### A Mother's Sad Death.

Toronto, Nov. 29.—Mrs. George Burnes, of No. 9 Hook Avenue, dropped dead at the Western Hospital last night just as she reached the bedside of her son, a young man, not yet 27 years old, who had both legs cut off by an engine in West Toronto over a month ago. Ever since his mother has been almost a daily visitor to his bedside. Last night she came in as usual. While but a few feet from the bedside she greeted her son, but immediately after swayed unsteadily on her feet. When picked up she was found to be dead. Death was due to heart trouble.

### Lincoln Monument.

Dedicated in Kentucky, calls forth Tribute by President Taft.  
Frankfort, Ky., Nov. 9.—A new light was thrown on the outstanding character-figure of Abraham Lincoln

yesterday, when President Taft, who came here to witness the dedication of a monument to the "Emancipator," said, "I do not think it is too much to say that Lincoln had the most judicial temperament of any man in history."  
Mr. Taft paid his tribute with that of Kentucky's mark of reverence for her greatest son in the new state capitol, when a monument to the war president, given by the descendants of a long line of Kentucky pioneers, was dedicated.

Minard's Liniment Co., Limited.  
Gentlemen.—Last winter I received great benefit from the use of MINARD'S LINIMENT in a severe attack of Lumbago, and I have frequently proved it to be very effective in cases of Inflammation.  
Yours,  
W. A. HUTCHINSON.

### Horribly Tortured.

Italians Found Crucified and With Their Eyes Gouged Out.  
Rome, Nov. 30.—A party of officers, surgeons and reporters, who have been reaching the places in Tripoli retaken by the Italians on November 28, found many bodies of Italians, victims of the fighting of October 23, the day before the Italian massacre of Arabs.  
Some of the victims had been crucified and their eyelids stitched so that they could not close them. Some had been buried to their armpits, their hands lopped off and their eyes gouged out.

The Kohler and Tonk Pianos are celebrated for their pure tone and lasting qualities. Selected by us as specially adapted for our humid climate—very little tuning required.

### Leave Room.

"Leave room for George!" These words, spoken in the hearing of anyone who moves in Court circles, are bound to raise a smile. King George and Queen Mary are no exception to the rule, and the jokelet is sure to be ventilated many a time on board the Medina during her voyage to India.  
It happened in this way. A little girl, the grand-daughter of a high Court official, was always pretending to be someone else, after the manner of imaginative children. One evening in the Highlands recently her nurse said to her, "Come to bed, Miss Eva."  
"I am not Miss Eva," she said, "I am the Queen."  
"Then will your majesty condescend to come to your bed?" replied the nurse.  
The child rose with slow dignity, and presently chambered into bed. The nurse proceeded to tuck her in, when she said with mock solemnity, "Be careful! Leave room for George!"

### Council Meeting

Mayor and full Board present at last night's meeting.  
A letter received from the Colonial Secretary was to the effect that the Government had taken into consideration the disputed question of the building lot on Duckworth Street, west of Dryer's block.  
A letter was received from Government Engineer Hall re the laying of pipes on Quill Vidi Road. He advised that as the City Council refused to adopt his plan that the Government lay the pipes in their own premises.

Albert Salter, for the Nfld. Canning Association, asked for a better water supply at the Rink. The Secretary will write him saying that he can get a half inch pipe, and that if a larger is required he will have to pay higher rates.  
R. R. Wood's application for a remittance of taxes on his house which is part of the College and should be covered by the taxes paid on the College. He believed that educational institutions did not pay rates. An enquiry will be made.

The request of the Imperial Tobacco Co. to lay a water pipe from their factory to the main pipe on Bond St. in order to have a good supply of water in the event of a fire breaking out, was granted provided the Company do the work at their own expense.  
Steer Brothers wrote to say that they would claim damages of the Council if the old schooner Poppy, moored near their wharf, should do any injury to their premises. The Secretary informed the Council that he had written Mr. English, Harbor Master, who replied that the schooner belonged to Mr. E. W. Roberts, and as the Council had undertaken to attend to the coves they should communicate with Mr. Roberts. Advice of N. Bradbury, one of the sweeping staff, who has been ill for some time will be put on the pension list. Jas. Ready who has applied for the vacancy will have his application considered by the Sanitary Committee.

Mr. Clapp, owner of the shed on vacant land, will be written to about its removal. Mr. Ryan, plumber, who keeps his stock there sent in a note to the Council asking that he be not turned out of it till the spring as he would suffer much inconvenience. Councillor Mullaly said that they should deal with Mr. Clapp and not with his tenant. He will be written to to have the shed taken down by May 1st, 1912.

Mrs. Rose will be allowed to erect house on Flower Hill.  
Solicitor reported that Council were not liable to J. Power, Nagle's Hill, for damages caused to his horse by falling into a hole at Cathedral Street, neither should they pay damages to J. Rideout whose horse fell through the ground at Bates' Hill.

The Mayor will bring up the proposal of paving Duckworth and New Gower Streets. He intends to visit Halifax soon and will get all the information that he can on street paving. The street car track from Holloway Street to the East End Fire Hall will, he thinks, have to be taken up and graded anew before the work can be undertaken. Mayor Ellis spoke about the opening of the contemplated road from Carter's Hill to Barter's Hill. The Premier had promised that the Government would assist in the work. Engineer will be asked to report the cost.

Councillor Mullaly deferred his motion on "Bill Posting on city walls" till next meeting. He asked that statement of the amount of taxes collected the past year through lawyers be handed in.

Engineer will be asked to report on the complaint made by Mr. Whitten, South Side, through Councillor Ryan, viz., that a fence erected there lately has so narrowed a lane that in case of fire there would be great damage to the property.

The motion of Councillor Myrick to have the way of Park main increased to \$9 in winter months; the Finance Committee will see to it.

Councillor Mullaly spoke about the throwing of sand and salt in Harvey & Co.'s cove making it hard on horses. An enquiry will be made.

The Engineer's report was read. After passing the pay rolls, etc., the meeting adjourned.

### Largest Herring Trade

This year will be a record in Bonne Bay as far as the herring fishery is concerned. There is also good fishing at Bay of Islands and the fishermen are doing good work. They have been getting \$1.50 per barrel. From Bonne Bay about 20 salt of vessels have come to Gloucester, with cargoes. A fleet of vessels are also now on their way from Gloucester and Bonport for cargoes.
