No Selling Out.

It was no surprise to find the editor of the Evening Chronicle confused, mixed and muddled in his attacks on us yesterday. It is ever so with him. That he should contradict himself excites no surprise. On the contrary, it would be surprising if he was logical.

In one article he charges us with making preparations to "sell out" Sir Robert Bond, and in the other he charges us with refusal to publish a letter because it is inimical to Sir Robert Bond.

The charges are mutually destructive, and could only be made by a mind which lacked the perception of the bearing of one charge on another, or was careless, indifferent and reckless in the indicting of others.

So far as Sir Robert Bond and those who are intimately associated with us and our doings, and indeed so far as the supporters of the Liberal Party generally, are concerned, it is needless for us to deny the charge of plotting against the Liberal Leader. They know the charge is absolutely untrue, and poles apart from the truth.

We can go further and state that no one knows better than the President of the Fishermen's Protective Union that we are at one with the general body of electors in the country in maintaining that the leadership and statesmanship of Sir Robert Bond are needed at the present time.

The country to-day is tired of the Premiership of Sir Edward Morris. The people fear the course he is pursuing. They are apprehensive of breakers ahead, and they want the man at the helm who weathered the storm of 1895. They want a firm, determined and wise statesman in charge. Has the Hon. P. T. McGrath forgotten what Sir Edward Morris (the Hon. E. P. of those days) said of him? The people have not. As he has evidently forgotten it, we will remind him. This is part of what Sir Edward Morris said then:—

"They had assembled for the purpose of tendering to Mr. Bond the thanks of the people of this country for the able manner in which he had discharged the onerous duties connected with the mission from which he had just returned. When Mr. Bond left here, two months ago, a dark cloud hung over Newfoundland, and few could be found to believe in the ultimate success of his mission; but to-night they knew that that mission had been crowned with success; that by the successful raising of a loan on advantageous terms for the Colony he has removed a dark cloud,

or at least given it a silver lining. He has converted despair into hope, and waited that hope all over the land. In a word, Mr. Bond has cut the Gordian knot of our difficulties, and Newfoundland is once more out of danger."

We would also remind the Hon. P. T. McGrath of another reason why we have the strongest desire to do what in us lies to support Sir Robert Bond as leader of the Liberal Party. He will appreciate it, as we shall give it in his own words.

They occur in a letter which is well known, which was written at a time he was opposing Sir Robert Bond, no very long, however, before he "sold out," to use his own style, to the Liberal Party. Here they are:—

"The Hon. Robert Bond, an able and honest colonial statesman, sufficiently independent in point of wealth to be able to resist the inducements of rich capitalists like Reid, has undertaken to do battle against the northern Goliath, and the young and patriotic elements are rallying to Bond's standard for the battle of the ballots in November next, which will decide the destinies of the island."

History is repeating itself. The young and patriotic elements in public life are joining hands with the middle-aged and old patriotic elements in the land to rally round the old Liberal standard to put back in power Sir Robert Bond, the honest and able statesman, of tried capacity and unflinching integrity, who will "sell out" to anybody, and whom it is our delight to support; and we can tell Mr. McGrath, surcharged as his mind is with sales and purchases, the Evening Telegram is not on the market.

The Government can spend all the money they like in all the districts. The Morris party can do what they like to muzzle the Press, but the people will find the Evening Telegram out in the fight against the Government of Sir Edward Morris and fighting under the old Liberal standard, with Sir Robert Bond leading the fishermen and all who work for a living to a glorious victory next November. The fishermen are determined to oust Morris and put in Bond. Money may talk, but the fishermen's votes will talk louder. What they say and do goes in Newfoundland.

Judgment in Condon vs. Council

At noon to-day in the magistrate's Court Judge Knight handed down the written judgment of Judge Courty in the case of John K. Condon versus the Municipal Council.

The judgment was in favour of the plaintiff for \$145.00, the full amount claimed being \$200. This was an action taken by Condon to recover damages on account of injuries to his property and loss and inconvenience suffered by himself and family. The facts briefly are:—

In October, 1907, the plaintiff had a sewer laid down from his house on Pennywell Road and connecting with the main sewer, the work being under the supervision of a Council official. During the first rain storm following the construction of the sewer the plaintiff's house became flooded. Those floods continued periodically for three years and were caused by a fractured pipe as a result of negligence on the part of Council employees.

In dealing with the question of damages His Honor awarded them as follows:—

Damages to retaining wall and repairs to basement . . . \$75.00
Damages to linoleum, etc . . . 25.00
Cost of plumbing and removing sewer to upper flat . . . 25.00
Loss of use of basement, inconvenience to family, damage to coal, etc . . . 20.00

Total \$145.00
Mr. B. Dunfield was counsel for the Plaintiff; F. J. Morris, K.C., for Defendants, gave notice of appeal.

Newfoundland's Great Premier.

In a few years time ENGINES will be as popular as the God Trap is today, almost every fisherman sees the necessity of Motors. Motor Engines should be the greatest boon to the fisherman instead of a source of trouble, annoyance and worry as some are. Some engines are made to lighten a fisherman's labor and make more pleasant his daily toil, WHILE OTHERS ARE MADE ONLY TO SELL ON PRICE. In Nfld. there are many engines advertised, all claiming to be the best, and it is becoming difficult for a fisherman to decide which to buy. It should be borne in mind by purchasers that the FAIRBANKS claim more claim for their engine being better than any other engine advertised on the market. It is the biggest engine, swings a larger propeller, horse power for horse power than any other engine on the market. Look at the FAIRBANKS? The fact that there are more FAIRBANKS ENGINES in the Maritime Provinces than all other engines put together, added to which there are over 100,000 in satisfactory use is the best proof of the superiority of the FAIRBANKS over all others. FAIRBANKS have been sold in many places in this Island this fall and next year users of other makes will be wishing that they had purchased a FAIRBANKS. It is made by one of the biggest concerns on this side of the Atlantic whose reputation is QUALITY and their engines are MADE UP TO A STANDARD AND NOT DOWN TO A PRICE. It will develop more power than any other Engine of the same Horse Power. This superior engine is for sale on the EASY PAYMENT SYSTEM so if you have not got the ready cash to buy an engine you can get one on very easy terms. So write to-day for Particulars.

TUESDAY, Dec. 3, 1912.
A lady friend of ours always buys something for herself as a Christmas present, and no doubt many others in addition to those gifts they purchase for their friends, "treat themselves" as they say. As a present for a friend of the same sex, or for oneself, we would say that we have just here and now, and exceptionally handsome line of real Ebony back Hair Brushes. This is a sample lot, and gives remarkably good value for a given price. All of us who have examined them unite in believing that never before perhaps have we been able to offer so much in hair brushes for the money. Prices range from \$1 to \$5 each.
We have also a limited number of Ebony nail brushes, also of a fine type, at prices from 50c. to \$1.50 which we can thoroughly recommend. Come and see them, we are never too busy to do business.

Men's Winter OVERCOATS!

It is difficult to determine what is the most important point when purchasing a Winter Overcoat.

If the quality is bad, it soon looks shabby. If the fit is bad, you feel shabby. If the finish and trimmings are bad, you look shabby.

To avoid such an annoying state of affairs,

Purchase one of our New Overcoats, at \$6.50, \$8.00 or \$13.50,

with long roll collars, double-breasted, belt, with storm cuffs if desired; specially smart and warm.

A full range just received of

Suffragettes of the milder sort, who have the chance and who have no ambition to be militant and participate in public demonstrations, to-day began a thorough try out of the "absent treatment" to obtain votes for women. The potency of concentrated thought is to be given a test by the women's silent cooperation for freedom instead of smashing Bond Street windows, setting fire to cabinet ministers' homes, committing vandalism in mail boxes. Silent cooperation will seek to move the British Government by merely thinking, 50 members pledged themselves to concentrate their thoughts for 10 minutes each day at noon to obtain the ballot.

It is thought the steamer sighted on Sunday morning by the Mexicana may be the Beatrice, which left Wabana on Thursday night with iron ore. The ship should have been made in about two days and a half, but the Beatrice is not here yet and there is anxiety in regard to her. The Beatrice is smaller than the Morien and carried a crew of ten men. [This is hardly possible as the Beatrice put in here on Friday and left again on Saturday afternoon.—Ed.]
