Smuts Declares Irish Problem Can be Solved.

Liverpool Welcomes Prince of Wales--Britain Suffers Incalculable Loss Through Coal Strike.

IRISH PROBLEM SOLUBLE.
LONDON, July 6.

General Jan Christian Smuts, who has just returned from a visit to Ireland publicly expressed his opinion to-night that the Irish problem is a solvable problem. This statement was greeted with loud applause by the distinguished company which attended a dinner given in honour of the General by the South African Colony in London. The South African Premier opened his speech by declaring that he had not abandoned hope of the United States. She is a shy maiden, and must be wooed too warmly, he said. I want to see the United States pull with us in the great world service that today is being rendered by the British Empire almost alone. Then alluding humorously to his visit to Ireland he declared he found the people divided into two classes, those in jail, and those on the run.

THE PRINCE AT LIVERPOOL.
LIVERPOOL, July 6.
A remarkable feature of the visit of the Prince of Wales to Liverpool to-day was the display in many streets in the Irish quarter of Sinn Fein flags intertwined with Union Jacks. A prominent Sinn Feiner, questioned as to whether any significance was to be at-

tached to this, replied "all I can say is that the order to do this came from Dublin."

THOMAS SUSTAINED.

LONDON, July 6.
The necessity of recognizing the difference between the political and industrial sides to disputes was frankly recognized by J. H. Thomas, leader of the railway men, at the annual conference of their body to-day. He admitted that the railway wage bill now amounted to £187,000,000 sterling against £50,000,000 in 1914. In August the British railways revert to old conditions, and Mr. Thomas acknowledged that it would be impossible for the companies to pay dividends, or even pre-war wages. He therefore declared it to be a vital necessity to pass a bill for grouping working on railways, which would mean an immense saving in working. Mr. Thomas scouted the notion that control of railways had brought about the danger of strike, pointing out that seventeen millions sterling had already come off the wage bill, without provoking the slightest sign of trouble. The conference had acrimonious discussion privately concerning the actions of Mr. Thomas during the last twelve months, particularly his share in calling off the

Fresh Eggs

Are very scarce at present and we would recommend the more frequent use of sliced fried POTATOES with your BACON instead as a substitute.

There is nothing more appetizing and nutritious than a small portion of sliced fried POTATOES nicely browned and served piping hot with your BACON in the morning.

We can supply you with the BACON (our famous "Berkshire" brand) and POTATOES (popular P. E. I.'s) and hope to have your order at our usual "live and let live prices."

Triple Alliance strike. He was severely criticised by extremists but the resolution that he be removed from Supreme headship was defeated.

THE WAR CRIMINAL TRIALS.

LEIPSIG, July.
Lieut. General Karl Stenger, charged by the French Government with having ordered troops under his command to take no prisoners and kill wounded men during the fighting of August 1914, was acquitted to-day by the German Supreme Court here, engaged in the trial of cases against alleged criminals. Major Bruno Crumins tried on a similar charge was given sentence of two years in prison and forbidden to wear German uniform.

SENATE AND NAVAL BILL.

WASHINGTON, July 6.
Refusing to accept the House action in reducing some appropriations in the naval bill the Senate to-day returned the measure to conference. There was no dispute over the Borah Amendment, authorizing and requesting the President to call representatives of Great Britain and Japanese to a naval disarmament conference. The Senate's action to-day finally assured retention of the Borah Order.

KIDNAPPING AT CORK.

CORK, July 6.
Patrick Brady, who witnessed the killing of Canon Magner, Parish Priest of Dunanny in December last by Cadet Harta, was kidnapped to-day by unknown armed men. A magistrate was taken from his residence in Bally Licksey, West Cork.

SILESIAN DISORDERS.

BERLIN, July 6.
Recent disorders in Buethen, Upper Silesia, in which the French Major Montallieres, and four Germans and one girl were killed, are asserted in a special despatch from Oppeln to the Vossische Zeitung here to-day, to have been planned deliberately by Polish insurgents who used French rifles. The despatch declares that the post mortem disclosed that the Major was killed by a rifle bullet, and that the Germans in Buethen possessed revolvers only. The Poles planned to impede the French and British in their endeavour to clear out the insurgents, according to the despatch. Reports from German sources state that the Polish insurgents are resuming their activities in Hindenburg, Biscupitz, Sosnowitz and a number of industrial towns. Communication with Buethen now is cut off, but last reports received were to the effect that the French used bayonets and clubs to clear the streets and establish order.

PEER'S RESIDENCE BURNED.

DUBLIN, July 6.
The residence of Lord Muskerry, Springfield Castle, at Drumcollegher, County Limerick, was burned on Monday night.

THREE STRIKES IN FOUR YEARS.

DAYTON, July 6.
Dayton to-day was held in the grip of its third street car strike in four years. Employees of five of the six city traction companies voted unanimously at three o'clock this morning to strike, effective at once. Employees claim that the companies have violated their agreement by announcing a new maximum wage of forty-five cents an hour without arbitration.

BALFOUR OF BURLIEGH DEAD.

LONDON, July 6.
Lord Balfour of Bureleigh died to-day. Lord Balfour was born in 1849. He was chairman of the Royal Commission on closer trade relations between Canada and the West Indies in 1910, spending considerable time in both these countries.

"White Elephants."

The experiment of the United States in building merchant ships and endeavoring to operate them by the Government has proved so ghastly a failure and has involved the country in such tremendous financial losses, that there seems to be a very widespread opinion among business men that the Government must get rid of the load at any cost. The personnel of the Shipping Board which is in control of the whole operations of the Government Merchant Marine has been completely changed since the inauguration of President Harding, and it is announced in despatches from Washington that it will be the purpose of the new Board, to get the Government out of the shipping business as soon as possible.

That is also the counsel of Mr. Charles M. Schwab the steel magnate, who was formerly Director-General of the Emergency Fleet Corporation. He has declared that it would be good business to write off two-thirds of the cost of the Emergency Fleet, which was \$3,000,000,000, and to sell the ships to private operators. It is also intimated that, as the first step toward getting away with Government operation, the new Board will make sales with the approval of the Administration, at prices about one-third of the original cost. At the old figures there could be no sales at all to-day.

At the end of May 684 steel ships of 4,496,000 tons were laid up, and there seemed to be no hope of ever employing 275 idle wooden ships again. Chairman Good of the House of Appropriations Committee took such a pessimistic view of the wooden fleet

Household Notes.

It saves time to cut the dough for baking powder biscuit with a sharp knife. The biscuits will be in pretty squares and there is no waste.

Sew mending with raffia and prevent unsightly stitches of thread. Raffia is very strong and may be bought to match almost any kind of knitting.

For dirty boot or sticky marks on a carpet use ammonia; if it should seem to fade the color, apply chloroform. A cloth wrung out of salt and water helps up the color after sweeping.

After shampooing blonde hair half the juice of a lemon squeezed in the last rinsing water will cause the hair to dry more quickly and with less squalls.
