In The Hills Above Ice River

The man is not carrying his name on a stump. By looking closely one will identify the class on the downbeat fight between as those of a good sized black bear. So the human operator is removing a handsome black coat from a sleek, fat full brain that had ventured in innocent ignorance out on the open in search of mice and such interesting changes from a diet of berries. He did not know that men with guns were creeping up the slope toward him because the wind was sweeping down from the peaks above and the only scent it took to his keen nostrils was that of the fresh, sweet snow that were already whitening the peaks above the river, north of the C. P. R. transcontinental line.

So the bear waddled along with an investigating nose close to the sticks and stones he turned over with his great paws. He paused at a rotting log that had fallen before some great fire which had swept the hillside in the decades past, and he turned it over with an ease that spoke of mighty strength claws and big muscles; he found some grub and he licked them up; he started to investigate a bundle of weeds and dried grasses that looked as if it might contain some tender young mice. A hundred yards away, down the slope, a man's weak ankle that had been strained in days gone by a glazing twist, turned on a

Head Of The I. W. W. Arrested

Pittsburgh, Pa., June 3—Robert Johnson, president of the I. W. W. organization here, and internationally known as a radical agitator, was arrested after a fight with detectives and agents of the Department of Justice, in a down town office building this noon. Johnson opened fire on the detectives with a revolver, when they opened the door of the I. W. W. headquarters on the third floor of the building with a key taken from a suspect arrested in connection with the bomb explosions here last night. Several bullets passed through the clothes of the detectives, but no one was injured. Johnson was overpowered and taken to police headquarters. A quantity of anarchist literature was found in his office.

THE CLOCK OF TRADE.

The clock of trade is fast running down. Yet we have henceforth to meet interest charges of \$100,000,000 a year on war debts before we can even get back to the attitude of "as-you-were" before the war. Not merely the high cost of living but each man's plain bread and butter hang on our doing more nationally than we did in 1914. All can help by passing the word along.

Today, when the wide world "thinks in millions," Canada must not be behindhand. The war-brought problems we now face, will demand the best and soberest thoughts of all the peo-

Had Piles For Ten Years

And Tried Nearly Everything Except a Surgical Operation Without Obtaining Relief — Tells How Complete Cure Was Effected.

There are reported here three cures of chronic cases of piles. In all three cases many treatments were tried before it was discovered that Dr. Chase's Ointment is about the only real cure for this distressing ailment.

Mr. Oates, 32 Gilkinson street, Brantford, Ont., writes: "I have used Dr. Chase's Ointment as a household remedy for ever so long, and am particularly indebted to it for a cure from Piles. I had suffered from this annoying trouble for ten years, and tried nearly everything I heard of. After using Dr. Chase's Ointment a short while I was completely cured."

Mrs. Wm. Shaatz, 153 Albert street, Stobener, Ont., writes: "For several years I was troubled with bleeding Piles. I tried different remedies for relief without success. I read in Dr. Chase's Almanac of the benefits other people were receiving from Dr. Chase's Ointment, so I sent to your office for a sample box. I found it gave me such relief that I went to a drug store and purchased a full-sized box. I have used several boxes since, and have derived more benefit from its use than any remedy I have ever used."

Mrs. P. Cassons, Victoria street, Ingersoll, Ont., writes: "About two years and a half ago I was suffering from Piles. I had tried many different remedies for this distressing trouble, but nothing helped me. Finally I got a box of Dr. Chase's Ointment, and after using it I found that I was completely cured and have not been bothered in this way since. I can cheerfully recommend Dr. Chase's Ointment to anyone suffering as I did."

Dr. Chase's Ointment, 50 cents a box, at all drug stores. Edmondson, Bates & Co., Limited, Toronto. There are no rivals to Dr. Chase's Ointment as a treatment for Piles.

ple for perhaps years to come. No magic or luck will avail the Dominion in face of the keener, sterner war for the "survival of the fittest" which is already being waged through international trade.

Nothing but a fearless, unrelenting grasp of facts, however hard and cold, can aid us now. It is only by a study of trade figures and a clear interpretation of their message that we can forestall the trend of things and dispose our national forces to prevent disaster.

The tendency in Canadian trade, with its cheer against us, being in our favor during the four years of war, (so liable to misunderstanding can be easily comprehended in a perusal and a few minutes' comparison of the tables below.

It will be seen that our imports between 1914 and 1918 increased by over one-third, but that our exports were multiplied almost four times. Still more remarkable is the "balance of trade," as the difference between imports and exports of a country is technically termed. In 1914 our balance was adverse (i. e. we bought more than we sold) by 314 million dollars. But in 1918, owing to the war orders received, we had a favorable balance (i. e. we sold more than we bought) of some \$77 million dollars.

The figures for 1919 show how the trend of these figures is plainly reminding us that the sands of our wartime prosperity are rapidly running out. It is already almost at the point where the balance of trade ceases to be favorable.

State of Ohio, City of Toledo, Edward J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State of Ohio, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.

TORONTO'S STRIKE ABOUT OVER

Toronto, June 4—Toronto's sympathetic strike is practically over. With startling suddenness Tuesday afternoon came the declaration from the Metal Trades Council, asking all these strikers who had gone out in sympathy with them to return to work.

The metal trades here have decided to continue their fight alone, because, they say, they do not want to jeopardize the interests of other labor organizations.

This leaves from five thousand to seven thousand metal workers on strike, presuming that the other trades will go back to work. There is some doubt as to the action of the striking carpenters, who have a fight of their own on, in connection with wages and hours.

SUMMER WEATHER.

Real summer weather prevailed during the last week, and much improvement is noticed in the gardens.

Austria will Accept Peace Terms

New York, June 4—The Associated Press tonight issues the following: Like the German government, the Austrian government is said to be dissatisfied with the peace terms of the Allied and Associated Powers which are declared by one of the responsible newspapers of Vienna to be unacceptable.

Unlike the German populace at large, however, the Austrian people apparently are apathetic, having expected no easy terms, and are willing, even anxious to accept the conditions laid down and thus bring peace to the sorely stricken former empire which is rendered by the treaty virtually an inland state of small territorial proportions. Nevertheless, the general opinion among the Austrians seem to be that the terms are based on might, and not on President Wilson's fourteen points.

In Paris the Council of Four continues to discuss points brought out by the German counter-proposals to the German peace treaty, especially as concerns territorial questions and reparations. Experts on both these questions have been called before the council for conferences, and the belief apparently prevails in unofficial quarters in Paris, that some modifications may be expected in the original terms of the treaty, particularly as regards the Sarre Basin and Silesia.

Discussion of the protest of Germany that, being left without merchant ships, she is rendered impotent to resume her trade and thereby unable to aid in paying the incumbrances asked, also has been taken up by the council.

The expectation is that the council will hold reports of the urgent necessity to render a quick decision on the matters in controversy owing to the situation in Germany. One report has it that Herr Haske, the German minister of defence has inspected the coast defences and ordered the garrisons to be ready for emergencies.

An appeal to the American people has been made by magistrates of two hundred municipalities, representing virtually half of the population of Germany. It demands "a peace of justice" under President Wilson's fourteen points and protests against the continuation of the blockade against Germany.

Apparently the Rhenish republic, under Dr. Dorten, has been firmly established at Wiesbaden with aid of French officers. A Berlin despatch says that, although Dorten and his administrators were coldly received by the populace, they were not molested owing to the presence of the officers, who ordered that Dorten's instructions should be obeyed.

Bolshevik activities are to the effect that the autonomy of Mongolia has been proclaimed by a congress convened by General Semenov, the Cossack leader, and that Semenov was made "Grand Duke of Mongolia."

The Bolsheviks are reported to have started a successful counter-offensive against the Esthonians and other troops advancing on Petrograd.
