BLACKSMITH'S STATEMENT,

Mr. M. B. Connick, of Middleton, P. E. I

Makes a Strong Assortion. Middleton, P.E.I., Oct. 9.—The strongest point in favor of Dodd's Kidney Pills is that they will cure Bright's Disease; and the next strongest is that there is no other medicine that will.
Mr. M. B. Connick, a blacksmith on
Prince Edward Island for this last quarter of a century, found this out. He had tried every medicine but the right one, and then, learning that Dodd's Kidney Pills were the only cure for Bright's Disease, he tried them.

for Bright's Disease, he tried them. Ten boxes cured him.

I'I would not be alive and strong today," he wrote recently, "if it were not for Dodd's Kidney Pills. All the country knows my case, and there have been hundreds to ask me about it. I tell them the whole thing just as it happened, and give the sole credit of my cure to Dodd's Kidney Pills."

Australia is capable of supporting at least 10,000,000 inhabitants.

Dr. J. D. Kellogg's Dysentery Cordial is without doubt the best medicine ever introduced for dysentery, diarrhea, cholera and all summer complaints, seasickness, etc. It promptly gives re-lief and never falls to effect a positive cure. # STRIKE IS ON

Street Railway Employes Quit Work This Morning.

The expected strike of the St. Thomas street railway employes went into effect this morning. Only three cars are being operated in St. Thomas today, and 18 of the 22 employes are out. The Trades and Labor Council of St. Thomas met last night, and passed a resolution indorsing the action of the strikers and assuring them of their support. One of the strikers, speaking to The Advertiser today, said the strike had been forced on the men by President Still, who is also the manager and the controlling wock-

holder of the road. "When a committee of the men waited on Mr. Still yesterday morn-ing," said The Advertiser's informant, "he not only refused to hear a word from them, but attacked them with a fierce tirade of abuse, and ordered them to leave his presence at once, telling them that he would discharge every man who belonged to the union." The men complain that since the union was formed, about two months ago, President Still has laid off or ago, President Still has laid off or discharged four union men on one pretext or another, and has given the best runs to lately-employed non-union men over the heads of union men who have been much longer on the road. According to the men it is simply a determination on the road. simply a determination on the part of Mr. Still to stamp out the union. The men say, however, that since the city of St. Thomas gave the road a bonus of \$50,000, and since the workingmen and their families make up a large majority of the population of the city, it is likely the citizens will have something to say as to whether or not Mr. Still shall deny the men the simple right of organization. St. Thomas is essentially a railroad city, and the steam railroad employes are said to be solidly in sympathy with the strikers. The opinion is expressed in St. Thomas that the result of the strike may be the taking over of the road by the

### IN ST. THOMAS MASKED ROBBERS CAPTURE A TRAIN

About Fifty Miles West of Chicago-\$25,000 Taken From the Express Train.

Chicago, Oct. 14.-Masked robbers held up the fast transcontinental mail train of the Northwestern Railroad shortly before midnight, between Maple Park and Dekalb, shot at Dan White, the engineer, ran away with the engine and blew open the express car and the safe. When the robbers had rifled the car they disappeared. It is estimated that the robbers secured \$25,000 in cash alone. The run is made from Chicago to Council Bluffs on a schedule exceeding a mile a minute. The train left the Northwestern depot at 10 o'clock.

At Maple Park, 50 miles from Chicago, it was discovered that tower W at Elburn was not giving the right signal. Engineer Dan White closed the throttle quickly, and brought the train to a standstill. Two masked men jumped on the steps and pointed guns at him and the fireman. "Throw up your hands," they shouted. The rail-road men did so. Two robbers detached the engine from the rest of the train, and White was told to pull out. The robbers ordered him to take his engine two miles up the track. Then he attempted to make a fight and re-capture his engine. In the meantime four other men had attacked the con-ductor and the brakeman. Numerous shots were fired. The conductor was unable to make any resistance, as he was told he would be killed. One of

the brakemen escaped in the darkness, and raced to Elburn, where he sent the alarm to the train dispatchers in Chicago. The robbers, after overpow-ering the conductor, compelled Express Messenger Frank Hobson to give up the keys to the local safe. They then blew open the door of the through safe with dynamite, the explosion wrecking the car. The robbers grabbed all the money and express packages they could find and fled. It is estimated that there was \$25,000 in the safe. The telegraph operator at tower W had been bound and gagged by the robbers, who had changed the signals and stopped

A neighbor advised me to try Dr. Thomas' Eclectric Oil, stating that his wife had used it for a throat trouble with the best results. Acting on this advice I procured the medicine, and less than half a bottle cured me: I certainly believe it saved my life. It was with reluctance that I consented state that I doubted the power of any remedy to do me good.
