HOUSE DESTROYED
BY FIRE FRIDAY

Ernest Adams and Family Had Narrow Escape From Flames.

Ernest Adams and his family had a narrow escape last Friday night when the house which they occupy at Ferguson Manor caught fire about 11:30 on Friday night last. The blaze, which is believed to have originated from a spark from the cook stove in the summer kitchen to the rear, and which completely destroyed the building, caught some little time after the inmates of the house had retired. When around the whole kitchen was wrapped in flames and Mr. Adams and his family had barely enough time to escape with their lives let alone attempt to save any clothing or furniture.

The local fire brigade was called and rushed to the scene but little could be done to save the building. Hose from Miller's mill was got into play and averted much of the danger of a spread of the blaze to the lumber yard and other property in the immediate vicinity.

The building which belonged to the

HAD NARROW ESCAPE

Brian Dunn, C. N. R. section man of Newcastle had a narrow escape from death on Wednesday afternoon of last week when the trolley on which he was riding was struck by No. 4, Mr. Dunn who is the fire patrol of that section, was travelling on a small hand speed on the main line, near Peterson's Siding, coming towards Newcastle, when he observed the Ocean Limited very near, he had but time to roll off of the speed, but not to remove the machine from the track, when the train struck it and in leaving the track the speedy hit Mr. Dunn, both being thrown quite a distance. He was unconscious when picked up by members of the train crew and brought to Newcastle. Mr. Dunn's injuries are severe and painful but not considered dangerous.

The whistle of the locomotive was blown when coming round the curve at Peterson's Siding, but owing to the noise made by the speedy, was not heard by Mr. Dunn. The driver did not see the speedy until they had rounded the curve and were almost upon it and as they were coming down grade, it was impossible to slow up.

Vice-President Grant Hall
Says Big Crop is Assured

Speaks with enthusiasm of Western Conditions in light of twenty-five years experience—Big Company adds miles of new Rolling Stock to take care of grain movement

Twenty-five years intimate and continuous acquaintance with Western Canada would give any man the right to speak authoritatively of conditions there, and when that man is Grant Hall, Vice-President of the Canadian Pacific Railway, his views will be accepted without question wherever published.

Grant Hall has just returned from a tour of inspection over the line. He has been all through the West and he returns to Montreal full of enthusiasm about Western crop conditions and quite realizing the immensity of the task that lies before the railroads in moving this crop.

It was agreed that last year's handling of the crop left no room for criticism. The tremendous task of moving out the grain was handled in splendid style by the railroads, and there is every indication the same thing will happen this year. Grant Hall, interviewed on his return to Montreal, said: "The Canadian Pacific is preparing to move the grain and we expect to keep up to all our previous good records in that line."

It was fortunate for Canada that the company months ago decided to largely add to its rolling stock. The Canadian Pacific in this year building 40 engines and 4,000 new freight cars or practically forty freight trains of fifty cars each, enough equipment to have moved the entire western crop of a very few years ago. This new equipment will be so hand to do its share of the work this year.

Mr. Hall makes no prediction as to the actual yield but of the general conditions he says:—"In the long term of years in which I have watched the development of the grain crop I feel safe in saying that never have I seen quite as enthusiastic about the prospects. Generally at this time of year there are many reports of damage by
