CONDITION OF THE BIDDLES!

Edward Weaker and His Death Seems Near.

John's Life May Be Saved by a Surgical Operation-Mrs. Soffel Recovering-She Tells Two Stories.

Butler, Pa., Feb. 1.-The condition this morning of the fugitives from justice. Edward and John Biddle and Mrs. Kate Soffel, who were wounded in the battle with the Pittsburg and Butler police last evening has not changed since midnight, except in the case of Ed. Biddle, who has grown noticeably weaker, and it is believed that his death is now only a matter of a few hours. His temperature is 102; pulse 126; respiration 22, and there is evidence of almost continued internal hemorrhages.

JACK MAY LIVE. Unless peritonitis sets in Jack will be taken to the hospital, where an

operation will be performed in the hope of saving his life. The doctors have ascertained that his bladder was reached by a bullet, but his general condition seems to be good. MRS. SOFFEL.

Mrs. Soffel is resting easy. Her only wound was made by a bullet which penetrated her breast within an inch of the nipple. It was from a thirtytwo caliber revolver and coursed around the fifth rib on the left side, lodging under the shoulder blade. About three o'clock this morning an operation was performed and the bullet removed. Her recovery is believed to be a matter of a very short time. TELLS TWO STORIES.

Mrs. Soffel tells two different stories of the shooting; one to the effect that she shot herself during the fight, and the other to the effect that she was back almost opposite its point of enthal by Edward Biddle. The bullet trance. did not go through her outer garment, which indicates that the shot was fired by herself or Biddle by putting their hand under the coat.

LEGAL BATTLE LOOKED FOR. A legal battle is expected when the Pittsburg authorities arrive today, and at the jail, it is said the only way the Pittsburgers will be able to secure the Biddles will be by a writ of habeas The Butler authorities are determined to fight against their being

HOW THE ESCAPE WAS MADE. From the statement made this morning by Jack Biddle in his cell it is evident that the escaped convicts and their accomplices had arranged to commit suicide in case capture came imminent. In addition, Jack also told how they escaped. Their manner of getting out of jail, according to his statement, was as has been already published. McGeary, he says, fell over the balcony when he jerked loose from the hold the prisoner had on him. He Jan. 14, and that several times previ-ous to the day on which the escape likely." was made, their plans failed through some little detail. Jack again reiterated that he never killed anyone, and

that he never put a bullet into anyone except Keeper Reynolds. Jack said the first crime he ever committed was assisting to rob a liquor store at Carnegie, but he admitted that he had participated in a number of robberies after that.

AFTER LEAVING THE JAIL. After they had left the jail Thursday morning, they went to a house near a railroad in Pittsburg. They remained there all of Thursday. The people in the house, Jack said, when they read of the escape, recognized them, and would only let them remain after the Biddles gave them a "bunch of money." They remained at the house until Thursday night, leaving it as soon as it grew dark. Jack says he wanted to stay there, and that Ed was also willing to stay, but that "the woman" was nervous, and afraid they would be

"I wouldn't let 'em go alone," said Jack, "and as soon as it grew dark we went down the street and took a Perrysville car. We rode to the end of the line, and from there walked until we reached the farm where we stole the

BLAME THE WOMAN.

"If it had not been for the woman we would not have been caught, for we could easily have gotten another horse, and by this time more than a hundred miles away. It is a 'lead-pipe cinch' that we would have escaped, but we could not let that poor woman go by herself. She did all she could with us, betrayed her husband, deserted her family, all to help us out, and we would have been a great deal worse than we are thought to be if we had When we saw the officers coming

toward us on the road yesterday even-

KNEW IT WAS ALL UP. We did not fire a shot at the officers, but agreed to kill ourselves. I shot myself in the mouth, Ed. shot himself over the heart, and the woman shot herself in the breast. We knew had no chance to get away and we also knew we would swing if taken back, and that is why we wanted to

JACK'S INJURIES. It has been discovered that Jack has two bullet holes through his mouth, instead of one, as at first thought. One of his other wounds is through his ab-domen, and this one may cause his Bullets from two of his other wounds about the stomach were taken out this morning. The Biddles, when captured, had the same clothes they

RIDDLED WITH BULLETS. Through 'Ed's coat there is one bullet hole, but through the dark-blue velvet vest he were are two holes made by the bullets that lodged near his heart. Jack's coat and vest are literally riddled. There are four holes in side of the coat and ten in the right sleeve. The latter appear to have been made by small bullets. Jack's pistol was a cheap 32-calibre affair. Three of the six chambers of the gun hold empty cartridges. DISCLAIMED MURDERING ANY-

ONE. Both of the Biddles were talkative this morning, but both disclaimed ever having killed anyone. The Kahney murder, 'Ed. alleged, was committed by Walter Dorman, assisted by a man who had that day come from Chicago, and the Zebers woman, who put on a done often before when she had as-sisted them in their robberies. He admitted having committed a great many robberies, but stoutly maintained that he had never killed anyone. SAYS SHE DIDN'T SHOOT HER-SELF.

Mrs. Soffel made a statement after her capture in which she said she became involved in the affair through sympathy for Ed. Biddle. said she now realized her mistake and wished she were dead. She said she did not shoot herself, but was the first one shot by the detectives. The officers say the woman was armed; but do not think she fired any shots.

THE PRISONERS' WOUNDS. Dr. J. E. Byers, who examined the Biddles and Mr. Soffel, as soon as the prisoners were taken into the county jail, made the following statement late "The wounds of all three prisoners

are exceedingly grave and may result fatally before another 24 hours. "The bullet which struck Mrs. Soffel, and which appears to have been self-afflicted, entered her left breast, going through the nipple and passing back about six inches through her chest. It lodged under the skin of the

"From my examination of Mrs. Soffel's wounds. I think that she may live, but her exposure to the cold and excitement and nervous shock of this affair may so complicate matters that her breast wound may prove fatal. The bullet undoubtedly glanced from her breast bone. Her chances for recovery are favorable, but, as I said, the attendant circumstances are likely to produce unfavorable symptoms before morning.

EDWARD CAN'T LIVE LONG. "As to Edward Biddle, I think his wounds are the worst of any of the three. He was shot through the breast twice and was also shot in the mouth. His arm is broken, but whether by a shot or by his fall from the sleigh has not been determined. His left lung is full of blood, his breathing is greatly impaired, and I doubt if he can live

"The wounds of John Biddle are numerous. He has six gunshot wounds in his abdomen and five in the right arm. Stray pieces of shot also hit him says Mrs. Soffel helped them to escape, but would not say she supplied the in the face, but none of John Biddle's saws. The sawing of the bars of the wounds are of themselves necessarily cells, he says, was completed before fatal. The chief danger in his case is

JOURNEY WILL PROVE FATAL. A doctor is in constant attendance on the prisoners. He says that their condition will not permit of their being moved, and feels certain that a journey to Pittsburg today would be sure death to Ed Biddle. Notwithstanding this, however, it is the intention of the Pittsburg authorities to have them removed to Pittsburg at once regardless

TRIED TO KILL THEMSELVES. Drs. Greer and Bricker, who have been attending the two Biddles, made a report this morning that apparently confirms Jack Biddle's story that the fugitives had tried to kill themselves. They had come to this conclusion after a complete examination and a partial probing of the wounds of both of the

Boiestown, N. B., Jan. 31.-Northumberland county has seldom, if ever, been as much interested in the illness and recovery of any one man as it has been in the case of Wm. A. Brown, of this place.

Mr. Brown's great suffering is what stirred up the sympathy of the people, for it is doubtful if ever mortal man had to endure greater pain. That he could ever recover complete good health was considered out of the question. And yet today he is well and entirely free from any symptoms of the Sciatica or any other pains or

Mr. Brown describes his case in part as follows: "I had Sciatica so bad in my back and hip that I could not walk without suffering awful agony, and pains would shoot through my with a sensation similar to running a knife through it." Dodd's Kidney Pills were recom-

He continued the treatment says: "The pains all left me and I was completely cured, and have had no return of them since. I think Dodd's Kidney Pills are a wonderful remedy, and I have recommended them to a number of others who were suffering, and have yet to hear of their failure to cure."
This remarkable cure of such an ex

treme case has created quite a sensation among those who know how very bad Mr. Brown was when he began to take Dodd's Kidney Pills.

Look Ahead.

You have a comfortable position and a steady salary or income. Everything connected with your business affairs seems settled and running smoothly, and, if you have given it any thought, the future seems to give you no cause for anxiety.
