WHAT IS CHIROPRACTIC?

(KI-RO-PRAK-TIK)

It is not medicine, surgery, osteopathy, Christian Science, massage, rubbing, fain cure, etc.

A chiropractor locates and replaces the specific misplacements within the spinal column, to remove interference with the nervous system. When the spinal nerves are normal and transmit 100 per cent of nerve energy, there is 100 per cent expression of life, which is health.

A big secret at new ideas about which he knows nothing. Others can form no opinion on a subject that is demanding general attention. Don't be either. Investigate. Things move along so rapidly nowadays that those who say it can't be done are always being interrupted by someone doing it.

Let me prove to you the cause of your ill-health. It will cost you nothing.
