THE SMALL-POX.

More or less uneasiness has been caused in Dutton through the recent outbreak of small-pox in Fingal, and latterly in West Lorne. Through the carelessness of the medical men of Fingal in allowing those who came in contact with the victims of this dreaded scourge to go and come *ad libitum*, the disease has been carried to West Lorne, but happily the medical Health Officers for the Township of Aldborough have taken the necessary precautions to prevent the spread of the disease. Mrs. Walsh, who waited on her sister at Fingal, is down with the disease in the former village. The house has been quarantined and placarded, and even the dog and the cat belonging to the house have been killed. It has been reported that Mrs. Walsh had died but such is not the case, and at the last account was improving. A report has been current that a case of small-pox exists near Coyne's Corners. The report is without foundation. The Township of Dunwich is entirely free from the infectious disease.

The intercourse carried on between Fingal and Dutton is receiving adverse comment. Several parties from the infected district have lately been in town, and the lack of courtesy on the part of the people of Dutton is due to the fact such persons may have been exposed, and for such reasons precautions are necessary. No outbreak may follow but regard should be had for the feelings of our townspeople when it is known that such persons are from places where the dreaded disease is known to exist.

BOARD OF HEALTH APPOINTED.

A special meeting of the council of the Township was held in the clerk's office on Tuesday, to take the necessary precaution to prevent the spreading of the dread disease to Dunwich. All the members were present.

Moved by D. McLean, seconded by Peter J. McCallum, That this council do hereby appoint a Board of Health, composed of the following persons: The reeve, clerk, Daniel McPherson, L. W. McIntyre; that D. C. Leitch, M.D., be appointed medical health officer, and Alex. McRae and Wm. Thomas be appointed sanitary inspectors for the year 1889.—Carried.

Moved by Henry Garbutt, seconded by D. McLean, That this council recommend the vaccination or re-vaccination of all persons resident in this municipality who have not been vaccinated within seven years, and that this council order that such vaccination or re-vaccination be enforced immediately should the Board of Health deem such measure necessary, and the reeve is hereby authorized to issue a proclamation and give requisite notice on recommendation of the Board of Health.—Carried.

NOTES.

So far there have been three deaths, the last, that of Lemuel Young, took place on Sunday.

On Saturday Ed. Young, who was employed in Dutton, received a letter notifying him of the low condition of his father, but he did not go home till Tuesday.

Our barber refused to perform the tonsorial operation on a gentleman because he had come from Fingal.

The Boards of Health for Yarmouth, Southold and Aldborough have issued proclamations for compulsory vaccination.

It has been reported that a case of small-pox was at Rodney, but it is not confirmed.

Mr. A. N. C. Black, clerk of the court, has received permission from the county judge to remove the court business to Dutton.

Prof. Brush arrived here with his trained horses on Tuesday, but the proprietor of the Nelson House declined to allow him to put up at that hotel. Several citizens prevailed upon him to leave town, which he promptly did.

It was currently reported that the wife of Rev. R. D. Hamilton was among the afflicted. The report is not confirmed.

ACTION OF THE BOARD OF HEALTH.

A meeting of the Dunwich Board of Health was held in Brown's hall yesterday afternoon. It was decided that all churches in the Township be closed until further notice; this shall apply to all literary or public meetings.

Moved by D. C. Clay, seconded by D. McPherson, That any person or persons coming into this municipality from abroad who are suspected of having been exposed to small-pox shall be promptly isolated, and the Sanitary Inspectors are hereby empowered and required to take immediate action in such cases.
