MINARD'S LINIMENT CURES DAN- DRUFF, J. J. J. J.

My Corn Said "This Shoe" -but Fashion Said "This One"

Touchy Corns and New Shoes

The comfort of old shoes may now be had with new shoes. Blue-jay makes it possible. No need to wince from new shoes nor frown. No need to undergo a period of pain.

Before getting a new pair of shoes be corn-free by using Blue-jay, gentle and certain. Then, should a new corn come later, Blue-jay will bring instant relief.

Most families have a package of Blue-jay Plasters at home, always ready. Relief is always handy, and instant.

Paring never cures. Harsh liquids are harmful. Blue-jay removes the corns permanently, roots and all. The first application removes 91 per cent. More stubborn cases require a second or third treatment.

Wear new shoes—any shoes—with complete comfort. Forget your feet. Blue-jay points the way. Know tonight.

BAUER & BLACK Limited Toronto, Canada. Makers of Surgical Dressings, etc. Blue-jay Stops Pain—Ends Corns Instantly—Quickly. Druggists Also Blue-jay Plasters

Newfoundland's Scotch-Cured Herring.

In spite of the increasing demand for Newfoundland Scotch-cured herring and the practical certainty that there will be no further supplies of foreign herring of any description during the coming season, prices remain at the quotations of a month ago when there was no demand, and even now operators are making concessions to buyers. This condition of affairs may be considered as perhaps the most perplexing in the history of this cure of fish in this market. Other grades have shown substantial advances, some of them within the past few weeks, yet there is practically no change in the Newfoundland herring situation except that there is more business being done. There is considerable speculation in New York as to what the condition will be a month hence, especially if there is positive assurance that no foreign herring will be exported to the United States this year or until the close of the war. The market is without question ready to absorb quantities of this cure during the summer months and it will probably make little difference whether the prices remain at the low level of to-day or no, the normal consumption will not be reduced. And should there be no supply of herring from Maine and Alaska, it will take but a few weeks to absorb all the Newfoundland herring in this market. Indeed, jobbers have looked ahead to this situation and have placed large stocks in cold store to await higher prices and the full demand. The entire supply in all hands in New York is now about 12,000 packages, much of it in second hands. The two largest holders probably have not more than 6,000 packages together, and the remainder is divided amongst perhaps a dozen. New supplies arrived on a steamer from St. John's on Thursday, and it is reported that offerings were made as low as \$14 and \$15 for small fish. This lot, consisting of about 1,000 barrels, was the only shipment of herring for New York factors. The routine business of the week has been largely local, although some large orders have been filled. The prices have been on the basis of \$14 and \$16 for large fulls, according to size and quality; \$12.50 and \$14.50 for selected fulls; \$13 and \$14 for

mediums. There has been little spring pack or carryover goods sold during the past few weeks. Norwegian cure continues to sell at from \$8 to \$10.—Fishing Gazette.

At the Yarmouth Y. M. C. A. Boys' Camp, held at Tuckers Falls in August, I found MINARD'S LINIMENT most beneficial for sun burn, an immediate relief for colic and toothache. ALFRED STOKES, General Sec'y.

Hr. Grace Notes.

Mr. Samuel Davis, of St. John's, was in town on Tuesday to attend the funeral of his brother Mr. Geo. Davis.

The s.s. Sagona left here for Labrador at 1.30 yesterday, taking a large number of passengers.

The motor boat Minora arrived from St. John's on Monday night to Murray and Crawford, and will take seal oil to St. John's.

Mrs. Walter Bray, of the West End, died on Monday after a long illness. Funeral to-morrow Thursday evening.

Messrs. Edmund, Albert and Arthur Rogers, who have been employed at carpentry work at St. John's, for the past two months, having finished their work returned home this week.

At the last meeting of King Edward Brigade two returned soldiers, former members of the Brigade—Messrs. Robt. Telford and Arthur Shute—were promoted to the rank of Lieutenants. Their experience should help the boys and stimulate them to greater efforts.

Potatoes are very scarce in town now, and many people would plant more if they were procurable. There are very few stores here now where potatoes can be procured for present use. —COR.

Hr. Grace, June 13, 1917.

With a delicate child, it often tempts the appetite if the right food is served in different pretty dishes on different days—they give a touch of imagination which often helps along a meal.

A "sameness" that is mo- enjoyable—the daily, un- varying goodness of a cup of "SEAL BRAND" COFFEE. It never fails to greet you with that same exquisite fragrance, amber clearness and delightful flavour, that win people with the first cup.

In 1/2, 1 and 2 pound tins. Whole-ground—pulverized—also fine ground for Percolators. Never sold in bulk. 104 CHASE & SANBORN, MONTREAL.

Flower Day for French Red Cross.

Sir W. H. Horwood presided at a meeting of the Imperial Red Cross Fund Committee held yesterday afternoon at Government House, the following being present:—Lady Davidson, Mrs. G. H. Emerson, Mrs. W. G. Gosling, Mrs. John Harvey, Hon. P. T. McGrath and Mr. F. H. Steer, Hon. Sec. Treasurer.

The total receipts of the Empire Red Cross collection amounted to \$40,000 with more to come in. Tag Day alone accounted for \$3,001.47 a record figure for such an occasion. Already \$25,000 had been cabled to the British Red Cross Fund and it was agreed yesterday that \$3,000 more be at once cabled. The ladies of the Women's Patriotic Association have generously borne all the expenses themselves. A vote of thanks was passed to all of them, especially those who braved the adverse weather on Tag Day in the effort to collect such a handsome sum.

It was agreed that on or about July 14th, which is the Fete Nationale, or the birthday of the French Republic, a Flower Day be held in aid of the French Red Cross. The W.P.A. will also undertake the management of the whole affair, and at night will hold a Band Concert in Bannerman Park. A small entrance fee will be charged, the whole to be given to the same deserving object.

Hymeneal.

DICKIE—MUNN.

The marriage of Miss Gwendoline E. Munn, only daughter of Mr. and Mrs. W. A. Munn, of St. John's Nfld., and Mr. Edward Dickie, of Toronto, was quietly solemnized yesterday afternoon at half-past three o'clock in Stanley Church, the Rev. Mr. Reid being the officiating clergyman. Miss Munn was given away by her father and was attired in white satin with old lace trimming, and wore an embroidered net veil and carried a bouquet of white roses and lilies of the valley. A reception was held at the home of Mrs. W. K. Marshall, Belmont Avenue, following the ceremony, and later Mr. and Mrs. Dickie left on their wedding tour, the bride travelling in a costume of grey Shantung silk and hat to match. Upon their return from their trip they will reside in Toronto until such time as the groom leaves for overseas.—Daily Mail, June 6th.

Rod and Gun.

The June issue of Rod and Gun is out and its contents are such as to appeal to lovers of the out-of-doors. "Learning the Way" by Edward T. Martin is descriptive of the various stages involved in becoming a skilled shooter. "The Record of a Cruise on the Kawartha Lakes" tells of a motor boat outing in this attractive part of Ontario while the "Diary of a Canoe Trip in Algonquin Park" describes a successful fishing trip in the Park. Other stories there are of similar interest and all the regular departments are well maintained. Dog lovers will find a full report of the recent big dog show held in Montreal with a list of all the awards given at the show and accompanying descriptive matter. Rod and Gun in Canada is published at Woodstock, Ont. by W. J. Taylor, Ltd.

And He Meant it.

(From the New York Herald.) . . . During the last two weeks Mr. Ross Donnelly has been in charge of the Liberty Bond booth at the Ritz-Carlton Hotel, and in that time he has formulated, pruned and otherwise perfected a series of arguments which would make Kaiser Wilhelm himself study the investment. Shortly after noon yesterday a placid appearing man of middle age and middle height came from luncheon at the hotel into the foyer with a group of other men. Mr. Donnelly approached them, and in a few moments was off on his "spiral." With the eye of a salesman he singled out the very quiet man, and soon had his attention. When he finished his appeal the quiet man nodded.

"Yes," he said, "you are quite right. I am going to take a million dollars' worth of those bonds—and take them to-day."

Mr. Donnelly gasped weakly, smiled and then gasped again.

"Oh, yes," he said politely, wondering who the humorist was.

When the placid-looking man left the hotel, someone approached Mr. Donnelly and asked mysteriously:

"What did he say to you?"

"Who?" asked Mr. Donnelly.

"Why, Charles M. Schwab," answered the other, and then Mr. Donnelly saw a blinding light—a light confirmed a few hours later by the announcement that Mr. Schwab had bought \$1,000,000 worth of bonds through his banker.

MINARD'S LINIMENT CURES DIPHTHERIA.

Council Meeting.

Mayor Gosling presided at last night's meeting of the City Council. The Colonial Secretary wrote asking co-operation of the Council with the war measures committee in port protection measures.

A. W. Piccott asked permission to erect temporary building for curing fish on the Southside for the Gorton Fish Co. The building having been already erected, may, however, remain.

Monroe & Co. asked for 6 inch water supply for automatic fire extinguisher to be installed in their Southside premises; they to pay cost. The Council will regulate the work.

E. S. Pinsent for the C. E. Cemetery was granted permission to erect fence around the north boundary of the cemetery; subject to Engineer's approval. He also notified the Council that after the 30th inst., the city would have to discontinue using part of the grounds for dumping purposes.

J. A. W. McNelly asked for a special water service to the home of Mary Rawlin, Portugal Cove Road, his client agreeing to pay cost of installation and special yearly fee. The Engineer will report.

R. Skeans, Secretary Plumbers' Union, wanted to know how many years completed apprenticeship at this trade, and if the Council intended to give the Union representation on the City Plumbing Board. The Council are of the opinion that there are enough experts attached to the City Board. The City Board will report on the former as soon as possible. Steer Brothers were given permission to put windows in office building. The Engineer reported the opening of 300 ft. for water main on South Side during the week and 150 feet of pipe laid.

Impounder Duffett asked for a field glass which he considered would be of great assistance to him in carrying out his duty. In the minds of some of the Councilors the suggestion was not favourably received, as they thought the impounder would be wasting too much time scanning the neighboring hills in the vicinity of Battery Road where the domestic goat reigns supreme. One of the Councilors suggested a course of training in an airdrome, and ultimately purchasing a plane for this particular service. The Council will have to continue to trust to his bone-rimmed spectacles.

The meeting adjourned at 10 p.m.

The Gas Range!

The Gas Range means comfort for the housewife; shorter kitchen hours for her, and a cleaner kitchen. It is a great mistake to think that cooking with gas is expensive.

Whenever a woman becomes used to gas for cooking, thoughts of a coal or wood stove fill her with gloom. A Gas range is so much easier to operate, so efficient for all kinds of cooking, and so much cleaner, that the idea of going back to the old style methods is decidedly unpleasant. Yet in winter many housewives think they must use a coal or wood stove, because there is no other way of heating the kitchen. THERE IS ANOTHER WAY AND IT IS FAR BETTER THAN THE OLD. THE CLOW GAS STEAM RADIATOR WAY. may 23, 17

NEW MANAGER FOR N.A.P. CO.—Mr. John F. Meenan, the energetic and popular agent for Red Rose Tea, has been appointed General Manager for the Nld.-American Packing Co., owners of the new fish-packing plant at Bay Bulls. Congratulations.

We call special attention to our line of Ladies' Summer Dresses. THE WEST END BAZAAR, June 14, 21 51 Water St. West.

Developing and Finishing.

And you don't wait!

Your Films and Prints ready on the dot. We don't believe in empty promises, and not only will your work be done promptly, but just as well as up-to-date methods and dark-room efficiency can do it. Let us finish what your kodak begun.
