

THE DEATH OF HISTORIC CHARACTER

He Gave Good Advice to Governor in Troublesome Times of '37

Quebec, Jan. 10.—The death is announced at Nicolet of Henry A. Chillas, aged 94 years. There was a small English colony at Nicolet during the stormy times of 1837, and their position was naturally uncomfortable, but it was due to the good advice given by Mr. Chillas to the governor general that the rebellion in that part of the province was not more serious. His advice, for which he was afterwards warmly thanked by his excellency, was that instead of forming militia company the governor should leave the people to be handled by their clergy. This was acted upon with the best results for peace and tranquility.

JAPS DECIDE NOT TO COME

Will not take Chances on Visiting San Francisco

Americans are Sorry

Washington, Jan. 10.—Members of the California delegation in congress, in discussing tonight the decision of the Japanese government to abandon the proposed visit of the training squadron to the Pacific coast, or account of the anti-Japanese agitation expressed that opinion that San Francisco would have extended a welcome to the fleet. Representative Kahn, who represents San Francisco in the house suggested that the action of the Tokyo government may have been on advice of the Japanese consul general at San Francisco.

More Arrests in New York Life

New York, N. Y. Jan. 10.—More arrests may be made in the investigation of the affairs of the New York Life insurance company according to announcement today by district attorney James T. Perkins. The announcement was made while the district attorney was opposing an application of counsel for Geo. W. Perkins now under indictment in the New York Life case for an inspection of the entire minutes of the December grand jury. Mr. Jerome said that it would be defiance of public policy to grant such a request because persons are mentioned in the evidence who have not yet been arrested all but who may be at some future time. No decision was reached in the matter today.

ONE LEAGUE IN ANOTHER ONE OUT

Many Things Happen at the Annual Meeting of the National Baseball Association

New York, Jan. 10.—Because the board of arbitration of the National Association of baseball leagues decided to admit the Tri-State league to the territorial rights of Wilmington and Trenton, which quashed the application of the Atlantic League, the Atlantic league has decided to pull out from the National Association.

The ground upon which the Tri-State League's application for territorial rights was granted was that the league, although recently admitted, had a prior claim upon its field on account of its older organization.

With a view of regulating salaries and making them uniform in each league at least to the extent of putting a limit upon them, an important amendment to the constitution was adopted. This provides for a maximum monthly salary limit for each club of the several leagues below class A. The classification is to be governed by population requirements, and to be fixed by the respective leagues.

A statement of maximum limit must be filed with the secretary of the board of arbitration immediately after the opening of the championship season in each of the leagues affected, and it will be the duty of the National board to enforce it.

The association took a stand like that of the major leagues with reference to post season games and amends its constitution to the extent that no club will be permitted to participate in such games except under the regulations of a board of control.

The National board was given power to impose penalties for violations against this amendment. The board adopted a resolution putting all players who are ineligible to play in the eligible list of the Tri-State League.

Provision was made for the trial of players and umpires against whom charges may be made. An amendment was made to the constitution imposing a penalty of \$50 for invasion of territorial rights.

CALGARY! CALGARY!

The Commercial and Industrial Centre of the Last Great West, 840 miles distant from Winnipeg and 641 miles distant from Vancouver. Without a rival, without a competitor, without a peer. The centre of a vast country, rich in grain and cattle. The distributing basis of immense coal timber and mineral districts.

Calgary has 12 banks, 85 wholesale houses and 25 manufacturing industries. With an educational system which is unequalled. It has 3 fire halls and 3 branch post offices. A street railway is about to be constructed which will serve East, West and South Calgary. This will mean a belt line of about 12 miles in length. The G. T. P. have declared their intention of reaching Calgary at an early date. The C. N. R. is determined to become established here in the near future. Both companies are fully warranted in putting forth every effort in order to keep pace with the unparalleled development which is taking place in this part of Greater Canada. Calgary is favorably situated at the foot of the Rockies, with a climate unsurpassed. Watch her grow! Her population in 1890 was 4,000, her population in 1900 was 7,500, her population in 1910 will, at a conservative estimate, reach 50,000. Buy Calgary property while you may. It will double and treble itself in price in a short time. It has been the rule in the past and will be the rule in the future. The tremendous influx of immigration compels it. Get in on the ground floor.

The magnificent suburb known as South Calgary, which until recently was under the control of parties in England and which is part of an estate which must be closed up, will now be placed on the market and thrown open to the public. Three thousand lots are now being offered for sale. Said lots will be sold at prices varying from \$35.00 to \$60.00 per lot, according to location and value. Terms half cash, balance in three and six months, with interest at 8 per cent. Some of these lots are worth \$200.00 each, none less than \$50.00 each. This is the greatest snap ever offered the public. You cannot lose money, you are bound to make money. You cannot help it. It is merely a question of whether you make a profit of 100 per cent. or 800 per cent. Adjoining this property is the contemplated terminus of Jim Hill's road, which will reach Calgary from Fernie, passing through a splendid coal, timber and mineral district.
