ricocheted off Fulton's pale chrome features.

What is the answer? Why nothing other than that Johnson is willing, that he has the true fighter's heart, the real puglistic instinct, but that he can't sock. At least he could not sock hard enough to send Fulton into dreamland, and since other fighters, such as At Palzer, Billy Miske, Harry Wills and Jack Dempsey, had done this trick, the Iowan suffered by comparison, and to this extent Johnson's status as an opponent for the Pottowatomia glant has dwindled, for if he cannot knock Fulton out after hitting him with everything but the ring stools, what can he do to Jess?
