A Lovely Lake on the Pacific Slope

Okanagan Lake and Kettle Valley Railway. Inserted is a C. P. R. steamer at Penticton, on the Okanagan.

Okanagan Lake: What a stirring, suggestive place name it is. First found it on the map, down in Southern British Columbia, the south coast of the Canadian Pacific Railway; the name is from picturesque Vernon, just north of Penticton, in the Boundary county of British Columbia, between Vernon and Penticton, on the lake known as Okanagan.

Okanagan is a lake of great beauty, even a land of lakes of great beauty. Each mile of its length a beautiful scene unfolds, each league of its bank a league of varied charm. The journey over the long and winding lake is a day's journey of interest, from the moment the steamer is hoisted at Okanagan Landing till it lies up for the night at Penticton. A comfortable boat is

is, and a comfortable day of travel follows as the panorama of ports passes by. The shimmering waters that reflect every passing sun ray or crossing, fleecy cloud, are bordered by green-carpeted mountains. At their base rise tiers of beach lands that spell rich fertility, for they bear the fruits that have nursed the fame and name of Okanagan's fish. How the green forests on smiling orchards and vineyards, as the month begins on their lucid crops. Down the steep slopes come the leashed waters that irrigate wheat and where irrigation is needed, the life-giving streams being trained on iron and steel and garden with wonderful results.

Fields of grain and patches of grass make a checker-board of color, while the water-side towns add their bits of human civilization. There

Today—Keeps the Doctor Away

Healthy, your body properly nourished from the food you eat. It is the work of the kidneys and the liver to purify the blood and to remove the waste matter from the system. If these organs are not properly nourished, they will become weak and will not be able to perform their duty. This will result in a general debility of the system, and you will feel the effects of it in the form of indigestion, constipation, and a general feeling of weakness.

Try Nature's Remedy and you will find it is the best thing you can take for your kidneys and liver. It is a natural product and it is safe for everyone to take. It will purify the blood and will give you a new lease of life.

Demobilization of Troops

The demobilization of the Canadian Expeditionary Force is proceeding rapidly. The Canadian Pacific Railway has been asked to assist in the transportation of the troops. The railway has agreed to transport the troops at a special rate, and to provide them with the necessary facilities for their journey.

The railway has also been asked to provide the troops with the necessary facilities for their journey. The railway has agreed to transport the troops at a special rate, and to provide them with the necessary facilities for their journey.

It was therefore a wise decision on the part of the Government to ask the railway to assist in the demobilization of the troops. The railway has agreed to do so, and the troops will be able to return home in comfort and safety.

Famous Wheat C

Western Canada can produce the best wheat of this continent. The International Products Exposition at Denver, Colorado, in 1914, awarded the sweepstakes for the best wheat to a Western grower, Mr. Wheeler, of Saskatchewan. This is the only Canadian grower who has won the sweepstakes for the best wheat at the International Products Exposition at Denver, Colorado, in 1914.

Mr. Wheeler's wheat is famous for its quality and its yield. It is a hard red spring wheat, and it is one of the best wheat varieties in the world. It is grown in the province of Saskatchewan, and it is one of the main crops of that province.
