THE TORONTO INDUSTRI

Reminiscences of the Show—Some of the Notable Exhibits.

THE REGINING AND HAMMOCK CHAILS. In the first gallery of the main building, just back of the northern stairway, was the unique display of the Reclining and Harmock Chair Company, of Parkhill. The chairs turned out by this company large simply a new revelation of comfort and adaptability. Time was when the world marveled at the production of a chair which, by means of complicated mechanism, could be made to assume a variety of stiff positions. The new gospel of case, however, presents a chair which comforms absolutely to the position of the Person occupying it. To move the body is to move the chair, so, that it supposed the frame most comfortably in any position. Moreover, this chair can be swung at a moment's notice and used as a hammock chair, the pleasure of swinging gracefully being added to the comfort of the most desirable reclining chair ever produced. There is a most useful and valuable feature to this chair also. In a magnetic control of the world of the companion of the pleasure of swinging gracefully being added to the comfort of the most desirable reclining chair ever produced. There is a most useful and valuable feature to this chair also. In a magnetic control of the companion of the most desirable reclining chair ever produced. There is a head-rest, easily adjustance and adding much to the summer cottage or the occar steamer, to be swing on the verantal adding much to the value of the chair as a reading-chair. There are samples on exhibition differently upholstered, showing the great variety in which the chair can he made. Its low price as commared with other reclining chairs (ranging from 88 upwards, according to the style of upholstering), and its durable construction and fine finish, make it a thing to be desired in every home in Canada.

A Novelly is the late Industrial Fairwas the Standard Automatic Knitting Machine, which was to be seen at work in the main building at the late Industrial Fairwas the Standard Automatic Knitting Machine,

gallery just over the soap works. The machine is the invention of Mr. Kay, of Messrs. Kay & Co., Georgetown, the well-Mesars. Ray & Co., Georgetown, the well-known manufacturers of power and hand kuitting machines. The contrivance is of the simplest possible character, yet, withal, wonderfully perfect in its structure. Is was only completed on Thursday last, and is the first ever exhibited in Canada. The advantage it possesses over ordinary power machines is obvious when it is stated that

advantage it possesses over ordinary power machines is obvious when it is stated that one girl can look after from five to seven of them, each capable of turning one from six to ten dozen of knitted goods in a day. The inventor has overcome the difficulty that has puzzled mechanicians for years—how to provide for the heels of the stockings being knitted automatically. The machine is so constructed that it adjusts itself when time for knitting the heel arrives, and when the heel is finished it goes on with the foot just as if controlled by the human will.

A SUCCESSUL COMPANY.

A reporter of the Advergisers, taking in the late Industrial Fair, met a leading fire insurance man, and in conversation learned from him that the fire insurance business in Canada this year was likely to be more profitable than for many years.

Turning around he saw Mr. McCabe, managing director of the North American Life Company, of Joronto, and the reporter, anxious for news, thought it a good opportunity to learn how the life business was progressing. Mr. McCabe was ready to give any information desired. He said: "So far as our company is concerned, I certainly think it will be the best year we have ever had; at least, that has been our experience up to date. The outlook for business is encouraging, crops have been fairly good and prices are satisfactory; this means a help to up to date. The outlook for outsiness is en-couraging, crops have been fairly good and prices are satisfactory; this means a help to our agents, and the result, more basiness for the company, besides, policy-holders will be better able to contribute and in-"ASSISTANCE"

all nature needs in nine cases out of ten to meddy incheres. The old idea of bleeding, blistering, purguisture, that is, seeing to diet and sanitary surroundnys and giving medicine to act gently but just as ertainly as the old style. In all cases of Stomands Froubles, Indigestion, Dyspepsia, etc.

U.M. To the different or twenty

"What form is that?"

"Why, at the end of fifteen or twenty

we have a 7 per cent, policy, wollders will income."

"What form is that?"

"Why, at the end of fifteen or twenty

"What form is that?"

"Why, at the end of fifteen or twenty

will be better able to contribute and increase their insurance. I see no reason reason of success their insurance of the old plans. "Undoubtedly," said Manager McCabe, "formary years, and, if the policy be on the investment plan, he will be on the policy becomes payable without de duction of the loan. Yes, we think it is so many advantages.

"Now, for one getting up in years or young man wishing to save some money we have a 7 per cent, guaranteed income bond."

"What form is that?"

"Why, at the end of fifteen or twenty

we have a 7 per cent. guaranteed incombond."

"What form is that?"

"Why, at the end of fifteen or twenty years the insured can draw out his cast surplus, have a paid-up policy for the ful amount of his policy, and in addition draw an annual cash income of 7 per cent. on the face of the policy so long as he lives."

Further conversation with Mr. McCab. was abruptly terminated by the pressure of the crowd carrying the reporter to anothe part of the building.
