports were generally to the fact that the improvement which had last week een expected was being disappointed by the soults, and that there must be a consideran before. The rye harvest had made som ults, and that there must be a consider-e deficit in this crop; but wheat and barley promised a rich result. The wheat and nariey promised a rich result. The wheat trade was functive at Berlin, but prices were firm for July, with "an uncertain period until the harvest." At Hamburg, wheat, owing to reduced stocks, remained firm in value. Best yellow Mecklenwas selling at 56s, white Saale held at 56s d per 504lbs f.o.b. American winter wheat had Id at 53s 6d, white Californian at 50s 6d, mmmon red English at 41s to 42s per 504ibs envered here. "Term" wheat July-August September-October 42s 9d, October-No-ber 42s 6d per 504lb; and American rye is 0d to 45s 0d per 480lbs, delivered in burg. At Danzig some little speculative and was heard. In Hungary the weather amand was neard. In Hungary the weather ras fine, and harvest operations were progress-ing satisfactorily, and good crops are expected. It Vienna, notwithstanding very fine weather or harvesting operations, the market was very trong in consequence of very reduced stocks, and prices had sensibly risen for wheat and rye, th for export and for home consumption tz advices state that the weather in Roy he was very favourable for the ingathering he crops, and that cutting had already com-aced. There had scarcely been any business ng in any article; wheat was cheaper ssian advices seem uncertain. Shipments m Cronstadt in the week ending on the 17th were only 6,012 quarters of wheat, all for the tinent, and 103,873 quarters of dats. Advices menent, and us, or y quarters of oats. Advices om the Black Sea ports say that at Nicolaieff, the 16th ult., the exporting business was most at a standstill, and only one steamer load-g. Weather continued very hot. Crops were eity favourably spoken of in some parts of the unity. It was said that the beetles will destroy a scrops accurate percents were still feit nity. It was said that the beetles will desiroy props, nevertheless, prospects were still fair, the South, people expected to begin with resting in about a week. It must be oberved, ever, that other reports from this quarter is a decidedly unfavourable manner of condition of the crops. On this side markets been fairly steady, and in the latter part of week a good enquiry prevailed at New . Since then, however, if has been rather , and the change in prices during the week been small. The movement at the West has fairly active, but as a rule farmers in Ohio Indiana are not free sellers at the prices now wit. From the Northwest the crop reports it remaining in the States from the crop of on July 1, 1850, was less than on July 1, 1879, the crop of 1878. The visible supply of , comprising the stocks in granary at the ip of points of accumulation at lake and sea-t ports, and the rail shipments from west-ke and hiver ports are as follows :abundant, and selling somewhat better at \$2.75 to \$3.50. SHERP-Anaotivedemand has been maintained, both for the local market and for shipment; all offering have been wanted and taken at steady but unchanged prices. Really first-class sheep, weighing not under 140 Be, would be still taken for export at \$4.50 per cental, and have been worth \$5 to \$7 each. Second-class, dressing from 55 to 67 Ibs. have been steady at from \$4.50 to \$5.25 each, but inferior sometimessell down to \$4. LAMB-Receipts have increased somewhat, but all offering have been wanted and have found ready buyers at firm prices. Ploked, dressing not under 40 Ibs., have continued to bring \$5.05 to \$3.75 and droves dressing from 32 to 37. Ibs., have been worth \$3.00 to \$3.77. Second-class have been unchanged at from \$2.57 to \$2.75 for droves. CALVE-Have since from 100 to 125 lbs. 1880. 1880. 1879. 1878. July 24, July 17, July 28, July 27,

dulet, but spiring extra would have found a sale at \$5.25 to \$5.30. BRAN-Scarce and wanted at an advance, with \$0. and \$9.50 bid for car lots. OATHERI-The only movement reported is the sale of a car of inferior at equal to \$4, but good brands remain worth \$4.10 to \$4.20. Small lots unchanged at \$4.20 to \$4.75. WHEAT-There has been an active demand maintained for spring, which has been very scarce, but fall neglected. The only movement reported in fall is the sale of one car of No. 2 at \$1.10 on track on Saintday, and of another of very choice quality at \$1.13 f.o.c. on Tuesday. Spring has been very firm, with sales of car lots at \$1.18 for No. 2 and \$1.22 for No. 1 f.o.c. The market to-day was quiet; new red winter was offered at \$1.65 without bids, and old spring by sample at \$1.18 with \$1.17 bid. On street new fall has sold at \$1.05 to \$1.65, and old spring by sample at \$1.18 with \$1.17 bid. On street new fall has old at \$1.05 to \$1.65.

All has sold at 31.65 to 31.66, and old Fife brought \$1.15 to-day. Ars.-Some complaints have been heard as to the quality of offerings, and some unsettlement of prices in consequence. Sales have been made from stocks in store at 38c. f.o.c., and a car on track sold at 38c. on Tuesday, but another cent would have been paid for inspected No. 1. No movement to-day, but values steady. Barker,-None offering as yet and prices nominal. It is expected by good authorities that the yield will be 30 per cent. larger than that of last year; that very much of it will be of light weight and discoloured, but the rest of excellent quality. Pras.-Remain purely nominal in the absence of offerings.

TAS.- remain purely nonlinear in the absence of offerings. RYE.-New has sold on the street at 58c., and 60c has been bid for car-lots, but none have been offered as yet. Hay-Pressed has remained nominal : but the market has been well supplied with new, which has sold much as before from \$7.50 to \$3.50 per ton. STRAW-Offerings have been fully sufficient, but prices fairly steady at \$6 to \$6.50 for oat and rye straw in sheaves. Properties marry steady at \$6 to \$6.50 for cat and rye straw in sheaves. Poraroos-Nothing doing in carlots, prices of which are nominal; street receipts large and prices again lower at 90c to \$1 ptr barrel. Apples-Hare been offered freely and sold lower, the usual range being from \$1.25 to \$1.75 per barrel.

TRADE-Has been active at firm prices. BUTTER-Harvest operations have checked re-denand has been heard; all offering and a good deal more too could have femind a sale at firm price. Selections have sold at 15¢, and the same price would have been paid to-day; unbroken outs are worth 12% to 14¢, but scarcely anything has been done in them. Culls are casier at 10 to 11¢, with sales small. Street receipts have been small, but increasing the last day or two; pound rolls closing at 18 to 21¢, and tube and crocks at 16 to 18¢. English mail advices report advancing prices, but cable reports this week speak of a re-action.

prices, but cable reports this week speak of a re-action. CHEESE—There is scarcely anything doing in the local market, and dealers generally want 10; to 11c. At Ingersoll yesterias 1,685 boxes sold at 10; to 106c, and a car for shipment within three weeks at 10c. English quotations have recovered two shillings. Ease—Receipts large and sufficient and prices easy, but unchanged at 10c for round lots of good quantity. Street receipts sufficient and prices easy at 12 to 13c. PORK—Inactive and rather easier, with cars offering at \$16, and small lots selling at \$17. Maxow—Active and steady ; cars of Cumber-land have sold at 7c, but some too-lots have sold at the same figure, though 7tc is more generally asked; small lots bring up to 7tc; long-clear steady and scarce, selling at 5to 56 for tons and under ; shoulders rither easy at 66 for green. Canvaseed and pickled bellies 10 to 11c. — Kass—An active demand for small lots has continued in force, but no sales of round lots are preported. Prices are unchanged; smolred have been selling at 11 to 114c, and canvassed at 114 to 15c; packed are still held at 10fc, but no sales re-ported. LARD—Scarce and firmer ; tinnets and nais Aug. 4.—There is no change in the quotations of flour to-day, and but trifling sales on a quiet market. Receipts have also been light, but a change is continually expected, whether for higher or lower prices is uncertain. Aug. 4.—Markets rather more active and a fair demand for all arrivals; a few hundred of superiors were offered on the market to-day and quickly taken up at \$6.40 to \$6.45, three months, which would be paid for more. Oatmeal and cornr al unchanged.

ported. LARD-Scarce and firmer; tinnets and pails range from 10c for round iots of tinnets to 11c for small lots of pails; tierces steady at 94c. Hoca-Very few offering, and these few usually selling at 56.50 to 37 on the street. SALT-Liverpool is now in fair supply and selling well at 78c for jots not under 100 bags, and 80 to 85c for smaller lots. Dairy unchanged at \$1.40 to \$1.50. TRADE.-There has been a fair local business doing. BERVES.-Offerings have been considerable during the week, but a fairly good demand has prevalled for them, both for the local market and for Montreal, at firm prices. There has been scarcely any business done in export cattle, as there have been only a few stray steers to be had; these still bring \$4.76 to \$5.00, but offerings are so small that prices may be regarded as nominal. Second-class, or builders' cattle, con-sisting of light steers, and heifers, and ozen, and heavy cows, have been in fair supply, but the demand for the castern markets has kept up prices, and led to all being taken at an advance; the usual run has been from \$4.00 to \$4.25, and occasionally a very choice steer might have brought \$4.50. Third-class have been rather less bundant, and selling somewhat better at \$2.75 to \$3.50. DETROIT.

is growing quite common of late among a certain class of Medicine Dealers, and which is this: When asked for a bottle of PAIN-KILLER, they suddenly discover that they are "sold but," "but have another article just as good, if not better," which they will supply at the same price. The object of this deception is transparent. These substitutes are made up to sell on the great reputation of the PAIN-KILLER; and being compounded of the vilest and cheapest drugs, are bought by the dealer at about half what he pays for the genuine PAIN-KILLER, which enables him therefore to realize a few cents more profit per bottle upon the imitation article than he can on the genuine.

BEWARE OF SUBSTITUTES.

FOR CHOLERA, CHOLERA MORBUS.

As well as all Summer Complaints of a similar nature, the Pain-Killer acts with WONDERFUL RAPIDITY and NEVER FAILS when taken at the commencement of an attack, and often cures after every other remedy has failed. If you reside in a country place far from a physician, the Pain-Killer can be relied upon; it never fails.

FOR SUDDEN COLDS, SORE THROAT, &c.

The proverb "A stitch in time saves nine," is never so well illustrated as in the treatment of these complaints. A teaspoonful of Pain-Killer taken at the beginning of an attack will prove a certain cure and save much suffering.

TOOTHACHE, BURNS, SCALDS, CUTS, BRUISES, &c.

The Pain-Killer will be found a willing physician, ready and able to relieve your suffering without delay, and at a very insignificant cost. GOOD FOR MAN AND BEAST.

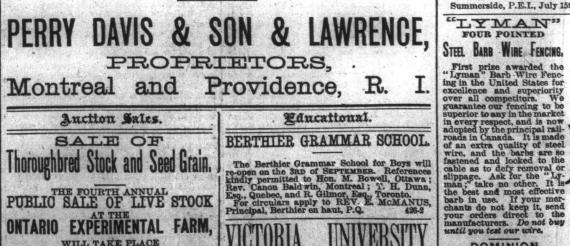

For Colic, Cramps and Dysentery in horses, the Pain-Killer has no equal. and it never has been known to fail to effect a cure in a single instance It is used in some of the largest livery stables and horse infirmaries in the world. To resuscitate young lambs or other stock chilled and dying from cold, a little Pain-Killer mixed with milk will restore them to health very quickly.

The Pain-Killer is for sale by Druggists, Apothecaries, Grocers and Medicine Dealers throughout the world.

WILL TAKE PLACE
