AMUSEMENTS

Wilson Tonight.
Al. H. Wilson, the German dialect comedian, in "It Happened in Potsdam," a new German comedy adapted from the French by Cyril Reed, will be the attraction at the Grand tonight. The time and locale of the play call for an elaborate scenic embellishment. Mr. Wilson has composed several new songs for this production that include: "She Loves Me-Loves Me Not," "Loves of Bygone Days," "My Lady Fair," and "The Twilight Call." There is no form of amusement served up to the public today that is more wholesome and delightful than a good German comedy well played.

"The Girl and the Drummer."
The play, "The Girl and the Drummer," Fred Byers' newest and brightest offering, with Floy Mann and Fred Byers himself playing the title roles, becomes interesting from the start. It does not lag or bore you, never tiresome, for every pathetic scene is followed by rich, clean comedy, that starts a ripple of laughter which gives you a chance to brush away a tear. Coming to the Grand Saturday.

Another Visit of "Madame Sherry."

Men Who Don't Exercise
Suffer From Indigestion, Headaches, Poor Appetite, Sleeplessness.

Nothing so sure to "Set Up" a Man, Make Him Feel Brisk and Vigorous, as Dr. Hamilton's Pills.

Lack of exercise and overwork were the causes that combined to almost kill Samuel S. Stephens, Jun., one of the best-known citizens in Woodstock. In his convincing letter, Mr. Stephens says:

"A year ago I returned home after a long trip, completely worn out. I was so badly affected by chronic biliousness, so much overcome by constant headaches, dizziness, that I despaired of ever getting well."

"It was a blessing that I used Dr. Hamilton's Pills. In one week I felt like a new man. The feeling of weight and nausea in my stomach disappeared. My eyes looked brighter, color grew better, and, best of all, began to enjoy my meals. The dizziness, languor and feeling of depression passed away, and I fast regained my old-time vigor and spirits. Today I am well—thanks to Dr. Hamilton's Pills."

For health, strength, comfort and good spirits there is no medicine like Dr. Hamilton's Pills. 25c per box, five boxes for \$1, at all druggists and storekeepers, or by mail from the Catarthozone Company, Buffalo, N. Y., and Kingston, Canada.

Former Adelaide Man May Be U.S. Secretary of Agriculture
Professor H. A. Morgan Is Prominently Mentioned for Most Important Agricultural Position in the States—Attended Strathroy Collegiate Institute.

[Special to The Advertiser.]
Strathroy, Feb. 6.—Professor H. A. Morgan, son of the late John Morgan, of Adelaide, and a former student in the Strathroy Collegiate Institute, may shortly become secretary of agriculture for the United States. His name is one of those being considered by President Woodrow Wilson, who will make the appointment in a few weeks.

Professor Morgan is at present director of the Tennessee Experimental Station at Nashville. He has been holding high positions in various parts of the south for many years.

The Southern Agriculturist in a recent article says:

"Professor Morgan has the absolute confidence of the people for whom he has labored almost day and night for many years. He has won this because he merited it. His methods have been direct, frank and on a high plane. At Washington the same ability and bigness will win him the confidence of the nation."

"Tennessee can ill afford to lose Professor Morgan. He has begun a grand work in the state that can but suffer if he is taken away from it now. His advice in answer to farmers' letters, that come to the station at the rate of many thousands per year, would be greatly missed. His position would be hard to fill at the college and the experimental station. Farmers would miss him mightily from institutes, farmers' extension schools, from winter short courses and agricultural fairs. The cabinet position, however, would give him a larger usefulness and an opportunity to still serve Tennessee farmers while serving the farmers of the whole country."

RUEL, FAMOUS AVIATOR TO MANAGE NEW SARNIA FACTORY

Fell Five Hundred Feet and Was Badly Hurt, But Is Still an Enthusiastic Airman—New Firm Will Employ Thirty-Five Men to Start.

SARNIA BRANCH OFFICE,
209 Front Street.
Office hours, 9 a.m. to 5:30 p.m., 3:30 p.m. to 5:00 p.m.

[Special to The Advertiser.]
Sarnia, Feb. 6.—Lieut. Andre Ruel, an aviator of world-wide fame, and formerly of Paris, France, will make his home in Sarnia as manager of the branch of the Anker-Holth Manufacturing Company.

Mr. Ruel is said to be interested financially in the concern, and is an expert mechanical engineer. While in France he was an officer in the French cavalry, and later went in for auto racing, in which branch of sport he made an enviable name for himself. Driving a Fiat car he entered into most of the big track events in Europe and America.

From autoing he took up the study of aviation under some of the best-known airmen of the day, and came to the States with Moisant to enter into the racing game.

It was while with the latter that he experienced a fall of 500 feet from an aeroplane, escaping with no worse injuries than a broken collarbone and three broken ribs. He is still an enthusiastic airman, and will bring his monoplane here and conduct a number of experiments along the line of developing the hydro-plane. The lake shore is unequalled for aeroplane flights, and it is likely that the summer resorts will have the opportunity of witnessing a number of spectacular exhibitions this summer.

Will Open Shortly.
The Anker-Holth Company, manufacturers of elevator and hoist machinery, will start work in their Canadian branch here within a few days. The official headquarters of the concern are in Chicago. They have a branch in Port Huron, and have been contemplating coming to Sarnia for some time. The enterprise displayed by the Sarnia board of trade was largely instrumental in securing the industry for Sarnia, and all the credit belongs to them. The company will use the Morgan building here as their temporary plant until better accommodations are secured.

Employ 35 Men.
A force of 35 mechanics will be put to work at once, and over \$10,000 worth of machinery is already on the way to Sarnia from Chicago. It is understood that the headquarters of the concern are to be removed from Chicago to Port Huron, and that eventually the plant in this town will be one of the big factories here.

It is expected to have six hundred cream separators turned out and ready for delivery before spring. That the Anker-Holth Company is a reliable one is evidenced by the fact that it was selected for the town without bonus.

COAL AND ICEMEN ARE ALL SMILES AGAIN
A Few More Days of the Present Weather Means Fine Ice Harvest.

[Special to The Advertiser.]
Sarnia, Feb. 6.—The ice and coal dealers are again smiling. Winter has called around again, and the weather prophets, who forecast a mild winter, are hiding away from the wrath of the average citizen. If the cold snap lasts any length of time there will be plenty of ice, and the absence of snow will make the product all the better.

There was quite a bit of talk of building a canal, or so many of the people here have been able to walk on the sidewalks without plowing through the snow, and the old cement looks good to the majority.

There was quite a bit of talk of building a canal, or so many of the people here have been able to walk on the sidewalks without plowing through the snow, and the old cement looks good to the majority.

The United States weather bureau at Port Huron registered 2 below last night, although the local thermometers there indicated no more than 1 above. About the same temperature prevailed in Sarnia. An old man 80 years of age wandered away from his home in the American city last night, and was found in an unconscious condition lying behind a barn a mile or more away from his home. It is not known whether he will live, and his arms and legs are badly frozen. The St. Clair River is still fairly clear of ice, although a considerable quantity of shore ice, which came down from the lake, has collected along the bend in the river from Sarnia down to the vicinity of the ferry dock.

COPPER STOLEN
Men Arrested Sold Some of It in Sarnia.

[Special to The Advertiser.]
Sarnia, Feb. 6.—A colored man, John Churchill, white, is under arrest at Port Huron charged with the theft of large quantities of copper from a dealer in that city. Some of the copper was smuggled across the river and sold to a junk dealer in Sarnia. Either the police or the customs here may take some action against the local junk man.

MAY SECURE FACTORY.
[Special to The Advertiser.]
Sarnia, Feb. 6.—No details have been given out as yet, but it is understood that another manufacturing concern will locate here before spring. So far as is known, negotiations are now being made in a quiet way, and one of the representatives of the company is now in New York interesting capitalists there.

PLAN NEW Y. M. C. A. TO SAVE THE YOUTHS

[Special to The Advertiser.]
Sarnia, Feb. 6.—Messrs. Copeland and Shepherd, of Toronto, will address a gathering of citizens at the public library tonight on the subject of a Y. M. C. A. for Sarnia. The object of this sort is just what Sarnia needs, and what a number of citizens have been agitating for some time. Under present conditions there is no place for the average young man to spend his spare time in town, and the natural result is that the poolrooms and hotels become a favorite rendezvous.

MEN UNDER ARREST MAY BE THE CREDITON SAFE BLOWERS

Thomas Murphy and Donald McDonald Have Been Surrendered to the Provincial Police and Are Now in the Cells at Windsor—Valuable Furs Recovered.

[Special to The Advertiser.]
Detroit, Feb. 6.—The good work done by the Detroit police department in arresting two suspicious characters has been demonstrated by a request from the Huron County, asking for the detention of one of them, Thos. Murphy, who is wanted for supposed connection with several jobs recently done in the north country, and Brussels, also lary at Goderich and Brussels, also safe-blowing at Crediton. In consequence, Murphy and his pal, Donald McDonald, aged 21, have been formally surrendered to provincial police and are now locked up safely in the cells at Windsor awaiting further action.

"The woman in the case" was allowed to go on account of insufficient evidence. In possession of the gang was found several hundred dollars' worth of property, consisting of two Persian Jamb coats, two muffs and several pieces of neckwear, now awaiting identification at police headquarters here.

The chief of detectives speaks in terms of warm praise of the efficient work of Route Agent Murray, of the Canadian Express Company, London, in connection with the case.

EXPRESS BOUNDARIES HAVE BEEN ENLARGED
Representatives Went Over the City on Wednesday.

The city boundaries for the delivery of express parcels at city rates have been extended considerably. A party of men, consisting of Mr. W. H. Burr, chairman of the Express Traffic Association of Canada; Mr. B. S. Murray, superintendent of the Dominion Express; the representatives of the local companies, and Ald. S. F. Glass went over the newly-annexed districts and fixed the routes and limits for future express delivery at city rates. The purpose of the change is to include many of the industrial concerns at the east end of the city, which hitherto were not affected. It was deemed unnecessary to extend the limits to Pittsburg, as the express companies already have a branch in that part of the city.

Cheapside street is to be the northern boundary. The street railway extension into this territory is necessary for the increased territory to the north end. The limits were fixed along Oxford street as far east as Quebec street, and will include the military school and the damage repair shop. Then down Quebec street to Dundas street, and as far east as Nightingale avenue. To the south of Dundas, Egerton street is the boundary line as far as the Hamilton road, and then down the Hamilton road to Trafalgar street. The organ factory and McClary's are included in this stretch. The route leads from Trafalgar street, down Ottawa avenue until the street crosses the Wellington street bridge to High street, turning west to McClary avenue. The line then returns to Grand avenue, thence to the Wharfedale road. The lidgeway completes the territory in the south end of the city.

Ealing and Cheesha Green.

Ealing and Cheesha Green have been entirely neglected by the change, and some opposition may be expected from these districts. However the express companies do not expect much trouble, as the railway commission will not allow the companies to deliver packages in any districts where the roads are in poor condition.

As soon as industrial concerns locate in Cheesha Green and Ealing, provision will be made in extending the express rates to these districts also.

Blue prints will be made of the newly-fixed limits as soon as possible, and presented to the council for ratification. If the council refuse to grant the proposed changes the matter will be turned over to the railway commission to decide.

How to Treat Sprains and Strains
After Ten Days' Suffering Mr. Quinn Says Nothing Cures Like Nerville.

Thousands Recommend "Nerville"
One of the most soul-distressing accidents that can befall one is a bad ankle or wrist sprain. "If I had only known of Nerville I could have saved myself an enormous amount of pain and many agonizing nights of sleeplessness." Thus writes P. P. Quinn.

"I tumbled from a hay loft to the barn floor and sprained my right ankle and left wrist. They swelled rapidly and caused excruciating pains. It was not convenient to go to the city, and the liniment in the house was useless. When I got Nerville relief came quickly. It took down the swelling, relieved the pain, and gave me wonderful comfort."

"I can recommend Nerville for sprains, bruises, swellings, muscular pains, and sore back. I have proved it a sure cure in such cases."

Think what it might some day mean to you to have right in your home, ready for any accident or emergency, a little bottle of Nerville. Get it today.

LAXATIVE FOR OLD PEOPLE "CASCARETS"

What Glasses Are to Weak Eyes—Cascarets Are to Weak Bowels.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets, and they cost only 10 cents per box at any drug store. They work while you sleep.
