CATHOLIC HOMES CHRISTMAS DONATION Thanks Is Tendered Those Who So Kindly Contributed.

The Christmas and New Year's festivals at the institutions for the aged and the orphans under the care of the Sisters of St. Joseph, were made particularly joyous by the usual kindness and thoughtfulness of generous friends throughout the city and elsewhere.

The Sisters herein express their gratitude, coupled with the fervent hope that the year 1910 be happy and prosperous for each benefactor. REPROS HERRICIE

Its Use Becomes a Habit Easily Acquired and One of the Best

The young are as liable to dandruff as their elders. Accustom your child to the use of Newbro's Herpicide and you will never have a bald headed son nor a daughter wearing false hair. Herpicide will keep the hair and scalp sweet and clean, kills the dandruff germ and stops that terrible itching which causes the child to scratch and dig the head. The Herpicide habit is a

A THICK CRUST OF DANDRUFF NOTHING WOULD

"I used one bottle of Herricide on my daughter's head and am charmed with the result. She always had a thick crust of dandruff which nothing would remove. I shampooed her head once a week with your soap and rubbed her scalp and hair with Herpicide. The crust has disappeared and what little dandruff remains will be destroyed by another bottle. I take pleasure in recommending Newbro's Herpicide to my friends as a great scalp remedy and hair grower. I will always use Herpicide. Charleston, S. C. Mrs. Frank T. Morgan,

LOCAL TREATMENT FOR WOMEN'S DISORDERS

The health we enjoy depends very largely upon how The health we enjoy depends very largely upon how the blood circulates in our bodies; in other words, if we have perfect circulation we will have perfect health. There is a constant wearing out of the tissues in every part of the body. The blood flowing through the veins carries off this waste or dead matter, while the blood coming from the heart through the arteries brings the fresh new living tissue, the essence of the food we have digested, to replace what has been carried off. This constant wearing out and eventling of ried off. This constant wearing out and expelling of the dead matter and the replacing of it with new matter, atom by atom, goes on day and night, until in about 7 years a complete change has been effected. Thus every man and woman has an entirely different body in every particle of it from what he or she had 7 years before. It sometimes happens, however, from a variety of

causes, that the blood becomes congested in certain portions of the body. This means that the blood vessels in these parts become weakened, and the circulation in that section of the body becomes sluggish and stagnant. The consequence is that the dead matter in that part of the body is only partially carried away, and that but little of the new, vital matter is introduced there to build up and strengthen the tissues and perverse.

and nerves.

This condition invariably exists in all cases of female disorders. The dead matter retained in the circulation, which should have been expelled, causes irritation and inflammation of the delicate memberane. and oppresses the nerve centres. This condition is the cause of the grievous physical and mental suffering which accompanies female troubles.

To obtain relief it is evident that the first thing to
