'Want Fair Treatment.'

We direct the attention of our readers to a letter which appears in our issue to-day, signed Workman, and emanating from Grand Falls. The writer points out that the Hon. Sir Robert Bond presented a petition to the House of Assembly at the last session of the Legislature, from the people of Grand Falls, asking for the erection of a public building, suitable for Post, Telegraph, Customs and Savings Bank work. The unsuitable character of the building used at present, is evident to any person who has seen it, and it presents an appearance which contrasts most unfavorably with the other buildings of the new town. In fact, it is an eyesore, utterly unworthy of the town itself, and a standing disgrace to the Government which keeps it in use as the Government building of the town. We have grown accustomed to the utilization of Grand Falls as an advertising asset of the Colony. Indeed, it is used almost as extensively abroad as the "energy" of the Premier is used at home. It would almost appear that the members of the Tory party had convinced themselves that they were the persons who had induced the Harmsworths to start their enterprise here, despite the fact that the Tory party as a party assailed everything and everybody connected with the Harmsworth contract in most unmeasured terms. Today, however, the Grand Falls enterprise is used by them as their stock advertisement of the resources of the country. Now, what has the Tory

Government done for Grand Falls since it came into power. We hear frequent boasts of the immense revenue derived from Grand Falls. But what has the Government done? The roads were built by the Labour, so we may re-iterate: What has the Tory Government done? It has left the temporary shack built at the time the residential part of the town was "Shack-town." Shack-town has disappeared, but the Shack Government building still remains. Well might the inhabitants last spring petition for its removal and for the erection of a building commensurate with the revenue of the town, in keeping with the other buildings of the town, and worthy of its utilization as part and parcel of the advertisement which the Government make of Grand Falls as the model pulp and paper town of the world. As the letter under reference indicates the people are growing impatient at the delay of the Premier in keeping his promise to erect a suitable public building, and as one who cannot possess "his soul in patience," and who declines to "wait and see" in silence, Workman asks in his impatience: "Was Sir Edward fooling us, or has he forgotten his promise?"

General Railway Strike.

Leaders Claim That 200,000 Men are Out—Daily Telegraph Says It is Perilously Like Civil War.

Special Evening Telegram. LONDON, To-Day. Thomas, the Secretary of the Western District Amalgamated Society of Railway Servants, stated that there would be no truce between the unions and the railway servants, despite the efforts of Lloyd George, and that the strike would go on. The Society had sent out 1,500 telegrams to various railway centres, ordering an immediate strike. Officers and men on furlough have been recalled to their regiments by telegraph. Artillery men have been taken from gun drill and are devoting attention to rifles with a view to strike possibilities. Parts of London are being made ready for encampments. It is probable that bluejackets will be drafted to equip the electric power stations at Liverpool. They will also be required to protect ships in the harbors upon which there have been small fires, supposed to be incendiary in origin. The authorities regard the action of the strikers in calling out men from the power house of Liverpool as one of the gravest features of the day. All the horses of

the army have had their shoes sharpened in preparation for service in the streets. Special to Evening Telegram. LONDON, This Afternoon. The morning papers denounce the strike leaders for dismissing the Government's offer of a Royal Commission without consideration. The Daily Telegraph says it would appear not to be a strike but something perilously like Civil War. The Dublin employees of the Irish roads called a strike this morning. At Glasgow eighteen hundred railway men struck this morning. At Leeds five thousand men struck this morning. At Liverpool the cruiser Antrim landed part of her marines, who were sent to the docks and the electric power stations. The city is comparatively quiet. At Sheffield there is considerable rioting. At noon, the strike ordered showed only a partial success. Some railway lines are operating very few trains. Other roads are practically normal. The strikers say they are satisfied with the response to the order and claim 200,000 men have quit work.

No Shipments of Perishables.

Special to The Evening Telegram. BOSTON, To-Day. The shipment of perishable goods from Boston will be seriously affected by the labour troubles in England, for the Cunard steamer Franconia, scheduled to leave this port on Tuesday, will not load any cargo until orders are received from the head office in Liverpool. Other lines in this port will not take perishable cargoes from the other side will be seriously interfered with.

Moroccan Situation Looking Ugly.

Special to Evening Telegram. LONDON, To-Day. Interest was revived in the German occupation of Agadir in Morocco, from which position Germany refuses to budge, when the announcement was received from Gibraltar, that the British Mediterranean cruiser fleet had sailed to Fezuan in Morocco, and that the French warships Sans, Guenet, Surprise and Corbin had also sailed for Casa Blanc. Germany has three warships at Agadir. With the warships of Britain and France assembled at other Moroccan ports, the Moroccan situation has an ugly appearance.

Ex-Shah Assassinated.

Special to Evening Telegram. TEHRAN, To-Day. It is reported here that Mohammed Ali Mirza, the former Shah of Persia, who recently returned from exile in Russia, and started an uprising in an endeavour to regain the throne, has been assassinated.

OBITUARY.

Mr. John Ryan of St. Joseph's. There passed peacefully away at St. Joseph's, on Aug. 18th, an old and well-respected resident in the person of John Ryan. The deceased who was 84 years old, possessed a sympathetic disposition and cheerfulness. By these characteristics he formed a circle of friends not only here in his own place, but in many of the little settlements around, and he was always held by these friends as an honest, truthful and hard-working man, and good neighbour. When it became known that the last hour was drawing nigh the Rev. Fr. O'Flaherty, our beloved priest, who is ever willing to respond to the call of the sick, was sent for and administered to him the last rites of the Catholic Faith, of which he was a firm upholder. Mr. Ryan leaves to mourn him a wife, 2 daughters and 7 sons, all of whom were by his bedside at the time of his death. The funeral took place on Sunday, 13th inst., and was attended by a large number of people, including 46 grandchildren.—Com.

Messrs. Cowan and the Misses Cowan, of Brazil's Square, went to Manuels to-day where they will spend three weeks vacation.

Police Court News.

A 14-year-old lad of Cuddhy St. was unable to find sureties and was sent down for six months. A 15-year-old lad pleaded guilty to stealing fire crackers from S. E. Garland's store—four packages. He was unable to find sureties and was sent down for six months. A labourer broke a pane of glass in his relatives house was discharged. A 30-year-old labourer of Wickford Street was forgiven by his wife and let off to take the pledge. A 59-year-old labourer of Duckworth Street, drunk, discharged. His wife would not prosecute him.

Here and There.

SIDNEY CURLERS.—The curlers of Sydney promise to come to St. John's next winter to wipe out the local team.

PASSENGERS FROM THE COVE.

Two hacks came from Portugal Cove this morning bringing from four to five passengers each, chiefly tourists from the Stepano, who had been over to see Bell Island. The captain of the Cove are reaping a rich harvest this summer.

CHIMNEY FIRE.

An alarm from the box on the far end of Monkstown Road called the Central and Eastern firemen to a house on Fleming Street this forenoon. It was only a chimney fire and a few buckets of water sufficed to put out the burning soot.

Three school boys in a boat were caught in the wind and driven out towards the Narrows this morning in spite of their best efforts to row against the wind. Capt. Whelan in the tug Daisy mercifully went out to their rescue and towed them safely to land.

DIED.

J. Furlong, the mate of the Grace, now at Black Tickle, Labrador, loading fish for Goodridge & Son, fell in the hold of the vessel last week and broke his leg. Yesterday by the S. S. Solway the firm sent down three men for the Grace, as the boatswain is also unwell, and she left here short of one man. Capt. Fitzgerald on taking a load of Labrador fish there will sail for market.
