LOCAL INTELLIGENCE. Tuesday, Oct. 31.

LARGE "NET PROCEEDS"-On Saturday morning last, Mr. Patrick Brennan, of Cowichan, went to inspect his salmon net, and was somewhat surprised to find it much cut and torn. In order to ascertain the cause of the damage he commenced hauling the net into the boat, but had not been long so engaged before he noticed a large fish of some kind or other floundering in the meshes. Believing that he had secured a fine prize in the shape of a fat sturgeon, Mr. Brennan hauled away vigorously until he brought the supposed royal fish to the edge of the boat, and, in order to get it on board, boldly laid hold of its tail. What was his horror and hold of its tail. What was his horror and dismay, however, at finding that instead of a sturgeon he had caught a Tartar in the shape of a huge shark, which having as great an objection as a Chinaman to having his tail pulled, made a double and darted with distended jaws at Mr. Brennan's arm, very nearly succeeding in nipping it off. The would-be captor was too glad to release his nearly anisoner and immediately gave him all ugly prisoner, and immediately gave him all the sea room he required. Mr. Brennan declares the monster was over twenty feet long, though probably the sight of the open jaws and the double rows of sharp teeth may have interfered with the here's calculating

REMANDED .- William Saunders, a discharged man-o-war's-man, was charged yesterday with threatening police officer Me-Carthy. When arrested a hammer was found in his coat, pocket, and the officer heard him drop something which afterwards proved to be a hatchet. The accused stated that he was walking the street at Esquimalt quietly when he was ordered to go home, and on declining to do so was arrested. He denied having the hatchet in his possession. He was remanded for one day, bail being taken for his appearance. The prisoner on being removed impudently remarked that he had not a cent. and did not intend to pay anys

Rowing Club-The particular attention of all gentlemen who signed the preliminary articles of association for the formation of the Victoria Rowing Club, is directed to the circumstance that the non payment of the subscriptions on or before to-morrow (Nov. lst) will entail upon them the additional entrance fee of \$7 50. Messrs, Pratt and Theobold have been authorised by Mr. Lang, Hon Treasurer, to receive the subscriptions, and it is highly essential for the interests of the club that the funds should be collected immediately to enable the Committee to send the orders for models to England as they cannot be expected to do so without feeling sure of meeting the expense.

THE COMING COMET-A comet is now making its way toward the earth, and may be seen some distance from the tour stars of the constellation Pegasus. It shows very dimly at present, but as it is coming directly toward the earth, it may soon be plainly seen without the aid of a glass. It appears now as a pale light with a bright spot in the centre.

There was some discrepancy between the testimony of the officer and the witness, but the Magistrate said he was bound to uphold the authority of the Police, and fined Saunders \$10, or fourteen days' imprisonment.

HIGHWAY ROBBERY-On Monday evening. as an old settler was proceeding home with a bundle of clothes under his arm, he was met on the Burnside, road by some Indians, who knocked him down and ill-used him,

SUPPOSED WRECK .- A deeply laden brigantine was seen on Monday morning about twenty miles below Sooke, lying apparently in a dangerous position near a reef. It could not, however, be ascertained whether she was ashore or not. In the evening Pilots Pike and Titcomb left in a schooner to render assistance, if required, and have not since returned. It is supposed that the vessel in question is the Josephine, now overdue at this port, although a vessel answering her description was observed near Race Rocks vesterday afternoon.

LATER .-- The schooner Wester returned at 1 a.m. with Pilot Pike on board; the brigantine Josephine was sighted about midnight on Monday, afloat, and Pilot Titcomb was placed on board. Thursday, Nov. 2. TAKEN AS HOSTAGE-On Sunday Messrs Begg, Sandwith and Welsh made an agreement with an Indian to convey them from Cowichan to Saanich for the sum of two dollars. On arriving at the Indian camp at the latter place the owner of the canoe refused to accept two dollars, and demanded three. Upon this sum being declined the other In-dians came to the assistance of their comrade and took possession of Mr. Begg, his coat and blankets, saying they would retain possession until the amount claimed was paid. The party, however, still refused, and Mr. Begg was released, but not his personal property.

After proceeding a short distance towards
town the Indians, who were told by some white men that they would get themselves into trouble, became alarmed, and the blankets and coat were restored to their owner.

A Young LADY FASCINATED BY AN AC FOR-SHE ATTEMPTS AN ELOPEMENT AND FAILS.—A decidedly "rich" case was developed and investigated by officer Prime of the second precinct, last evening. The principal parties engaged were a leading member of Meech's company, a married man, having a wife in Buffalo, and a handsome young lady of "sweet sixteen," or there-about, the daughter of a wealthy farmer residing in Erie county, near Rochester, but who was temporarily stopping with relatives here. She visited the theatre and witnessed the "Seven Sisters." One of the actors pleased her amazingly. He was such a good looking, clever young man. She soon made his acquaintance. They admired each other; she called at the hotel—the American House —and they played the leading characters in the drama of "Love's Stratagem," if not in the "Sshool for Scandal." The susceptible " knight of the sock and buskin" had a wife and family living in Buffalo, but that made no difference. The young lady forgot her sense of propriety, and stealthily carried on the courtship, if such conduct could be called by that name. They were frequently seen in company with each other, and finally the affair reached the ears of the foolish young lady's aunt and cousin, with whom she residing in the lower part of the city. They were horrified at her conduct, remonstrated with her, threatened to telegraph to her parents, &c., but all to no purpose. She seemed determined to become one of the "Seven Sisters of Satan," and no entreaty could move her from it. The company closed at the Opera House last evening and the frien. Columbia, and who was specially brought of the lady ascertained that she was to accompany the actor to Buffalo. They were was present at the marriage of Mr. and Mrs. The "happy man" had engaged an apartment in a sleeping car for the trip, and his willing victim was to meet him at the American House a few minutes before twelve o'clock. This was the programme. The friends of the lady placed the matter in the care of officer Prime, with instructions to arrest her if she attempted to accompany her seducer. The officer found her in one of parlors of the hotel awaiting the actor's arrival. He talked with her, and under threats and promises induced her to go home. He accompanied her to her friends' house and returned to the hotel. The actor was very anxious to see her. He was watched by the officer. He would visit one parlor and then

> A young lady moving in the upper circles at Chicago was betrothed at the beginning of the war to a lieutenant in the army. He was killed in battle, and his body taken home and buried by his friend and comrade, who was with him when he fell. To this young man the lady's affections were very naturally transferred in time, and she engaged to marry him. When the happy day arrived, and just as the clergyman was about to pronounce them man and wife, the lady sud denly fainted, and being revived, forbid any further procedure, as she said she had seen the spirit of her former lover, and he was opposed to the match. She persisted in her decision and has since retired to a convent.

Holloway's Pills are undeniably the finest medicine in the world for biliousness and indigestion. In all cases of deranged stomach, determination of blood to the head, bile, sick headache, liver, and stomach complaints, there is no medicine known that will give immediate relief as these renowned Pills; young and old, rich and poor, patronize them, and so many cures are effected by their use, that their praise is sounded from the torrid to the frigid zone; in truth, persons who travel consider them a necessary requisite. In sultry weather or warm climates, or in India, the blood becomes overheated, the liver torpid, the skin covered with prickly heat, and the whole system languid and exhausted. Nothing so soon gives relief as Holloway's Pills.

HOLLOWAY'S

Nervous Disorders.

Whatis more fearful than a breaking down of the nervous system? To be excitable or nervous in a small degree is most distressing, for where can a remedy be found? Here is one:—Drink but liftle wine, beer, or spirits, or far better, abstain from them altogether; do not take coffee—weak tea is preferable; get all the fresh air you can; take three or four of the Pills every night; eat plenty of solids, and avoid the use of slops. If these golden rules are followed, you will be happy in mind, strong in body, and forget you have any nerves.

Mothers and Daughters If there is one thing more than another forwhich hese Pills are so famous, it is their purifying properties, especially their power of cleaning the blood rom all impurities, and removing dangerous, and enewing suspended secretions. Universally adopted as the one grand remedy for femals complaints hese Pills never fail, never weaken the system, and liways bring about what is required.

Disorders of the Kidneys.

In all diseases affecting these organs, whether hey secrete too much or too little water; or whether they be afflicted with stone or gravel, or with aches and pains settled in the loins over the region of the kidneys, these Fills should be taken according to the printed directions, and the Ointment should be well rubbed into the small of the back at bed time. This treatment will give almost immediate relief after all other means have failed.

Stomach out of Order. No medicine will so effectually improve the tone of the stomach as these Pills; they remove all soidity, cocasioned either by intemperance or improper diet. They reach the liver, and reduce it to a healthy action; they are wonderfully efficacious in cases of spasm—in fact they never fall in ouring all disorders of the liver and stomach. Bronchitis, Diptheria, Coughs and Colds

No diseases are more frequent, few more dangerous, than affections of the respiratory organs. The
first symptoms of disordered action may always be
removed by Holloway's renowned Pills. They
quickly remedy any temporary stagnation of the
blood, relieve the overgorged veins, moderate the
hurried breathing, and enable the windpipe and
lungs to perform their functions with ease and
regularity. These Pills, by their purifying powers,
cleanse the blood from all impurities and thus
'griffy the system against consumption, astima.
