

AN UNDESIRABLE CLASS

Immigrants That United States Do Not Want

Said to Gain Surprising Entrance by Way of Canada.

Washington, D. C., Oct. 30.—Commissioner-General Sargent, of the Immigration Bureau, has just made public a report from Robert Watson, special immigrant inspector, dated Paris, France, Aug. 22, 1902, on the immigration to the United States by way of Canada. Mr. Watson says that Europeans who obviously are ineligible to enter the United States for several years have been directed by designing agents to Canadian ports with a view to effecting a surreptitious entrance into the United States across the international boundary. Intending immigrants, who by reason of some disqualification are rejected by the lines running to United States ports, are turned over to lines running to Canada, and with few exceptions they are accepted without question. Thousands every year thus find their way to Canada, and thence to the United States. Mr. Watson says, "Every steamship agent includes to the fact that the United States immigration laws are now being strictly enforced there and in consequence the Canadian route is earnestly recommended as one whereby any one is accepted who is capable of walking off the ship—a statement which is invariably coupled with a gratuitous lesson in North American geography, designed to impress on the emigrants' mind the cheering information that Montreal is a border city from which a walk across the border is a very easy matter, unattended by any inconvenience whatever, there being no inspection of immigrants at said border." The efficient work of the immigration officials at New York and other ports of the United States not only tends to make a farce of the commendable scrutiny exercised at the Belgian, Holland and German ports, but serves to stimulate the work of the unprincipled and mercenary list of European steamship passenger agents who regularly send to Canada not only those whose admission to the United States port is open to doubt, or those whose admission is known to be impossible, but also those who have been actually deported from a United States port and who have been duly deported therefrom according to law. So important a matter has this surreptitious immigration become in certain Italian and Swiss towns that scores of agencies exist where a normal traffic would scarcely justify the maintenance of a single agency. In conclusion the report urges that all roads into the United States be made equally straight and narrow.

THE KRUGER MEMOIRS

Jealousies That Existed in South Africa Before the War.

London, Oct. 30.—It is understood that the Kruger memoirs, of which a first installment has been published in the Times, gives a narrative of the ex-president's career, but does not go deeply into political matters, as the Boers as to the best policy to be pursued after Mr. Kruger's death. A striking feature of the memoirs is a revelation of the jealousies which existed before the war between the inhabitants of the Transvaal and the Orange Free State, and the Cape Colony Boers, which prevented anything like a satisfactory mutual understanding. Mr. Kruger takes pains to prove that he did his utmost to smooth matters over and prevent the war, but that the inherent antipathy to foreign interference proved to be too strong for him. Mr. Kruger closes his memoirs with these words: "I am convinced that God will not forsake his people, although it often appears so, and I acquiesce in the will of the Lord."

Lord Minto Hurt.

Ottawa, Oct. 29.—Lord Minto, while horseback riding yesterday, met with a painful mishap. He fell, severely bruising his chest. His right arm was broken and he was confined to his room for several days.

Nervous Dyspepsia

A DISEASE VERY COMMON AMONG THE AMERICAN PEOPLE, BUT NOW QUICKLY CURED. A SURE CURE.

FERROZONE.

In a case of nervous dyspepsia a doctor sees two things, first, that the digestion is deranged, and second, that the nerves are in a starved, irritable condition. If absent of the times and in touch with the latest discoveries the doctor is sure to advise Ferrozone, which is now universally prescribed for cases of acute indigestion and dyspepsia.

Ferrozone is prepared specially for diseases of the stomach and bowels, and as a sure cure for nervous dyspepsia has proved itself a thousand times to be superior to all others. Where Ferrozone is taken after each meal, it is impossible for dyspepsia or indigestion to exist. It digests the food before it has had time to ferment in the stomach, and regular action is enabled to eat and drink anything at any time, without fear of bad results.

Ferrozone relieves that distressing headache, and burning feeling in the stomach peculiar to dyspepsia. It regulates the action of the bowels, kidneys and liver; strengthens the nerves and makes the sad-looking dejected dyspeptic feel like a new man in twenty-four hours.

The general manager of a Toronto Manufacturing Company who used Ferrozone with very marked results, says: "The strain of conducting a large business brought on a severe case of Nervous Indigestion about a year ago, which I endeavored in vain to shake off. Doctors told me only a complete rest would cure me, but not being able to spare the time, I used Ferrozone instead. It perfectly restored my good health in a short time. I have confidence in the merits of Ferrozone, and am pleased to recommend it."

What Ferrozone can do for you can be best proven by giving it a trial. Every reliable druggist recommends it, and its price, \$1.00 a box, or three boxes for \$2.50. Sent to your address by mail if price is forwarded to N. C. Polson & Co., Kingston, Ont.

FLEEING FROM VOLCANO

Inhabitants of Towns and Villages Forced From Their Homes.

Guatemala City, Oct. 30.—There have been serious earthquakes throughout Guatemala and the volcano of Santa Maria is in great eruption. There were tremendous detonations, like heavy cannonading, at 5 o'clock Tuesday morning.

The Santa Maria volcano has thrown a deep mantle of ashes upon the town of Quetzaltenango (which has been partly rebuilt since the earthquakes of last April) and upon the town of Mezaltenango. The volcano is near both of these places.

All towns, villages and plantations near the volcano have been abandoned and the residents are fleeing to places of safety. The entire republic is in a disturbed condition, owing to the seismic waves. Guatemala City, although more than 100 miles from Santa Maria, hears its continuous thundering.

Details of the eruption are not obtainable, owing to the Guatemalan Government taking possession of all telegraph lines in the interior.

MINERS ENTOMBED ALIVE

A Shocking Accident Reported From Mexico City.

Fifty Men Narrowly Escape Death in a Missouri Colliery.

Mexico City, Oct. 30.—A shocking accident to miners occurred in a mine near Santa Maria de la Paz on Saturday. Several of the miners were working at the bottom of a shaft when a very heavy mass of earth, coming from the shaft at some distance from the bottom, Sunday night a tapping noise made by the miners could be heard. They were pushed with all possible speed. The wives and children of the imprisoned men were grouped around the top of the shaft, wailing and weeping. At last accounts the men had not been rescued.

NARROW ESCAPE OF 50 MEN.

Joplin, Mo., Oct. 30.—The Stewart mill and other valuable mining property held today at its residence in this city. The mourners included Susan B. Anthony, lifelong friend and co-worker of the dead woman; Lillian Devereux Blake and Mrs. Willoughby, who represented Sorosis.

A VALUABLE MINERAL

The Polybedite Found in Canada Is Worth \$400 a Ton.

Toronto, Oct. 30.—The mineral riches stored in the rocks of Ontario are becoming better known every day as a result of the impetus which has been imparted to prospecting and development in every part of the province.

The latest discovery reported to the crown lands department is of great value from an economic standpoint. It is a deposit of polybedite, which occurs in the southeast corner of Hamilton, and which, from all the information that could be obtained by sinking a few test pits, is quite extensive. The veins are several feet wide in some places and are very rich in large crystals of the precious article, some of which are from three to four inches across and one inch in thickness.

Polybedite producing 50 to 55 per cent of molybdenum is worth \$400 per ton, and the product is worth \$1.55 to \$2 per pound. Molybdenum is used mainly as an alloy of steel, to which it imparts an especial hardness, thus considerably improving its quality and value.

MINERS STRIKE IN FRANCE

Delay in Securing Arbitration—Government To Be Stirred Up.

Paris, Oct. 29.—The national committee of the Miners' Federation, accompanied by several Socialist deputies, called on President Combes today in regard to the progress made towards arbitration of the matters in dispute between them and the coal owners. The purpose of the visit was to obtain an expression of hope by the Premier that he could secure arbitration. The committee later sent him a formal letter, notifying him that the Government would be interpellated on the subject in the Chamber of Deputies tomorrow. It is said that the mine owners have not agreed to treat with the striking miners or respond to the Government's offer of arbitration. The purpose of the interpellation is to establish before the country the responsibility for the continuance of the conflict. If Premier Combes' response in the chamber is not satisfactory, the Socialist deputies will propose a resolution calling for a Parliamentary investigation of the strike.

In the meantime reports received here from the mining districts show that the miners are becoming discouraged and are returning to work. The resumption of work is so general that the strike is considered over at St. Etienne, in the Sales Valley, and at Alais, and other leading centers of conflict.

Coal Dealers in Court.

Hamilton, Ont., Oct. 29.—Thos. Miles & Sons, through their solicitors, have issued a writ against the city corporation and the five aldermen composing the fuel committee, for \$10,000 damages for breach of contract. When the coal famine was on the fuel committee of the council bought 500 tons of coal from Miles & Sons, and the same amount from A. Rogers, at \$8 per ton, to be delivered immediately. When the city began to cut on the prices of coal below the coal dealers' figure of retail, these dealers kicked and threatened an injunction to prevent the city from dealing in coal. The committee through Mayor Hendon at once cancelled the order for all undelivered coal, and thus the suit.

Hard coal is being delivered to customers here today at \$8 per ton, and is likely to go lower until the old price is reached.

SLAVE TO COCAINE HABIT

Sad Case in Emergency Hospital, Detroit.

Young Married Woman Has Become a Physical Wreck.

Detroit, Oct. 30.—Young, and with evidences still of prettiness and charm, Laura Short lies in Emergency Hospital a physical wreck and deliriously raving from the effects of the morphine and cocaine habit, says the News.

A few short years ago, she was a bright, pretty school girl, with a good home and desirable friends, leading an innocent and happy life, the pride of her parents. One day she married one of her young school fellows and went to keeping house in much the same manner as she had played with her dolls.

The young people lived happily and were popular and much sought after for dances and parties. Just how the young wife first tasted the insidious drugs which have since become her master is not known. The first step proved the beginning of the end, and she went down the ladder of the horrible vice, step by step, until today she is completely a slave, dead to all else but a craving for the drug.

About a month ago the wretched girl and her young husband came to Detroit from Birmingham, N. Y., in the hope that in new surroundings some effort might be made to control the habit which was fast overpowering every other sense. At first she seemed to be better, but the intense desire for the stuff had taken too strong a hold, and she lived only to secure it. The little money and few poor possessions all went to buy morphine, the poor creature even pawning her husband's coat and vest and her hair to satisfy her craving for the drug.

A few days ago she was taken to the hospital raving wildly, and in such weak physical condition that it seems but a question of a short time when death will take her.

MRS. STANTON'S FUNERAL.

New York, Oct. 29.—The funeral of the late Elizabeth Cady Stanton was held today at her residence in this city. The mourners included Susan B. Anthony, lifelong friend and co-worker of the dead woman; Lillian Devereux Blake and Mrs. Willoughby, who represented Sorosis.

PLAGUE IN SAN FRANCISCO

The Board of Health Comes in for the Severe Censure.

New Haven, Conn., Oct. 30.—At the convention of American health officers yesterday, Prof. F. C. Robinson, of Bowdoin College, Brunswick, Maine, presented a report showing that while the authorities of San Francisco were denying the existence of bubonic plague new cases were developing, and that much was done to hamper the health officers in preventing the spread of the plague. Following this conference passed this resolution: "That the conference of state and provincial boards of health of North America, which is an abhorrence to the irretrievable disgrace of the present state board of health of California, and pronounce the plague situation in California a matter of grave national concern. That the National Conference of State and Provincial Boards of Health of North America does hereby advise the various state boards of health of the United States to consider the propriety of calling upon the Surgeon-General of the United States, public health and marine hospital service to arrange at the earliest possible date a joint conference for the purpose of eradicating plague from the United States."

TRANSPORTATION OF COAL

Twenty Thousand Tons Shipped in Twenty-Four Hours.

Reading, Pa., Oct. 29.—During the last 24 hours fifteen long trains, or nearly 20,000 tons of anthracite coal, were shipped from this city. Twenty-eight o'clock the trains, which will be credited to tomorrow's run, were started from the collieries. This consisted of about 15 cars, or 20,000 tons, and will reach Philadelphia by tomorrow afternoon.

Toronto, Oct. 29.—The city does not expect to receive any of the 5,000 tons of Polish coal ordered Oct. 10. The contract required delivery within 30 days, and as the company has asked the city to take 500 tons more in order to fill the steamer Monterey's cargo, and also require 120 hours for loading it, will be impossible for delivery to be made within the contract time. The Board of Control will not extend the time.

CONSTIPATION

is probably the most common of all ailments. When neglected it becomes chronic, and frequently leads to hemorrhoids and other serious consequences.

CONSTIPATION IS CURED BY

IRON-OX TABLETS

This Remedy is not a purgative, but by mild action upon the organs restores their natural functions, thus entirely avoiding the debility following the use of cathartics, which, if taken frequently, are almost always harmful.

Fifty Tablets for 25 Cents

Weak Men

Cured Free.

Send Name and Address Today—You Can Have It Free and Be Strong and Vigorous for Life.

INSURES LOVE AND A HAPPY HOME.

How any man may quickly cure himself after years of suffering from sexual weakness, lost vitality, night losses, etc., is the subject of a new book.

Health, Strength and Vigor For Men.

varicose, etc., and enlarge small, weak organs to size and vigor. Simply send your name and address to Dr. Knapp Medical Company, 714 Hull building, Detroit, Mich., and they will gladly send the free recipe with full directions, so any man may easily cure himself at home. This is certainly a most generous offer, and the following extracts taken from their daily mail show what men think of their beneficence:

"Dear Sirs.—Please accept my sincere thanks for yours of recent date. I have given your treatment a thorough test, and the benefit has been extraordinary. It has completely braced me up. I am just as vigorous as when a boy, and you cannot realize how happy I am."

"Dear Sirs.—Yours was received, and I had no trouble in making use of the recipe as directed, and can truthfully say it is a boon to weak men. I am greatly improved in size, strength and vigor. All correspondence is strictly confidential, mailed in plain sealed envelope. The recipe is free for the asking, and they want every man to have it."

Men in Demand.

Toronto, Oct. 29.—There is an unsatisfied demand for laborers in the Niagara and Algoma mining industries. Railway construction is now going on there, and has taken all the available men.

A SERIOUS CHARGE

A Christian Science Demonstrator Deemed Accessory to Boy's Death.

Port Hope, Ont., Oct. 29.—The inquest to inquire into the cause of death of Harold Leslie Long, a boy who died on Sunday from diphtheria, while residing in the town, was held last night in the town hall before Coroner Corbett. The jury, after being out over an hour, brought in a verdict that the death of the boy was due to diphtheria, and that the parents neglected to call in medical attendance until the child was practically at death's door. We also find that the Christian Science demonstrator, accessory to the child's death, inasmuch as he undertook to treat (for which he received a remuneration) a dangerous and contagious disease, which he admitted that he was totally ignorant of. The teaching of the sect known as Christian Scientists, as brought out in the inquest, is a danger to the public generally; and this jury would strongly urge that the Legislature enact a law which would make it a criminal offense for the demonstrator of this belief to attend or treat a case which is not being attended by a duly qualified medical practitioner."

MISSION YACHT SOLD

The Countess's Vessel To Be Converted Into a Houseboat.

New York, Oct. 29.—Countess Adeline Schimmelmarm has sold her mission yacht, the Duen, or Dove, which she had been using for a considerable time, to a local syndicate. The noted vessel will be rebuilt into a houseboat. Countess Schimmelmarm purchased the Duen from the Danish Government in 1895. After becoming the property of the countess the yacht in 1897 visited 58 ports of Germany, Denmark, Sweden, Norway and Italy, distributing tracts. She also visited 652 ships on the same mission. The Duen made a cruise of the lakes in 1901, and was used for some time the boat lay at Detroit. While at Chicago, 84,000 meals were served on board to the poor of the city.

Uncle Sam's Thanksgiving Day.

Washington, Oct. 29.—President Roosevelt has issued his proclamation, designating Thursday, Nov. 27, as a day of thanksgiving.

New York, Oct. 29.—Mrs. Douglas Robinson, sister of President Roosevelt, who arrived from Europe on Tuesday, was reported to have been seriously ill during the entire voyage. At her home in this city it was said that Mrs. Robinson was a "very sick woman." She is under the care of a physician.

Smallpox Story Denied.

Tilsenburgh, Ont., Oct. 29.—The dispatch from Windsor yesterday stating that there was a case of smallpox in Tilsenburgh is contradicted. The mayor and board of health have been unable to locate the alleged victim after a careful search.

Longshoremen on Strike.

Montreal, Oct. 29.—The Montreal longshoremen went on strike this afternoon. The men demanded an increase in their present rate of wages from 20 cents to 30 cents an hour for day work, and 35 cents an hour for night work. The shippers refused to agree to this demand, and 1,200 men went out. The steamship men agree to give the striking longshoremen 25 cents an hour for day work, and 30 cents an hour for night work. If they return to work at once, but the strikers have not yet come to a decision.

TELEGRAPHIC BRIEFS.

Hull, Que., will soon have one of the largest cement works on the continent.

The trial of Lisbell and Fournier, alleged triple murderers, began at Dawson on Tuesday.

The total freight received at Dawson this year was over 5,000 tons in excess of last year.

The last steamer of the season left on Wednesday for White Horse, but the weather is turning much warmer.

There have been serious earthquakes through Guatemala, and the volcano of Santa Maria is still in great eruption.

The Grand Trunk Railway system has practically settled the plans for their new freight depot on the old Parliament buildings, Toronto.

A few carloads of coal arrived in Montreal today, and a few more cars are expected tomorrow. Some of the first coal received sold at \$8 a ton.

At Moosejaw, Man., the Union Bank is building a \$250,000 block, the Baptists an \$8,000 church, and the Roman Catholics an \$15,000 church.

P. W. Baillie, assistant manager of the Central Canada Loan Company, has been appointed general manager of the newly-formed Metropolitan Bank.

The subtreasury at New York paid out \$2,220,000 for gold today (Wednesday) recently received at San Francisco, the bulk of which came from Australia.

James MacDonald, Toronto, organizer of the Street Railway Employees' Union, has been appointed international organizer of street railway workers in Canada.

The Ontario Bureau of Mines has been informed of the discovery of molybdenite in the southeast corner of County Haldimand, said to be worth about \$400 a ton.

The governors of McGill University have decided to appoint Prof. Starkey, of University College, London, to succeed the late Dr. West Johnson as professor of hygiene of McGill.

The Carnegie library offer will come up for final acceptance or rejection before the Montreal City Council on Monday. There is a very strong feeling that it will be rejected.

Bishop Spalding, of Peoria, Ill., and Archbishop Ireland, of St. Paul, are both mentioned as possibilities to succeed the vacancy caused by the death of Archbishop Feelan, of Chicago.

The Crown Prince of Siam gave a dinner last night at the Waldorf-Astoria as a return compliment and farewell to the parties who have entertained him on his visit to New York and vicinity.

Irving Hobson, who has been manager of the Bank of Hamilton at Mitchell, Ont., for some years, has gone to Midland to take charge of a branch of the bank which has recently opened there.

Preparations are being made by the 22 Japanese students at Yale to elaborate celebrate the birthday of the Mikado, who on Nov. 2, 3, will be 50 years old. The exercises will be held on the campus on Saturday.

The Garlock Packing Company, Hamilton, manufacturers of steam pipe packing, had its stock damaged to the extent of \$800 by fire Wednesday. The building, owned by the Odd-fellows' Society, was damaged \$600.

The reported consolidation of the boot and shoe manufacturers and jobbers of the Dominion is said to be on a fair way to completion. The trust will include from 40 to 50 of the leading Montreal, Toronto and Quebec manufacturers, with a capital of \$5,000,000.

Two valuable Irish terriers which took prizes at the recent New York show and which had been sold to fanciers on the Pacific coast, are now dead. Their owner declares there is in their case every evidence of slow poisoning. They were Irish Greyhounds and French bulldogs were found dead at their kennels at the closing night of the show in New York, and a vigorous investigation is being made by the club officials.

WESTERN ONTARIO

Some time during Monday night thieves paid a visit to the store of W. J. Proctor, Sarnia, and carried off a considerable quantity of goods. The amount of stuff stolen cannot be estimated.

Mr. J. S. Levan, of Peoria, Ill., Clement's law office, Sarnia, has secured a position as ledgerkeeper in the Merchants' Bank, and will leave on Saturday for Montreal. He is a native of Ontario, and has been in the law for many years.

Mr. A. M. Fisher, who for the past five years has been connected with the editorial and business departments of the Guelph Herald, has decided to take up his residence in Toronto. On Monday the boys of the Herald said good-bye to Archie, and presented him with a beautiful gold watch as a souvenir of his happy associations in the Herald, the high esteem with which the members of the staff regard him, and their sincere regret at his departure from that city.

Rev. Dr. Young, of the First Methodist Church, St. Thomas, who had an invitation to lecture at the Methodist Church in Omaha, Neb., has decided to remain in St. Thomas.

Mr. R. H. Hoy, conductor out of Stratford to Owen Sound, and for 24 years a faithful servant of the G. T. R., has resigned his position and leaves in ten days or so to take a position on the Denver and Rio Grande Railway, at the quaint Pueblo. His family will not likely leave Stratford until spring.

Chief Sarvis and Provincial Detective Rogers, who were on duty on Monday night about midnight, with Robert Thompson in custody, who some time ago escaped from the authorities at Lincoln, Nebraska, under a warrant of extradition granted by the United States Government. Thompson, when he found the game was up, acknowledged his identity and stated that he had tried to work a bluff on the prison officials and others at Lincoln, when he denied his name and asserted that he was John Joy.

Corns Cured in 24 Hours.

When Putnam's Painkiller, Corn and Wart Extractor is used, corns, warts and bunions can be removed in one day. No pain, no bother, no suffering. Try "Putnam's."

Five hundred lady doctors are now in practice in the United States.

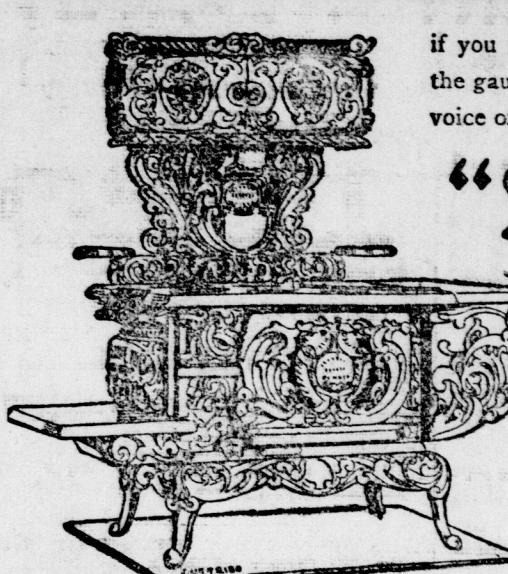

Wood's Phosphopine

The Great English Remedy is an old, well established and reliable preparation. Has been prescribed and used over 40 years. Druggists in the Dominion of Canada sell and recommend as being the only medicine of its kind that cures and gives universal satisfaction. SPECIAL NOTICES.

Shoplifter Identified.

Toronto, Oct. 30.—The Chicago police do not want Mrs. Augusta Lauberg, or Meyers, who is held here on a charge of shoplifting. If the theory of murder is entertained with regard to the mysterious disappearance of her husband, her possible part in it does not cause the Chicago officials any anxiety. The police have received information from Chicago positively identifying the woman as Mrs. Augusta Meyers, who suddenly left her home on North Franklin street. Nothing is said about the husband, and the woman has no criminal record, all the Chicago police can say being that she was warned to keep away from the Seigel-Cooper and other stores.

A Surprising Discovery.

You will be surprised in trying Catarrh-ozone to find how quickly it cures cold in the head. The aerosol, penetrating vapor traverses every air cell and passage of the nose, throat and lungs. In one breath it carries instant death to the millions of germs, infecting the respiratory organs and breaks up a cold in ten minutes.

A trial will convince you that Catarrh-ozone is the most perfect, satisfactory and pleasant cure for colds, catarrh, deafness, bronchitis, asthma and lung trouble. Complete outfit, \$1. Small size, 50c. Druggists or N. C. Polson & Co., Kingston, Ont.

There are about 5,000,000 farms in the United States, of which 2,000,000 produce corn. The average cost of producing an acre of corn is \$5.73.

For a large assortment of waterproof horse covers, lap rugs and coats, also blankets, call at Tack-berly & Co's.

Districts in Ceylon have been depopulated by malaria, and malaria stopped the great Panama scheme of De Lesseps.

ARE YOU A SUFFERER with corns? If you are, get a bottle of Holloway's Corn Cure. It has never been known to fail.
